over the past twenty years, McGinn, a distinguished philosopher and teacher, measures the best of recent Anglo-American philosophical writing, considering books by Thomas Nagel, John Searle, and Daniel Dennett, among others, and navigating with energy and wit important new work in ethics, philosophy of language, and philosophy of mind. Opening with a section on philosophical lives--books written on or by Ludwig Wittgenstein, Bertrand Russell, Charles Peirce, and A. J. Ayer-- McGinn moves to the question of consciousness, offering readers two dozen crisp and provocative pieces on work seeking to define and illuminate the mind, its activity, and its relation to the world of physical objects. Closing with a section on ethics, McGinn brings a bold and sharply original perspective to argument in such controversial areas as animal rights and feminist moral theory. In the Fall of 1930 Will Durant found himself outside his home in Lake Hill, New York, raking leaves. He was approached by a well-dressed man who told him in a quiet tone that he was going to kill himself unless the philosopher could give him a valid reason not to. Not having the time to wax philosophic on the matter, Durant did his best to furnish the man with reasons to continue his existence. Haunted by the encounter with the despondent stranger, Durant contacted 100

Durant turned their answers and his own into a book entitled "On The Meaning Of Life," which was released to the general public in 1932. Unpromoted, the little treasure found its way into few hands, and almost no copies of the book exist today. Now available for a new generation through Prometheus Press, "On The Meaning Of Life" is
