My three intended mates left me rejected, half-marked, and broken. Every wolf shifter dreams about her first night with her mates, but mine left me an outcast with the revelation that I'm really a hybrid. A hybrid between a wolf and what is the question. Only my late mother knows the answer, but these days, I have other things to worry about. Namely, being caught in a war between my gorgeous jerk of a boss and the hunter who's somehow become my friend with benefits. Until the consequences of my incomplete mating mark leave me in physical anguish each full moon, that is--and the only thing keeping the monster in my veins at bay is the dark gift of a vampire lord who thinks I'm something else entirely. Something that makes me more dangerous than anyone could have imagined--especially me. Like I don't have enough infuriating (but admittedly tantalizing) alpha males on my plate, now the three wolves who threw me away are back, trying to stake

their claim now that I'm their only hope of overthrowing my unhinged father as regional alpha. If the men in my life don't make up their minds soon, I'm booking a one-way ticket to an all-female island. Their Rejected Mate is a full-length Rejected Mates Wolf Shifter Romance, and the first in the Luna Rejected series. This series features four alpha male anti-hero love interests, an unbreakable heroine who keeps them in check, and in true Reverse Harem fashion, the MC doesn't have to choose between her guys. Includes MFM and eventual MMF content.

The Complete My True Mate Bundle (Books 1-4)

As a captive of aliens, Paisley is forced to work as an engineering assistant on an ancient wrecker starship. She knows she has to keep her head down and her behavior humble in order to survive. When the crew responds to an automated distress call from an Akrellian warship that shouldn't be malfunctioning, she senses a threat, but she knows no one will listen to her warnings. Paisley realizes that her days of avoiding danger are over when, among the rescued passengers, trouble with a capital "T" is escorted onto her ship-in chains for bringing an apocalypse to Earth that resulted in millions of deaths. Something about the

prisoner makes it impossible for her to look away from him, and it isn't just the fact that he's the most handsome alien she's ever seen. Yet, when he meets her eyes, there's a darkness in his intense gaze that makes her think his captors might be telling the truth about him, despite his claims of innocence. Caught between two greedy groups seeking wealth and power, Paisley soon discovers that far more lies behind the mystery surrounding the Iriduan prisoner they call Halian. He might be stealing her heart, but she can't keep him in chains, because he could be the key to saving the galaxy-or destroying it. This isn't a light read, featuring a sweet-from-the-start hero. My True Mate: Book 1

Five years ago, I was abducted by aliens....After a harrowing escape from an alien research facility, I found myself in

the care and protection of an alien species called the Akrellians, but I didn't trust my instantaneous attraction to the commander of the ship. After all, I had no idea what the evil Iriduans had done to me, so I didn't know if my feelings were even my own or something they had caused. He was reptilian and had deadly quills. How could a human possibly fall so fast for such an alien male? When I offered Prime Commander Tirel a temporary sexual liaison, hoping it would ease the need I felt for him, he rejected it and asked for something more permanent. I panicked. I couldn't escape him fast enough. Not because I feared him, but because of the temptation he offered-one that would require me to sacrifice everything I've ever known to stay with him. Now, after years apart, the strange bond that had formed between us upon our first meeting demands I return to him, and I realize that I can't continue to live my life without him. The only problem-I'm stuck on Earth, and I don't know how to find him again. Until an unexpected visitor brings me the solution-and the terrifying news that I may have waited too long. Author's Note: 18 + Contains language and graphic scenes of intimacy and violence.

As personal assistant to a powerful alpha of a large pack, there are certain rules Jamie has for himself to make sure he's successful at his job. And fourth, human hunters are never, ever mate material-no matter what their smiles or Southern drawls do to him. But what if his own rules are preventing Jamie from finding something unique and magical and hotter than he could ever imagine? Because being caught between a grumpy cougar and a dangerous hunter was the last place Jamie thought he should be... but it might just be exactly where he needs to be to find both of his fated mates. The business is a long running family legacy and Xrez is determined to succeed as his father had before him. He hadn't meant to let one human occupy his thoughts, mind, and body. His lies may come back to haunt him, but if he reveals the truth, he'll ruin his chance to capture the heart of the one he wants. The Prey. Esme Valdez had her entire life planned from an early age. As a chemist, her life was average and mundane, just the way she liked it. Until the impossible happened. Never did she imagine being abducted by aliens and forced to participate in a survival of the fittest game called The Hunt. If she survives and makes it to the end, she'll be freed. If not, she'll be forced to mate the one who captures her. Esme is determined to win at all costs, even if it means putting her trust in a sexy alien who taunts her in the most delectable way. Their love was built on betrayal. Can she trust him with her heart and life?

A desperate escape from a prison cell inside an alien research facility leaves Joanie in the clutches of an alien with a handsome face, a great body, and tentacles that could have come out of a horror movie. Her life back on Earth is a mess, but nowhere near as complicated as her new situation becomes when the alien test subject named Nemon decides that she's his mate. Nemon knows that Joanie is the mate he's

hoping for as soon as Thrax hands her to him, but he can also see that she's frightened and traumatized. He must win a battle against his own body-which has a mind of its own-to maintain control, so he can win her trust and avoid frightening her further. His newfound friends warn him that Joanie will need time to accept him, and Nemon is willing to wait, but they all may have underestimated Joanie. They have escaped their fate as Iriduan test subjects, but Nemon and Joanie can't escape the legacy left behind by their captors. A legacy that brings them together-a legacy that also threatens to tear them apart.

Author's Note: 18+ This book contains explicit steamy scenes between a human heroine and an alien with tentacles.

CONNIE I have a purple stalker. I don't know what possessed me to hit the Xarc'n warrior with my bat, but now I have a stalker--a big purple stalker with fangs and horns. And to make things worse, I can't go back to New Franklin. After my first night out on my own, I wake up all wrapped up and cuddly with a certain possessive hunter. He purrs like a giant cat and vows to protect me. And to top it all off, he has a pet squirrel. A freakin' pet squirrel! The "Jerk" claims he can't let go of me, but I don't buy it. I'm no squirrel, and I don't intend to be his pet. Not even when he claims I belong with him and promises to protect me forever.

JORG'K Killing the scourge is my calling, and I revel in every violent encounter. Hunters are created with strong instincts to protect, but mine never fully manifested. I just wanted to fight. I never understood why some hunters wanted anything more. Until now. I can't get the little human out of my head. She attacks me with her wooden club, and I realize she's all I ever wanted. My brave female watches me as I fight the deadly scourge, so I give her a show of my strength and skills. I will convince her to be my mate. I have to. The mating bond has chosen, and it is never wrong!

Romance, M/M, with M/F, shape-shifters, HEA] Vampire-hawks and wolf-shifters have two things in common-hatred for each other and dwindling populations. Both species are headed toward extinction. One vampire has the secret to survival-if he can get the lycans to cooperate. But when vampire Aidan Longshadow walks into the Wolf Den looking for the alpha, he's barely through the door before he's attacked. Hunter Black, a lycan enforcer, comes to his aid and questions him. Aidan offers to trade information about the murder of Hunter's mate for lycan blood. At first, Hunter thinks it's a trap, but Aidan convinces him that the answer to both species' survival may lie in their blood. Hunter agrees to secretly help Aidan in exchange for the killer's name, but he gets more than he bargained for when he finds himself falling for the seductive vampire. When the research goes awry, he's sure he's been used by the scheming bloodsuckers. But is Aidan the real enemy, or is it someone closer to home? Note: This book contains dubious consent. The Hunter's Mate

This is a full-length, science-fiction, alien abduction romance that was previously released as part of a two-book collection introducing the first books in two series. Each book is now being released separately. This revised edition of The Scorpion's Mate has some small changes from the original. Claire has never really fit in with

everyone around her, but she's carved out a life for herself using her own unique style and artistic ability to support herself on the Internet. The last thing she expects is to be abducted by aliens and dropped into a research facility, where a genetically-engineered alien soldier chooses her as his life-mate. Thrax's pheromones are compelling, and his status as a fellow unwilling test subject makes them allies, but Claire isn't certain she can trust someone who is convinced she belongs to him, when all she wants to do is find a way to return home to Earth—a place that her devoted alien can never follow, because there's no way the scorpion-like alien would ever be able to pass for human. Still, she'll accept help where she can find it, so she doesn't hesitate to escape with Thrax from the facility, though their time running from their pursuers in the warrens beneath the research facility will forever change Claire, and could make it impossible for her to return to Earth. But will there be anywhere else in the galaxy they can go where their love will be accepted?

Author's Note: 18+ only, this book contains scenes of graphic intimacy and violence that are not intended for younger readers. Also, please note that the hero in this book is not human-looking and possesses an appearance and attributes that may not be comfortable for some readers to read about. When a Neanderthal hunter is killed, the police are quick to label it a 'hunting accident' and absolve the meat packing company of any wrong doing. But the hunter's mate is convinced that

there is something more to it and she hires a Cro-Magnon private detective, Thud, to look into the circumstances. Thud quickly discovers a number of facts that don't add up, and as he gets deeper into the case, his own life seems to be in danger. The suspects start to pile up, each with motive and means. Can Thud get to the bottom of the case before it's too late? This is a 1940's style murder mystery set in the Stone Age. Not a cartoon, there is just enough historical fact about the Pleistocene era included to make you believe that this story is real.

Still haunted by nightmares about Hunter's sacrifice to save the lives of her and her friends, the last alien Tarin expects to see on Akrellia is the Menops bounty hunter himself. She's drawn to the dangerous male, despite his insectoid appearance, but chalks it up to their experiences together, unable to accept it might mean more-even as she decides never to let him out of her sight again. Hunter has spent his life searching for one thing and one thing only-a cure for imprinting. To that end, he joined the traitorous Iriduan, Halian, in a devil's bargain that has him deceiving Tarin and her friends, and he's not comfortable with that deception-or with his growing concerns about Halian's plans. When the execution of part of Halian's plan isolates Hunter and Tarin on an unknown alien world, far from help, Hunter's problems grow even more complicated. An unanticipated metamorphosis leaves his body completely changed-in a way that makes it impossible to

ignore his growing feelings for Tarin. But secrets, lies, and a past he can't change form a seemingly insurmountable obstacle between them. Hunter must prove he's worthy of his queen and earn her forgiveness for his past mistakes, but the consequences of those mistakes have yet to fully manifest-and when they do, no one will be safe. The Serpent's Mate

Once described as 'Barry Crump meets Fred Dagg', 'Big Al' Lester is the modern-day master of the hunting genre. 'I'm often asked what inspired me to take up writing yarns about the mishaps and mayhem that I have endured while venturing into the New Zealand bush.' 'In truth, I am an average to poor hunter who has had more hunting cock-ups than the rest of the country combined. For every deer I've successfully shot, dozens have escaped only to hide in the bush peering back at me, clearly laughing at my stupidity. I have always managed to see the funny side of the situation and had a good old laugh at myself. I began to wonder if my stuff-ups, with a bit of humour and mayhem thrown in, might just make for good reading - the oddball, unusual, humorous, weird and fun side of hunting - and gave it a go. I must have got something

right.'-'Big Al' Lester It's a Bit Rugged, Mate compiles the biggest and best yarns from Big Al's first three books - plenty of fun for those with a good keen sense of humour and a love for New Zealand's wild outdoors. Also available as an eBook
