The Leaders Companion Insights On Leadership Through The Ages

Join the global movement that's making corporations more people-centric to achieve great results. The world is facing a global leadership crisis. Seventy-seven percent of leaders think they do a good job of engaging their people, yet 88 percent of employees say their leaders don't engage enough. There is also a high level of

suffering in the workplace: 35 percent of employees would forgo a pay raise to see their leaders fired. This is an enormous waste of human talent--despite the fact that \$46 billion is spent each year on leadership development. Based on extensive research, including assessments of more than 35,000 leaders and interviews with 250 C-level executives, *The Mind of the Leader* concludes that organizations and leaders aren't meeting employees' basic human needs of finding meaning, purpose, connection, and genuine happiness in their work. But more than a description of the

problem, *The Mind of the Leader* offers a radical, yet practical, solution. To solve the leadership crisis, organizations need to put people at the center of their strategy. They need to develop managers and executives who lead with three core mental qualities: mindfulness, selflessness, and compassion. Using real-world inspirational examples from Marriott, Accenture, McKinsey & Company, LinkedIn, and many more, *The Mind of the Leader* shows how this new kind of leadership turns conventional leadership thinking upside down. It represents a radical redefinition of what it

"Women in Academic Leadership" complements its companion volumes in the "Women in Academe" series, provoking readers to think critically about the gendered nature of academic leadership across the spectrum of institutional types. It argues that leadership, the academy, and the nexus of academic leadership, remain gendered structures steeped in male-oriented norms and mores. Blending research and reflection, it explores the barriers and dilemmas that these structures present and the professional strategies and the

Wren clarifies and elevates the debates over leadership by identifying the fundamental premises and assumptions that underlie past and present understandings. The author traces the intellectual history of the central constructs: the leader, the people, and, ultimately, the relationship between them as they seek to accomplish societal objectives. He begins with a discussion of the invented notion of the classical paragon of a ruler. Next he pursues the invention of the countervailing concept of a sovereign people, and finally, the need for the invention of a new construct leadership which embodies a new relation between ruler and ruled in regimes dedicated to power in the people. In doing so, he draws upon the giants of the Western intellectual tradition as well as the insights of modern historians, political scientists, sociologists and leadership scholars. The book concludes with a proposed model of

In today's lightning-fast technology world, good product management is critical to maintaining a competitive advantage. Yet, managing human beings and navigating complex product roadmaps is no easy task, and it's rare to find a product leader who can steward a digital product from concept to launch without a couple of major hiccups. Why do some product leaders succeed while others don't? This insightful book presents interviews with nearly 100 leading product managers from all over the world. Authors Richard Banfield, Martin Eriksson, and Nate Walkingshaw draw on decades of experience in product design and development to capture the approaches, styles, insights, and techniques of successful product managers. If you want to understand what drives good product leaders, this book is an irreplaceable

Indeed, we do not easily move out of one mind-set into another. What we believe to be true given our particular experience often seems to be the only truth. Often we need some outside force to trigger reevaluation and rethinking. That triggering force to intellectual growth may be a new idea, a new situation, a new value, a new boss, or some other significant emotional event – maybe, even, a new book. The

Research Foundation This book is founded on two pillars: one, a model of five leadership mind-sets common in the last 100 years first presented in Gilbert W. Fairholm's (1998a, 1998b) book, *Perspectives on Leadership: From the Science of Management to its Spiritual Heart*; and two, Matthew R. Fairholm's (2002) dissertation, *Conceiving Leadership: Exploring Five Perspectives of Leadership by Investigating the Conceptions and Experiences of Selected Metropolitan Washington Area Municipal Managers*, which analyzed and validated the perspectives model (see the Appendix for more details). The data collected confirm there are five distinct perspectives of leadership evident in the 100-year history of leadership study and practice. The resulting model defines the five perspectives in terms of descriptions of leadership in

powerful leader from whom much can be learned by anyone entering and occupying leadership positions. Various types of leadership approaches are considered that have been advocated by scholars over the past century. Moses' example as described in the Bible is analyzed to assert why Moses' approach makes for an appropriate and compelling form of leadership today. While present leadership and management vocabulary might differ from the Hebrew Bible, many of the notions advocated by modern leadership theorists appear to parallel

Anyone can view Moses through the lens of a particular religion, whether shared or not, and still learn considerably from the experience. One will find Moses depicted as heroic, charismatic, and certainly empathic. Yet, Moses also shows transactional, transformational and visionary leadership qualities. Hence, 'Religion and Contemporary Management' discerns why Moses represents such an important model of
