"Assume you are what you want to be. Walk in that assumption and it will harden into fact." This is a definitive guide to manifestation, taught by the greatest modern teacher of the subject, Neville Goddard. The advice, if applied, will change your life. Despite the power and consistency of these Universal Laws, why is it that some people still struggle to apply them in their daily lives? Why can it sometimes be difficult to apply these manifestation techniques in a way that yields consistent results... every single time, no matter what we ask for? If these Universal Laws are as "precise" as the laws of physics, then shouldn't they work one hundred percent of the time without fail for every single person on this planet? If you have asked these questions at some point in your spiritual journey, you're in for a real treat. Join bestselling author and spiritual explorer Richard Dotts as he returns with his latest and most anticipated book for this year, *Getting Into Manifestation Zone - A Radical Way to Manifest 24/7*. In *Getting Into Manifestation Zone*, Dotts puts forth the radical premise that our results are inconsistent not because these Universal Laws do not work reliably all of the time. Rather, it is because these Universal Laws are unseen, and most people do not have an

accurate conceptual representation of how they work. As a result, an individual can live his entire life not understanding the powerful nature of these unseen spiritual forces and how to tap into them. The solution then, according to Dotts, is to conceptualize these Universal Laws in a way such that they become visible to us. In his usual trademark style, Richard walks readers through a radical framework that allows us to clearly visualize the inner workings of these Universal Laws. More importantly, Richard shows everyone how to know where they stand in relation to these Universal Laws, and hence "foresee" the future they are about to create. As Richard explains, an accurate visualization of these Universal Laws is the first step. When we have an accurate framework through which to perceive these Laws, we turn these ethereal and unseen forces into something tangible and instantly perceivable by our senses. By cultivating a moment-to-moment awareness of where we stand in relation to these Universal Laws, we are able to focus our energies and manipulate these unseen forces in a precise manner that yields results every single time. In *Getting Into Manifestation Zone*, Richard presents a completely new framework for manifestations that allows one to accurately visualize these spiritual principles for themselves. Once an understanding and internalization of this framework is complete, the reader is taken through a series of exercises based on this

framework to create an alternate reality for himself. The framework also answers many age-old questions about applying these spiritual techniques to create physical manifestations, such as: - Why is it that most people find it so difficult to create a new, desired reality? (The framework explains why most people perpetuate their existing realities by default, unless they know the right way to "break out" of this unconscious way of living.)- How did the spiritual masters throughout the ages create seeming miracles and manifestations out of thin air? (The framework explains how they are able to do so by immersing themselves entirely in the spiritual dimension and staying there.)- How can YOU spend most of your time in the spiritual dimension, and yet function effectively as a physical being in this modern world? - And more...

An ideas and process based book helping individuals and groups to follow dreams through creation of online and physical intentional communities, that inspire, innovate and contribute to positive social change and new realizations of love, peace and plenty around the globe.

*Cantonese: A Comparative Perspective* aims to examine from a semantic perspective how syntactic structures and focus adverbs in Mandarin Chinese and semantic particles in Cantonese conspire to encode focus structures and determine focus manifestation in Chinese. With both as tonal languages, Mandarin Chinese and Cantonese manifest different morpho-syntactic configurations to mark focus. A general principle governing focus marking in Mandarin Chinese and Cantonese is given in the book, which aims to give a better understanding on the underlying principles the two used to mark additive and restrictive meanings, and related focus interpretations. Particular attention is also drawn to the co-occurrence of multiple forms of restrictive and additive particles in Cantonese, including adverbs, verbal suffixes and sentence-final particles. Linearity has shown to be an important parameter to determine how focus is structured in Cantonese. This book is aimed at advanced graduate students, researchers and scholars working on Chinese linguistics, syntax and semantics, and comparative dialectal grammar.

Carlos Castaneda takes the reader into the very heart of sorcery, challenging both imagination and reason, shaking the very foundations of our belief in what is "natural" and "logical." In 1961, a young anthropologist subjected himself to an extraordinary apprenticeship with Yaqui Indian spiritual leader don Juan Matus to bring back a fascinating glimpse of a Yaqui Indian's world of "non-ordinary reality" and the difficult and dangerous road a man must travel to become "a man of knowledge." Yet on the bring of that world, challenging to all that we believe, he drew back. Then in 1968, Carlos Castaneda returned to Mexico, to don Juan and his hallucinogenic drugs, and to a world of experience no man from our Western civilization had ever entered before.

Walker Atkinson under the pseudonym "The Three Initiates". This book is not exactly The Kybalion itself, it is more of a critical interpretation by Atkinson on hermetic philosophy. As such, it should be read with this in mind that it is not an authoritative hermetic text, but one only dedicated to Hermes Trismegistus. The Kybalion presents seven universal principles it proposes to be the Seven Hermetic Principles: Mentalism, Correspondence, Vibration, Polarity, Rhythm, Cause and Effect, and Gender. These principles are essentially explications of cycles, and before these principles is the notion of the primacy of mind as the cause of All (philosophical mentalism). This idea of mentalism is inspired by what is written about the Mind in The Hermetica. Coinciding with Spiritualism, New Thought, and Theosophy, the book became very popular in New Age movements, particularly with its notion of spiritual and mental alchemy. The Kybalion is a text which must be read with this in mind, while it is an interpretation of hermetic philosophy, it is in part still a relic of its time. Its influence cannot be understated, and the need to read it critically cannot be overstated.

Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. explains the mechanic of manifestation and clarifies how our consciousness transforms energy into physical matter. Are you frustrated by the fact that your life doesn't look the way you imagined? Whether it's too little money, a struggling relationship, or a dead-end job, it can seem as if nothing works out the way you hoped it would.

*Manifesting: The Practical, Simple Guide to Creating the Life You Want* is the solution. Too often we walk through life in a state of lack, choosing to focus our attention on our deficiencies and allowing our minds, bodies, and spirits to swirl with discontent and negativity. But when our focus and attention is sunk in darkness, that becomes all we experience in our lives. Manifesting offers a transformative new approach. By focusing on what you wish to have or achieve, instead of despairing over what you are missing, you will find that you can manifest those very things in your life. Author Kris Ferraro is a practitioner and teacher in the areas of healing, growth, and metaphysics who has used manifesting in her own life and practice for years. In *Manifesting*, she guides readers to envision and create the lives they've always dreamed of with real, actionable steps, exercises, and wisdom.
