Dustin is a seventeen-year-old young man who finds out that his girlfriend, Sandy **2020 Anisfield-Wolf Book Award Winner Finalist for the National Book Critics Circle Award** **From an award-winning historian comes a dazzling history of the birth of cultural anthropology and the adventurous scientists who pioneered it--a sweeping chronicle of discovery and the fascinating origin story of our multicultural world. A century ago, everyone knew that people were fated by their race, sex, and nationality to be more or less intelligent, nurturing, or warlike. But Columbia University professor Franz Boas looked at the data and decided everyone was wrong. Racial categories, he insisted, were biological fictions. Cultures did not come in neat packages labeled "primitive" or "advanced." What counted as a family, a good meal, or even common sense was a product of history and circumstance, not of nature. In Gods of the Upper Air, a masterful narrative history of radical ideas and passionate lives, Charles King shows how these intuitions led to a fundamental reimagining of human diversity. Boas's students were some of the century's most colorful figures and unsung visionaries: Margaret Mead, the outspoken field researcher whose Coming of Age in Samoa is among the most widely read works of social science of all time; Ruth Benedict, the great love of Mead's life, whose research shaped post-Second World War Japan; Ella Deloria, the Dakota Sioux activist who preserved the traditions of Native Americans on the Great Plains; and Zora Neale Hurston, whose studies under Boas fed directly into her now classic novel, Their Eyes Were Watching God. Together, they mapped civilizations from the American South to the South Pacific and from Caribbean islands to Manhattan's city streets, and unearthed an essential fact buried by centuries of prejudice: that humanity is an undivided whole. Their revolutionary findings would go on to inspire the fluid conceptions of identity we know today. Rich in drama, conflict, friendship, and love, Gods of the Upper Air is a brilliant and groundbreaking history of American progress and the opening of the modern mind.**

The King of Round Valley begins where Sunset Hill ended, at the Pacific Point winery on the scenic California North Coast. Reeling from the tragedy in Sunset Hill, Detective Grant Starr buys a \$2 million winery, thinking he's through with police work. After a year, his life has become routine, and the past finally begins to fade away. Then a body shows up on a picnic table behind his winery. When the badly beaten corpse doesn't garner much attention from the local sheriff's office, Grant wants to know why. He learns that nasty things are going on in a remote mountain area called Round Valley: sex parties involving cops and their wives, drugs, extortion, intimidation, and murder. At first Grant is content to let the few good local cops handle the mess because, hey, he's not a cop anymore. But when he's threatened and told to butt out, he decides to go all in. Detectives Ralph Bensen and Bill Hanks, Grant's pals from the Modesto Police Department, stop by to try and persuade Grant to return to Modesto, but end up staying to help him thwart the man who calls himself the king of Round Valley. The King of Round Valley is a story rife with greed, lust, an insatiable appetite for power, murder, savagery, loyalty, and friendship. As is typical of Powers's stories, you'll also find humor, entertaining dialogue, interesting characters, and, of course, a 1970 Ferrari Daytona. Everett Powers is the author of three previous Grant Starr novels, The Mighty T, Death of a Matador, and Sunset Hill, and the horror novel Canals. Connect with him online at www.everettpowers.com.

King Air 200 Work Book

A revealing portrait of a brilliant and troubled figure – a daredevil of the sky Charles Kingsford Smith was the most commanding flyer of the golden age of aviation. In three short years, he broke records with his astounding and daring voyages: the first trans-Pacific flight from America to Australia, the first circumnavigation around the equator, the first non-stop crossing of the Australian mainland. He did it all with such courage, modesty and charm that Australia and the world fell in love with him. He became a national hero, 'Our Smithy'. Yet his achievements belied a traumatic past. He had witnessed the horror of World War I – first as a soldier at Gallipoli, later as a combat pilot with the Royal Flying Corps – and, like so many of his generation, he bore physical and emotional scars. The public saw the derring-do; only those close to him knew the anxious man who pushed himself to the edge of health and sanity. In November 1935, Kingsford Smith's plane crashed and he was lost at sea near Burma, his body never to be recovered. This brilliant work from one of Australia's foremost biographers reveals the complicated, tumultuous life of a fascinating

figure, who pursued his obsession to the greatest heights of fame and catastrophe Ann Blainey is the author of the acclaimed I Am Melba, which won the 2009 National Biography Award and was the most popular book in the 2009 State Library of Victoria Summer Reads program. Her other books include biographies of Leigh Hunt and the Kemble sisters. 'Brilliant ... Blainey's fascinating book focuses on the inner as well as the outer man. While Smithy's career highlights may be well known, his ambiguous relationship with fame, his drinking, and his doubts and fears were not. In this beautifully written, scrupulously researched and meticulously indexed work, Blainey has filled this gap to perfection.' —Ross Fitzgerald, The Weekend Australian 'Crisply written ... Even people not particularly interested in the feats of aviators will find this book an engrossing read.' —Jim Davidson, The Sydney Morning Herald 'Blainey is a pleasure to read and this biography is superbly researched' —Michael McGirr, Australian Book Review

The Book

The King and his noblemen pursued a life of unbridled lust with those that submitted to their power by choice or for the unfortunate, in the dungeons below the castle where bondage insured their submission. Nothing is forbidden for the privileged, not even the unspeakable taboos of society. "King's Dungeon" is set in the 11th century where men dominate and woman had no choice but to submit to any and all demands a man could conceive. King Rulf, after conquering his enemies, returns to take his rightful place on the throne with a wife to bear him many heirs. But there is always time to find his pleasures in the bedrooms of any woman he desires or to satisfy his jaded lust in the dungeons.

"Written for those who are especially interested in action, adventure, war and even romance, the novel offers an escape for people of all ages into another world that once was. Based on actual events and battles that happened, The New King also includes a lot of historical elements that make it both an entertaining and educational read." - Natalia Balcerzak "Perhaps the next major series to captivate a generation will take place in a land closer to home, one that young people are both familiar with and could never truly understand all the same." -Ashley Moniz

An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students.

In the future, the past will never be the same... By the end of the 25th Century few had as storied a career as Doctor J. Burke. An historian who used quantum superluminal teleportation to mingle among her forebears through twenty different decades making discoveries and recovering lost artifacts, she was the last of the Historical Archive Collection's 'big three' antiquinants. The physical effects of the profession had grounded jovial Ike Chernovich in old San Francisco, companion Braham Lilienthal had vanished without a trace three years before, and the indifference of the Minders from the future, who were best positioned to help, left Burke with a weary cynicism. Only the promise of a special mission, the brainchild of rookie archivist Nathan Rialto, brought her back again. It was Burke's specialty, the recovery of a glamorous old airliner from 1951 using a revolutionary new teleport, and in California as well. She would gather her trusty team of specialists, teach the rookie the ropes and perhaps contemplate a different kind of future afterward with Ike. From the moment it began it felt as if the whole mission had been created just for her...and that was only the beginning of her problems!

Stephen King's unforgettable novella—first included in his 1990, award-winning collection *Four Past Midnight* and made into a highly acclaimed miniseries—about a terrifying plane ride into a most unfriendly sky. On a cross-country, redeye flight from Los Angeles to Boston, ten passengers awaken in Bangor, Maine, to find that the crew and most of their fellow passengers have disappeared. The airport shows no signs of life. Yet they hear “radio static” in the distance. Craig Toomey, an irritable investment banker on the verge of a breakdown, believes it is “The Langoliers,” monsters he was afraid of as a child who attack those who waste time. It's mystery author Bob Jenkins who first theorizes that they have flown through a time rip. Bob declares they have entered a place that forbids time travelers to observe or interfere with past events. It turns out that Craig is right, in a way. Two creatures, followed by hundreds more, emerge from the forest and head for the plane, consuming everything in their path. Can the survivors manage to fly the plane back to Los Angeles, back to the correct time, before The Langoliers succeed in their deadly mission to destroy the plane and the world? Dinah Bellman, the young blind girl whose aunt did not survive the time rip, has the greatest insight of all. A spine-tingling, propulsive novella, *The Langoliers* is a brilliant read from the masterful Stephen King.

The Dairne-Reih haven't been seen in Dionia for generations—their kind and their king, Morgui, banished long ago from haunting paradise. But when creation shows signs of deterioration, the kings of the seven realms converge in the sacred Gvindollion gathering to arrive at one inexplicable conclusion: Morgui has returned. In the hopes of entrusting Dionia's brave history and perilous future to a generation that has never known war, the kings decide to raise up their young sons as an elite group of warriors, known only as the Dibor. Gorn, legendary hero of the First Battle, is commissioned to teach the Dibor the art of war, leading them on a four-year adventure on the Isle of Kirstell. It is Luik, son of Lair, who soon emerges as the warband's spirited front man. But he is not the only one of his peers to grow in power; his dear friend Fane discovers hidden abilities among the Mosfar under the mentorship of Li-Saide of Ot, while Princess Anorra finds that her lifelong tutor knows as much about combat as he does about etiquette. There is little time for the Dibor to enjoy the satisfaction of graduation, however, as a sinister plot is discovered to dethrone Dionia's kings and flatten the capital city of Adriel. The Dibor are summoned to war, along with the rest of Dionia's fighting men. It is before the gates of Adriel Palace that Luik and his army face Morgui's prince, Valdenil, as well as the unending ranks of the Dairne-Reih.
