Hunger by Knut Hamsun - The Original Classic Editon Finally available, a high quality book of the original classic edition. This is a new and freshly published edition of this culturally important work, which is now, at last, again available to you. Enjoy this classic work today. These selected paragraphs distill the contents and give you a quick look inside: From there his parents moved when he was of district of Lofodten—that land of extremes, where the year, and not the day, is evenly divided between darkness and light; where winter is a long dreamless sleep, and summer a passionate dream without sleep; where land and sea meet and intermingle so gigantically that man is all but crushed between the contents—and two—or else raised to titanic measures by the spectacle of their struggle. ...But when Ka Gates of the Kingdom, the heaven-storming truth-seeker of the Game of Life, and the acclaimed radical leader in the first acts of Sunset Glow, surrenders at last to the powers that be in order to gain a safe and sheltered harbor for his declining years, then another man of 29 stands ready to denounce him and to take up the rebel cry of youth to which he has become a traitor. Hamsuns ironic expression do more than the plot itself to knit the plays into an organic unit, and several of the characters are delightfully drawn, particularly the two women who play the greatest part in Karenos life: his wife Eline, and Teresita, who is one more of his many feminine embodiments of the passionate and changeable Northland nature. ...From 1897 to 1912 Hamsun produced a series of volumes that development of the tendencies shown in his first novels: Siesta, short stories, 1897; Victoria a novel with a charming love story that embodies the tenderest note in his production, 1898; In Wonderland, travelling sketches from the Caucasus, 1900; Brushwood, short stories, 1903; The Wild Choir, a collection of poems, 1904; Dreamers, a novel, 1904; Struggling Life, short stories and travelling sketches, 1906; Benoni, and Rosa, two novels forming to some extent sequels to Pan, 1908; A Wanderer Plays with Muted Strings, a novel, 1909; and The Last Joy, a shapeless work, half novel and half mere uncoordinated reflections, 1912. ...I turned to a shop window and stopped in order to give him an opportunity of getting ahead, but when, after a lapse of some minutes, I again walked on, I saw that he had stood stock still. --without stopping to reflect I made three or four furious onward strides, caught him up, and slapped him on the shoulder.

"Supernatural suspense at its finest...The best thing about The Hunger is that it will scare the pants off you."--The New York Times Book Review "Deeply, deeply disturbing, hard to put down, not recommended reading after dark."--Stephen King A tense and gripping reimagining of one of America's most fascinating historical moments: the Donner Party with a supernatural twist. Evil is invisible, and the way to explain the series of misfortunes that have plagued the wagon train known as the Donner Party. Depleted rations, bitter quarrels, and the mysterious death of a little boy have driven the isolated travelers to the brink of madness. Though they dream of what awaits them in the West, long-buried secrets begin to emerge, and dissent among them escalates to the point of murder and chaos. Tragedy...or the feelings that someone—or something—is stalking them. Whether it's a curse from the beautiful Tamsen Donner (who some think might be a witch), their ill-advised choice of route through uncharted terrain, or just plain bad luck, the ninety men, women, and children of the Donner Party are heading into one of one of the deadliest and most disastrous Western adventures in America. As the winter deepens, the survivors start to wonder if there really is something disturbing, and hungry, waiting for them in the mountains...and whether the evil that has unfolded around them may have in fact been growing within them all along. Effortlessly combining the supernatural and the historical, The Hunger is an eerie, thrilling look at the volatility of human nature, pushed to its breaking point to death before. For her, survival is second nature.

An international bestseller and the inspiration for a blockbuster film series, Suzanne Collins's dystopian, young adult trilogy The Hunger Games has also attracted attention from literary scholars. While much of the criticism has focused on traditional literary readings, this innovative collection explores the phenomena of place and space in the novels—how places define people, how they wield power to create social hierarchies, and how they can be conceptualized, carved out, imagined and used. The essays consider wide-ranging topics: the problem of the trilogy's Epilogue; the purpose of the love triangle between Katniss, Gale and Peeta; Katniss's role as “mother”; and the trilogy as a textual “safe space” to explore dangerous topics. Presenting the trilogy as a place and space for multiple discourses—political, social and literary—this work assertively places The Hunger Games in conversation with the world in which it was written, read, and adapted.

Fight food addiction and overeating with fitness guides, recipes, and meal plans from renowned physician Pam Peake. In The Hunger Fix, Dr. Pam Peake uses the latest neuroscience to explain how unhealthy food and behavioral “fixes” have gotten us ensnared in a vicious cycle of overeating and addiction. She even shows that dopamine rushes in the body work exactly the same way with food as with cocaine. Luckily, we are all capable of rewiring, and the very same dopamine-driven system can be used to reward us for healthful, exciting, and fulfilling activities. The Hunger Fix lays out a science-based, three-stage plan to break the addiction to false fixes and replace them with healthier actions. Fitness guides, meal plans, and recipes are constructed to bolster the growth of new neurons and stimulate the body's reward system. Gradually, healthy fixes like meditation, going for a run, laughing, and learning a new language will replace the junk food, couch time, and other bad habits that leave us unhappy and overweight. Packed with practical tips, useful advice, and plenty of wit, wisdom, and inspiring stories of those who have successfully transformed their bodies, The Hunger Fix is a life-changing program for anyone (of any size) trapped by food obsession and the urge to overeat.

The world has made progress against hunger and poverty, and we have the opportunity—now—to win changes that will reduce hunger and poverty in the United States and around the world. God is calling people of faith and conscience to change the politics of hunger. "David Beckmann and Bread for the World have done an extraordinary job not only in providing positive responses in the fight against hunger but in helping to lead the way in terms of development and urging the United States to improve coordination and better target our investments and to learn from local communities." --Hillary Clinton, Secretary of State "It has been my privilege to work with David and witness their remarkable work on behalf of hungry people." ---Senator Richard Lugar, Ranking Republican, Senate Foreign Relations Committee "I am delighted to endorse David Beckmann's new book. I have the highest regard for him and his work." ---Cardinal Theodore McCarrick, Catholic Archbishop Emeritus of Washington "This is a message for which the church and the world are hungry!" ---Mark Hanson, Presiding Bishop, Evangelical Lutheran Church in America "When people of hope engage politically, effective change can and does happen. To learn how, read this book-and act!" ---Katherine Jefferts Schorr, Presiding Bishop, Episcopal Church "David points to the potential for far greater progress if individual Christians and churches will continue to offer grassroots compassionate care to those in need, while also boldly challenging our government to more generously and wisely participate with us in the battle against poverty and hunger." ---Lynne Hybels, Co-founder, Willow Creek Community Church "Exodus from Hunger tells us how God is moving in history with a concern for the poor and invites us to join that movement." ---Jim Wallis, President, Sojourners "Beckmann tells the truth in ways that empower!" ---Walter Brueggemann, Professor Emeritus, Columbia Theological Seminary

From the New York Times bestselling author of Bad Feminist: a searingly honest memoir of food, weight, self-image, and learning how to feed your hunger while taking care of yourself. “I ate and ate and ate in the hopes that if I made myself big, my body would be safe. I buried the girl I was because she ran into all kinds of trouble. I tried to erase every memory of her, but she is still there, somewhere. . . . I was trapped in my body, one that I barely recognized or understood, but at least I was safe.” In her phenomenally popular essays and long-running Tumblr blog, Roxane Gay has written with intimacy and sensitivity about food and body, using her own emotional and psychological struggles as a means of exploring our shared anxieties over pleasure, consumption, appearance, and health. As a woman who describes her own body as “wildly undisciplined,” Roxane understands the tension between desire and denial, between self-comfort and self-care. In Hunger, she explores her past—including the devastating act of violence that acted as a turning point in her young life—and brings readers along on her journey to understand and ultimately save herself. With the bracing candor, vulnerability, and power that have made her one of the most admired writers of her generation, Roxane explores what it means to learn to take care of yourself: how to feed your hungers for delicious and satisfying food, a smaller and safer body, and a body that can love and be loved—in a time when the bigger you are, the smaller your world becomes.

The hilarious instant New York Times bestseller, The Hunger Pains is a loving parody of the dystopian YA novel and film, The Hunger Games. Winning means wealth, fame, and a life of therapy-longue means death, but also fame! This is The Hunger Pains. When Kantikiss Neverclean replaces her sister as a contestant on the Hunger Games—the second-highest-rated reality show on television—she has no idea who to expect. Having lived her entire life in the telemarketing district's worst neighborhood, the Crack, Kantikiss feels unprepared to fight to the death while simultaneously winking and looking adorable for the cameras. But when her survival rests on choosing between the dreamy hunk from home, Carol Handsomestein, or the doughy kid who has been her best friend since middle school, she has no idea who to pick. Conflicts may not be found on the battlefield but in her own heart. . . . which is unfortunately on a battlefield.

Eternal youth is a wonderful thing for the few who have it, but for Miriam Blaylock, it is a curse -- an existence marred by death and sorrow. Because for the everlasting Miriam, everyone she loves withers and dies. Now, haunted by signs of her adoring husband's imminent demise, Miriam sets out in serach of a new partner, one who can quench her thirst for love. Sarah Roberts, a brilliant young scientist who may hold the secret to immortality. But one thing stands between the intoxicating Miriam Blaylock and the object of her desire: Dr. Tom Haver...and he's about to realize that love and death to hand.

Desperate to solve a global food shortage, ExoGen scientist Dr. Ella Masse oversees the creation and release of RC-714, a gene that unlocks millions of years of adaptation and evolution, allowing crops to use long dormant junk DNA to rapidly adapt to any environment. The world's food supply grows aggressively, occupying every inch of earth, no matter how inhospitable. RC-714 is digested, absorbed and passed on. The Change affects small, fast breeding mammals first. They multiply with the same aggressive speed as the ExoGen plants, but a new, insatiable hunger drives them to violence. War between species breaks out. And then RC-714 reaches humanity, along with every other large creature on the planet. Civilization implodes.

To adapt to a world full of predators, accessing genes dating back to the beginning of life itself. Peter Crane and his son Jakob survive the Change, living in their family farmhouse and eating non-ExoGen food from a bi dome, one of many provided by Ella Masse, who discovered the ramifications of her breakthrough too late. The pair ekes out a living in a world full of predators, and with her daughter, pursued by desperate predators and men alike. As the farmhouse falls under attack, Crane learns that the end of humanity, of life on Earth, can still be averted: If Ella Masse and her daughter survive, and if they make it to the other side of the country without being captured...or consumed. Jeremy Robinson merges the science of Michael Crichton's pre-apocalypse, creating a true worst-case scenario for GMO crops that will have people reading labels before eating their next pepper, tomato or kernel of corn.

We Are Called to Change the Politics of Hunger

. . . this gem of a book deserves a wide audience. Appropriate for African and women's studies courses and a must for college and university libraries. --Choice . . . Mpho relates the story of her life with an integrity that makes for utterly compelling reading. . . . The fortitude of this woman, now in her late 60s, is a lesson to us all. --The Bookseller, United Kingdom Mpho's story is a fascinating autobiography . . . --KLIATT . . . a powerful autobiography of a Lesotho elder who tells her life as an African woman in South Africa. The focus on black culture and concerns as much as racism allows for an unusual depth of understanding of black concerns and lifestyles in Africa. --Reviewer's Bookwatch An African woman's poignant and beautifully crafted memoir lyrically portrays the brutal poverty and reliance on ritual that shape the lives of her people, the Basotho. . . . A commanding and important work that will captivate readers with its unique voice, narrative power, and unforgettable scenes of life in Southern Africa. --Kirkus Reviews . . . a stunning autobiography of a remarkable woman . . . Nthunya's testimony is eloquent. Although her voice is generally one of dignified emotional distance, it is punctuated by her very human humor and pain. --Publishers Weekly . . . recommended for collections in African folklore. --Library Journal I am telling my stories in English for many months now, and it is a time for me to see my whole life. I see that things are always changing. I was born in 1930, so I remember many things which were happening in the old days in Lesotho and which happen no more. I lived in Benoni Location for more than ten years, and I saw the Boer policemen taking black people and beating them like dogs. They even took me once, and kept me in one of their jails for a while. --Mpho 'Matsepo Nthunya A compelling and unique autobiography by an African woman who tells the formal education, less privilege, and almost no experience of books or writing. Mpho's is a voice almost never heard in literature or history, a voice from within the struggle of ordinary African women to negotiate a world which incorporates ancient pastoral ways and the congestion, brutality, and racist violence of city life. It is also the voice of a born storyteller who has a subject worthy of her gifts--a story for all the world to hear.

The 1840s witnessed widespread hunger and malnutrition at home and mass starvation in Ireland. And yet the aptly named 'Hungry 40s' came amidst claims that, notwithstanding Malthusian prophecies, absolute biological want had been eliminated in England. The eighteenth and early nineteenth centuries were supposedly the period in which the threat of famine lifted from the peoples of England. But hunger remained, in the words of Marx, an 'unremitted pressure'. The politics of hunger offers the first systematic analysis of the ways in which hunger continued to be experienced and feared, both as a lived and constant spectral presence. It also examines how hunger was increasingly used as a disciplining device in new modes of governing the population. Drawing upon a rich archive, this innovative and conceptually-sophisticated study throws new light on how hunger persisted as a political and biological force.

Ambition will fuel him. Competition will drive him. But power has its price. It is the morning of the reaping that will kick off the tenth annual Hunger Games. In the Capitol, eighteen-year-old Coriolanus Snow is preparing for his one shot at glory as a mentor in the Games. The once-mighty house of Snow has fallen on hard times, its fate hanging on the slender chance that Coriolanus will be able to outcharm, outwit, and outmaneuver his fellow students to mentor the winning tribute. The odds are against him. He's been given the humiliating assignment of mentoring the female tribute from District 12, the lowest of the low. Their fates are now completely intertwined - every choice Coriolanus makes could lead to favor or failure, triumph or ruin. Inside the arena, it will be a fight to the death. Outside the arena, Coriolanus starts to feel for his doomed tribute . . . and must weigh his need to follow the rules against his desire to survive no matter what it takes.

A comprehensive and compelling guide to Suzanne Collins's bestselling young-adult, dystopian trilogy The Hunger Games, Catching Fire and Mockingjay. Already a publishing phenomenon to rival Harry Potter (over 50 million copies sold), the four blockbuster movies starring Jennifer Lawrence have grossed almost \$3 billion dollars at the box office. Suzanne Collins has created a series of characters and situations that have struck a chord not only with the target audience of teenagers, but which have also drawn in adult readers: the series is second only to Harry Potter in NPR's popular poll of the Top 100 Teen Novels. Robb explores themes in The Hunger Games, and the influences and inspirations that lie behind the books, and highlights where Suzanne Collins has drawn on mythology and history, reshaping them to fit her universe. He examines the characters and situations created in the book and how these have impacted on the books' largely teen readership. He also looks at reactions to the books from fans and critics, both acclaim and criticisms faced by the author. Robb chronicles the adaptation of The Hunger Games from acclaimed, best-selling novel to blockbusting film. With a script by Suzanne Collins herself, the film has made stars of Jennifer Lawrence as Collins' heroine Katniss Everdeen, Josh Hutcherson as Peeta Mellark and Liam Hemsworth as Gale Hawthorne.

How to focus anti-hunger efforts not on charity but on the root causes of food insecurity: improving public health, and reducing income inequality. Food banks and food pantries have proliferated in response to an economic emergency. The loss of manufacturing jobs combined with the recession of the early 1980s and Reagan administration cutbacks in federal programs led to an explosion in the growth of food charity. This was meant to be a stopgap measure, but the jobs never came back, and the "emergency food system" became an industry. In Big Hunger, Andrew Fisher takes a critical look at the business of hunger and offers a new vision for the anti-hunger movement. From one perspective, anti-hunger leaders have been extraordinarily effective. Food charity is embedded in American civil society, and federal food programs have remained intact while other anti-poverty programs have been eliminated or slashed. But anti-hunger advocates are missing an essential element of the problem: economic inequality driven by low wages. Reliant on corporate donations of food and money, anti-hunger organizations have failed to hold business accountable for offshoring jobs, cutting benefits, exploiting workers and rural communities, and resisting wage increases. They have become part of a "hunger industrial complex" that seems as self-perpetuating as the more famous military-industrial complex. Fisher lays out a vision that encompasses a broader definition of hunger characterized by a focus on public health, economic justice, and economic democracy. He points to the work of numerous grassroots organizations that are leading the way in these fields as models for the rest of the anti-hunger sector. It is only through approaches like these that we can hope to end hunger, not just manage it.

“In this story illustrating the reality of childhood hunger and food insecurity, Lulu invites kids into her world to help them understand what it’s like to battle the Hunger Monster. Lulu and the Hunger Monster delivers the right message at the right time, helping readers recognize the problem of childhood hunger and moving them to find solutions.” --Jeff Bridges, actor and anti-hunger advocate When Lulu’s mother’s van breaks down, money for food becomes tight and the Hunger Monster comes into their lives. Only visible to Lulu, Hunger Monster is a troublemaker who makes it hard for her to concentrate in school. How will Lulu help her mom and defeat the Monster when Lulu has promised never to speak the monster’s name to anyone? This realistic-and hopeful-story of food insecurity builds awareness of the issue of childhood hunger, increases empathy for people who are food insecure, and demonstrates how anyone can help end hunger. Lulu and the Hunger Monster® empowers children to destigmatize the issue of hunger before the feeling turns into shame. The author combines years of experience fighting hunger as a food bank CEO with an MFA in writing for young children to craft an honest story of how poverty and food insecurity can affect adults and their children. Lulu’s story addresses the effects of hunger on learning and can be used in group settings to address social justice issues in an accessible and encouraging way.

"Nothing less than astonishing. . . ."—Booklist (starred review) *From a renowned international journalist comes a galvanizing international bestseller about mankind's oldest, most persistent, and most brutal problem—world hunger. There are now over 800 million starving people in the world. An average of 25,000 men and women, and in particular children, perish from hunger every day. Yet we produce enough food to feed the entire human population one-and-a-half times over. So why is it that world hunger remains such a deadly problem? In this crucible and inspiring work, award-winning author Martin Caparrós travels the globe in search of an answer. His investigation brings him to Africa and the Indian subcontinent where he witnesses starvation first-hand; to Chicago where he documents the greed of corporate food distributors; and to Buenos Aires where he accompanies trash scavengers in search of something to eat. An international bestseller when it first appeared, this first-ever English language edition has been updated by Caparrós to consider whether conditions that have improved or worsened since the book's European publication. With its deep reflections and courageous journalism, Caparrós has created a powerful and empathic work that remains committed to ending humankind's longest ongoing crisis.*

'The Dutch in Wartime, Survivors Remember' is a series of books containing the wartime memories of Dutch immigrants to Canada and the USA, who lived through the occupation of the Netherlands in World War II. Book 8, 'The Hunger Winter' contains memories of the devastating winter of 1944-45 when a famine, intentionally brought about by the Nazi occupation forces, ravaged the Netherlands. More than 200,000 people suffered from severe malnutrition and an estimated 20,000 people died of starvation.

An exciting dystopian fantasy thriller series, The Hunger Games began its life as a trilogy of books by Suzanne Collins, the first released in 2008. An immediate success, the first instalment had a first printing of 50,000 hardcover copies, which quickly ballooned to 200,000. Spending one hundred consecutive weeks on the New York Times bestseller list, the book was put into development for release on the big screen. The first film, starring Academy Award-winning actress Jennifer Lawrence, broke box office records, and all of its sequels are expected to follow suit.Fan Phenomena: The Hunger Games charts the series' success through the increasingly vocal online communities that drive the young adult book market. Essays here consider the fashion that the series has created and how the costumes, memorabilia, merchandising, and branding have become an ever bigger part of the fandom experience. Issues explored include debates over the movie stars' race and size, which tap into greater issues within the fan community and popular culture in general and the current argument that has divided fans and critics: whether or not the third book, Mockingjay, should be split into two films.

The 2012 film The Hunger Games and its three sequels, appearing quickly over the following three years, represent one of the most successful examples of the contemporary popularity of youth-oriented speculative film and television series. This book considers "The Hunger Games" as an intertextual field centred on this blockbuster film franchise but also encompassing the successful novels that preceded them and the merchandised imagery and the critical and fan discourse that surrounds them. It explores the place of The Hunger Games in the history of youth-oriented cinema; in the history of speculative fiction centred on adolescents; in a network of continually evolving and tightly connected popular genres; and in the popular history of changing ideas about girlhood from which a successful action hero like Katniss Everdeen could emerge.

In the First World War the supply of food to civilians became as significant a factor in final victory as success or defeat on the battlefields. Never before had the populations of entire countries lived under siege conditions, yet this extraordinary situation is often overlooked as a decisive factor in the outcome of the conflict. Matthew Richardson, in this highly readable and original comparative study, looks at the food supply situation on the British, German, French, Russian and Italian home fronts, as well as on the battlefields. His broad perspective contrasts with some narrower approaches to the subject, and brings a fresh insight into the course of the war on all the major fronts. He explores the causes of food shortages, as well as the ways in which both combatant and neutral nations attempted to overcome them. He looks at widely differing attitudes towards alcohol during the war, and the social impacts of food shortages, as well as the ways in which armies attempted to victual their troops in the field.
