Now Piper must discover why her friends from Starfleet are among the terrorists...and why they insist the ship was stolen not to attack the Federation -- but to save it!*

Human pioneers fleeing Earth for the promised land of New Eden found hell instead of a new home, falling prey to the reptilian Kresh. But street-savvy Cyrus Gant escaped the alien clutches, rescued master telepath Klane, and began a desperate journey to head off the inevitable Kresh invasion of Earth. When the insectile Chirr and human cyborgs join the war, Cyrus suddenly faces a triple threat. Only by absorbing the powerful consciousness of the recently and mortally wounded Klane does he stand a chance against the deadly enemies surrounding him. But when a malevolent alien entity invades his mind, Cyrus must do battle in both outer and inner space to save his soul and his sanity. In the thrilling sequel to A New Honor and Alien Shores, Cyrus rolls the dice to win the biggest prize anyone has ever chased: the future of humanity.

We fought the invading New Men to a standstill and defeated the alien Destroyer, but they can't obliterate Earth. The worst should be over, but it's not. Perfect android replicas are everywhere, impersonating high-level officials so trust is failing. Worse, the New Men have formed alliances with an impenetrable stealth technology. This time, however, Earth is going on the offensive. Admiral Fletcher is headed to "C" Quadrant with a Grand Fleet. He's to liberate the captured planets and find the enemy homeworld. What he isn't supposed to do is die. The only one who can save humanity has been grounded. Captain Maddox is under suspicion because he's half New Man. But he's not going to stop. He's found something unbelievable. Now, he needs Starship Victory—an ancient, alien spacecraft

Al Galyan, Meta, Sergeant Riker and the others to help him tear the greatest secret from the enemy. Maddox and his crew must succeed or humanity will drown in a human extinction. THE LOST COLONY is the fourth book in the LOST STARSHIP SERIES.

Returning from survival hibernation and assuming the command of the Alliance for a legendary hero Captain John "Black Jack" Geary must retrieve the stolen Syndic hypernet key to save the Alliance from destruction at the hands of the Syndics. Androids used to mingle among us, pretending to be human. Then an alien puppet altered their programming. Unknown to us, androids began leaving human societies burning their clothes and peeling off their skin to reveal the chrome-colored bodies underneath. They gathered in a system where a star had exploded, blowing away the atmosphere of a Jupiter-like planet. The supernova had hurled heavy metals against the remaining core. The androids are mining supermetals that can turn ordinary ship weapons and shields into invincible armaments. The altered programming includes human genocide, which will start with a murderous attack on Earth. Luckily, Captain Maddox finds the enemy system. But during a space battle, something happens. Victory thousands of light-years away into the Scutum-Centaurus Spiral Arm. The crippled starship will take years to reach home again. Long before that, Earth was in radioactive ruin. Now begins a desperate journey in hostile space that will stretch

everyone as Maddox strains to reach the Lord High Admiral in time with knowledge about the coming android attack. THE LOST SUPERNOVA is the tenth book in the STARSHIP SERIES.

Even as an exhausted Federation military tenses up for a counterattack after repelling the last Darshik invasion, reports are coming in of a new, more powerful class of ship that's striking deep into Terran space. Captain Jackson Wolfe has been given the fleet's newest, most advanced destroyer and tasked with eliminating this new threat before it can claim any more human lives. What he finds, however, is immeasurably more dangerous than just some new class of starship ... it's a horror that could lead to the destruction of both their species if it isn't stopped. Destroyer is the third book in the Expansion Wars Trilogy and part of the #1**

bestselling Black Fleet Saga.

Star Watch defeated the Swarm Invasion Fleet, but at a terrible cost in destroyed star systems, smashed battleships and billions of dead. In the aftermath of the costly victory, chaos threatens as worlds leave the Commonwealth of Planets, face mass starvation or succumb to increased piracy. The war against the Swarm Imperium has just begun. Humanity needs unity or each planet will fall alone. Brigadier O'Hara of Star Watch Intelligence stumbles onto a secret conspiracy. Someone is trying to destroy the Commonwealth from within, and they have an alien artifact of incredible power. O'Hara summons Captain Maddox. Although she fears to lose him, she knows that Maddox and his crew have the best chance of finding the hidden enemy. If the captain fails, the Commonwealth will be powerless to stop its destruction. What O'Hara doesn't know—it would probably break her heart if she did—is that she has just sent Maddox into the most harrowing battle of his career. THE LOST ARTIFACT is the eighth book in the LOST STARSHIP SERIES.

For centuries, Carthage has ruled a sprawling maritime empire. Now, a Roman armada sails from Sicily, landing four legions onto Africa. The legionaries are hard-bitten veterans, men of middle height, with powerful chests and shoulders and bronzed faces. They carry javelins, short keen swords and heavy shields. Consul Regulus leads them. His

goal is more than victory, but the end of an ancient empire... In 256 B.C., the Carthaginian Empire is a seething, buckling realm of barbaric warriors, unstable generals and baffled seamen. At this pivotal moment, a young Hamilcar Barca thrusts himself forward. He befriends a canny Spartan mercenary and learns the intricacies of elephant warfare. Now, in a last, desperate battle, he faces the man who slew his brother, the conquering Roman who fights like a raving wolf. **THE SWORD OF CARTHAGE** is the recreation of a historical campaign of bitter savagery, filled with dust, sweat and the roar of battle, written by bestselling author Vaughn Heppner.

It finally happened. Commander Thrax Ti Ix created a hyper-spatial tube for the Swarm Imperium. Across thousands of light-years, a vast armada of warships is heading for Earth to burn the homeworld down to its bedrock as the Swarm begins its genocidal campaign against the human race. No one—not the New Men, the Spacers, the Wahhabi Caliphate or Star Watch—has faced such staggering odds. Alone or united, it makes no difference. Captain Maddox has a last-ditch plan. He's returning to the null region of last voyage to grab the ancient Destroyers hidden there. But an immortal entity of evil cunning haunts the vessels. If it escapes its prison...Maddox will have made things infinitely worse. This time, mankind needs a miracle. **THE LOST EARTH** is the seventh book in the **LOST STARSHIP SERIES**.

We barely recovered from the first Swarm invasion. Now, the bugs have become methodical, sending science fleets to study us. Back home, the Hive Masters are gathering hundreds of thousands of starships to hit us with an avalanche invasion. This time, not even exploding stars will stop them. The egocentric but brilliant Professor Ludendorff, who has a bitter grudge against Captain Maddox, claims he has a plan to outmaneuver the Swarm. But he's not going to tell Star Watch unless Brigadier Mary O'Hara--one of Maddox's closest friends--comes alone to listen in person. In desperation and knowing that Methuselah Man Ludendorff often has fantastic plans, O'Hara goes, and thus begins a chain-reaction of events that will embroil Maddox and the crew of Victory in a harrowing mission into the Great Beyond. They must risk everything at a Builder star gate if they hope to stave off the annihilating Swarm fleets from reaching Human Space and killing everyone. **THE LOST STAR GATE** is the ninth and longest book, so far, in the **LOST STARSHIP SERIES**.

The Earth died when aliens rained thermonuclear warheads on her

cities and sprayed the surface with a bio-terminator. A deadly poison drifted to every corner of the planet, threatening the last survivors with annihilation. For a soldier in Antarctica like Creed, there is only one way to keep breathing untainted air. He must join the Jelk Corporation as an assault trooper, leaving the planet for outer space. In return for his and other people's services, the Jelk will house the last humans for as long as the assault troopers keep winning. For the price of living and the chance to save humanity, Creed has to wear a shock chip in his neck—Jelk discipline is harsh—and he has to don a symbiotic battlesuit that feeds off his sweat. Human life is cheap in the vast alien war. The assault troopers are little more than suicide soldiers, but for humanity to escape extinction, they must survive. But Creed didn't agree to the bargain in order to remain a dog to the aliens. He has a plan, and he'll need all his cunning to beat the extraterrestrials and begin the road to freedom for the human race.

Mankind's outer colonies are disappearing. Without warning. Without a trace. Fleet command chalks the attacks up to pirates, but Captain Dryker of the UFC Johnston isn't buying it. Defying

command, he leads his misfit crew into hostile territory in search of answers. They encounter the mythical Void Wraith, an unstoppable legend whispered by the first race. After 26,000 years the Void Wraith have returned to begin the next Eradication. Their technology is superior, their motives unclear. Humanity cannot stop them. Not without help. Captain Dryker's only hope is to forge an alliance with mankind's greatest enemy, the savage Tigris. One maverick captain, an unlikely crew, and an aging vessel are all that stand between humanity and the Eradication. Buried for millennia slumbers a secret relic of the days when creatures from the stars ruled the Earth. It is inactive but not dead, cruelly tempting men with promises of power and immortality. But they've also caused mass bird suicides, unleashed an

insidious hum that drives two percent of people mad and caused an increase in global temperature. Into this labyrinth world of intrigue and super-science comes an American covert operative Jack Elliot. He's playing a desperate game, outwitted and outmaneuvered by geniuses with perfect bodies. But Elliot is haunted by his past, driven to excellence and a passion to protect the weak, in this case the rest of humanity. Maybe as critical, he's found the woman they need, Dr. Selene Khan, and interrupts their hunt for her. Now, in a breathless race, two strangers suspicious of everyone must work together to stop those guided by a cruel invention engineered by an ancient alien intelligence. THE ETERNITY MACHINE is a smart, lightning-paced adventure...utterly unpredictable right up to its stunning conclusion.
