Animals. What's your favorite animal—a majestic lion, a graceful horse? Those are great choices, but have you considered the fangtooth moray eel? It has two rows of icicle-shaped teeth! And the monkey slug caterpillar is ready to cuddle . . . just look out for the stingers all over its body (and its six limbs that technically aren't legs)! It's true, these animals are a little different—but their unusual features often give them incredible superpowers. Take the nearly blind star-nosed mole: Its pink, flower-shaped nose can detect the microscopic texture of everything it touches, and it does this at warp speed—up to 12 objects per second! What's
