Original.

NATIONAL BESTSELLER The book that started the guerrilla marketing revolution, expanded and completely updated for the twenty-first century. Jay Levinson's Guerrilla Marketing revolutionized marketing strategies for the small-business owner with his take-no-prisoners approach to finding clients. Based on hundreds of solid and effective ideas, Levinson's philosophy has given birth to a new way of learning about market share and how to gain it. In this completely updated and expanded fourth edition, Levinson offers a new arsenal of weaponry for small-business success including strategies for marketing on the internet (explaining when and precisely how to use it); tips for using new technology, such as podcasting and automated marketing; programs for targeting prospects and cultivating repeat and referral business, and management lessons in the age of telecommuting and freelance employees. Guerrilla Marketing is the entrepreneur's marketing bible—and the book every small-business owner should have on his or her shelf.

The world no longer defines successful businesspeople by their suit and ties. Today we live in a world where any entrepreneur can create a successful, profitable, enjoyable business in whatever style suits him or her the best. And hey, if putting on a suit and heading for your corporate office is what works best for you, that's great. But if throwing on your favorite pair of blue jeans and heading for the beach works better, that's cool too. In Business in Blue Jeans: How to Have a Successful Business on Your Own Terms, in Your Own Style, you'll learn how to create and grow a business that works for you. More than just a "how to" guide, Business in Blue Jeans, contains actionable, practical that show you how to: Break through the "brain junk" that's been getting in your way to starting a business. Develop a business idea (or hone the one you already have) with real potential for success. Package your idea to attract the people who want what you have to offer and will pay for it. Become visible to your potential customers and clients so that they think of you first. Stand head and shoulders above your competitors without spending an extra dime. Build a community and network that includes the support and the connections you need, drawing people in instead of pushing them away. Hire, train, and manage a team as your business grows so that it's never out of control (and so you can hit the beach!). We live in an ever-changing economy and that can make starting and growing a business seem daunting. But with the right guidance, you, too, can have successful business that makes everything else that you want in life possible.

The book every small-business owner should own First published in 1983, Jay Levinson's Guerrilla Marketing has become a classic in the field of business, revolutionising marketing for small businesses all over the world and creating a new way to understand market share and how to gain it. In this completely updated and expanded fourth edition of Levinson's first Guerrilla Marketing book, his take-no-prisoners approach to finding clients is on full display, as he offers hundreds of marketing ideas that really work and a new roadmap for small-business success in the global marketplace. Filled with leading-edge strategies for marketing on the Internet, putting new technologies to work, targeting prospects, cultivating repeat and referral business, and managing in the age of telecommuting and freelance employees, among others, Guerrilla Marketing will be the entrepreneur's marketing bible for the twenty-first century.

Shows how to promote a business on the Internet while applying proven marketing tactics, and explains how to use various software packages

Since the publication of this bestseller two years ago, the number of people who are connected to the Internet directly rather than through an online provider has exploded, which has had a dramatic impact on online commerce. Guerrilla Marketing Online, 2nd Edition, completely revised and updated, addresses this shift in user access, unveiling new marketing weapons and techniques for promoting business electronically.

Levinson and Horowitz show the dramatic potential for profit in not just being a green company, but in addressing the huge social problems that have stumped humankind for millennia. Instead of waiting centuries for government to get it done, business can grab the reins and accomplish more through the profit motive than through any amount of guilt-tripping. Green practices can save and make money, and deep social change can skyrocket those revenues—when marketed correctly.
