Too often, people drift through life with a feeling of frustration, longing to find some adventure or purpose in life, envious of those whose lives seem exciting. In WRITE IT DOWN, MAKE IT HAPPEN, Henriette Anne Klausner shows you how to write your own lifescrpt. Simply writing down your goals in life is the first step towards achieving them. The 'writing it down' part is not about time management; it is not a 'to-do today' list that will make you feel guilty if you don't get everything done. Rather, writing it down is about clearing your head, identifying what you want and setting your intent. You can 'make it happen' purely by believing in the possibility. In WRITE IT DOWN, MAKE IT HAPPEN, there are stories from ordinary people who witnessed miracles large and small unfold in their lives after they performed the basic act of putting their goals on paper.

Dr. Wayne W. Dyer has researched intention as a force in the universe that allows the act of creation to take place. This beautiful gift edition of Wayne's international bestseller explores intention—not as something we do—but as an energy we're a part of. We're all intended here through the invisible power of intention—a magnificent field of energy we can access to begin co-creating our lives! Part I deals with the principles of intention, offering true stories and examples showing how to make the connection. Wayne identifies the attributes of the all-creating universal mind of intention as kind, loving, beautiful, expanding, endlessly abundant, and receptive, emphasizing the importance of emulating this source of creativity. In Part II, he offers an intention guide with specific ways to apply the co-creating principles in daily life. Part III is an exhilarating description of Wayne's vision of an individual connected at all times to the universal mind of intention. "Intention is a force in the universe, and everything and everyone is connected to this invisible force."

You are meant to have an amazing life! This is the handbook to the greatest power in the Universe - The Power to have anything you want. Every discovery, invention, and human creation comes from The Power. Perfect health, incredible relationships, a career you love, a life filled with happiness, and the money you need to be, do, and have everything you want, all come from The Power. The life of your dreams has always been closer to you than you realized, because The Power - to have everything good in your life - is inside you. To create anything, to change anything, all it takes is just one thing...THE POWER. A hundred-thousand years ago one of the biggest differences between humans and the rest of the animal kingdom was that we were better at catching them than they were at catching us. Today things have changed...somewhat. Thinking is easy. Anyone can think. What's important is thinking intelligently. The problem is that a battle for our minds is taking place, and most people don't even notice. We're influenced from the news, social gatherings, what we read, what we are told, and what everyone else is thinking. Salespeople, marketers, and politicians know thousands of ways to push our minds in one direction or another. The result is that society is littered with people who retain beliefs they cannot explain for reasons they do not know. What you think matters. People fight for their beliefs, defend them, and in some cases even die for them. Lesser minds might be content with easy answers and poorly thought out explanations. But if you seek a strong mind, you first must ensure that you are capable of overcoming the elements that influence the way you think. Intellectual Warfare is designed to equip you with the tools necessary to win the battle for your mind. The book spans a host of topics ranging from the human ego, natural biases, cognitive illusions, and an entire section on the weapons of persuasion constantly attacking your thought process. Aimed at anyone seeking to improve their intellect, this book will ensure you are making the most of your mind.

Through John Wheeler and other influential teachers, and through his two books of dialogues, Sailor Bob Adamson has become a familiar name to those interested in non-dual spirituality. With assistance from friends and family, and from Bob himself, Kalyani Lawry has compiled an absorbing account of his life illustrated with photographs from Bob's personal collection. The second part of Only That consists of dialogues which have an immediacy that is "closer than your breathing, nearer than your hands and feet" and a depth that reflects Bob's life experience while pointing clearly to the ultimate reality, "Thou art That".

When a career-ending injury left elite athlete and professional football player Lewis Howes out of work and living on his sister's couch, he decided he needed to make a change for the better. He started by reaching out to the hero he admired, searching for mentors, and applying his past coaches' advice from sports to life off the field. Lewis did more than bounce back: He built a multimillion-dollar online business and is now a sought-after business coach, speaker, and podcast host. In The School of Greatness, Howes shares the essential tips and habits he gathered in interviewing "the greats" on his wildly popular podcast of the same name. In discussion with people like Olympic gold medalist Shawn Johnson and Pencils of Promise CEO Adam Braun, Howes figured out that greatness is unearned and cultivated from within. The masters of greatness are not successful because they got lucky or are innately more talented, but because they applied specific habits and tools to embrace and overcome adversity in their lives. A framework for development, The School of Greatness gives you the tools, knowledge, and actionable resources you need to reach your potential. Howes anchors each chapter with a specific lesson he culled from his greatness "professors" and his own experiences to teach you how to create a vision, develop hustle, and use dedication, mindfulness, joy, and love to reach goals. His lessons and practical exercises prove that anyone is capable of achieving success and that we can all strive for greatness in our everyday lives.

The University of Florida, the state's oldest and largest university, is recognized today as one of the country's most academically diverse public institutions. Though able to trace its history to 1853, the school did not begin its popular football program until the first few years of the 20th century. The program has had its share of scandals and embarrassments over time, but it has also produced two Heisman Trophy winners, a national champion, numerous players drafted into the professional ranks, and a visibility that consistently ranks the team in the top five in the country. Now attracting 85,000 fans to each of its home games, the Gators' football program has become a vital part of the University of Florida. When the team won the national championship in 1996, no one could have predicted such success just 90 years earlier. Fortunately, that fascinating journey through the last century has been captured in great photographs that include formal portraits of teams; action shots on the field; views of "The Swamp"; and snaps from every decade. These images tell the story of the birth and growth of a football team, a team that has brought enjoyment to millions and national recognition to the University of Florida.

Their combination of liberating insights, inspiration, and deep releasing explorations make this book a treasured companion for anyone who is seeking to navigate everyday life with greater ease, clarity, and sense of true purpose. “One of my most treasured books that changed my life is Lester’s Keys to the Ultimate Freedom. It features Lester’s words and insights drawn from decades of his teachings, and it is the only book that sits on my bedside table. Unfortunately the book has been out of print for a long time, but Hale Dwoskin has taken all of Lester’s teachings from Keys to the Ultimate Freedom and put them in this new book, along with many of the releasing methods from the Sedona Method. You have the best of Lester’s teachings and his methods in this one book, and if freedom and joy are what you seek, I couldn’t recommend this book more. I used the Sedona Method occasionally over a ten-year period and found enormous benefit from it. Don't face reality. Create reality! E-Squared could best be described as a lab manual with simple experiments to prove once and for all that reality is malleable, that consciousness trumps matter, and that you shape your life with your mind. Rather than take it on faith, you are invited to conduct nine 48-hour experiments to prove there really is a positive, loving, totally hip force in the universe. Yes, you read that right. It says prove. The experiments, each of which can be conducted with absolutely no money and very little time expenditure, demonstrate that spiritual principles are as dependable as gravity, as consistent as Newton's laws of motion. For years, you've been hoping and praying that spiritual principles are true. Now, you can know. E-Squared proves the following:
1. There is an invisible energy force or field of infinite possibilities. 2. You impact the field and draw from it according to your beliefs and expectations. 3. You, too, are a field of energy. 4. Whatever you focus on expands. 5. Your connection to the field provides accurate and unlimited guidance. 6. Your thoughts and consciousness impact matter. 7. Your thoughts and consciousness provide the scaffolding for your physical body. 8. You are connected to everything and everyone else in the universe. 9. The universe is limitless, abundant, and strangely accommodating.

The Secret is an international phenomenon that has inspired millions of people to live extraordinary lives. The Secret to Teen Powermakes that material accessible and relevant for today's over programmed, stressed-out teens. It explains how the law of attraction can help teens navigate their friendships, relationships, schoolwork, money, and even more global issues like politics and the environment. It all happens through the basic principles outlined in The Secret to Teen Powerthat will bring happiness and fulfillment for all who embrace it.

The valuable lesson contained in this book is that the best way to attract prosperity is to abandon the pursuit of wealth and allow it to flow toward oneself. The ancient laws of attraction are explained in plain language and applied in an economic framework—a new perspective not found in other popular explications of these principles. A path to prosperity is offered in tandem with guidance for achieving harmony in both professional and personal spheres while strategies to overcome destructive thinking patterns and to sustain the flow of wealth while channeling it constructively are delineated. Profiles of individuals who pursued their passion rather than profit, and subsequently reaped immense rewards, will inspire those seeking to transform their lives.
