It's literally a step-by-step guide to more leads, higher sales and a stronger brand. The first step is simply being a competent marketer. As the CEO of your organization, this should worry you: Your marketing team knows a lot less about marketing than they let on. And you can prove it in an instant. Ask them to explain the difference between the marketing mix and the promotional mix. It's a basic question but surprisingly most marketers don't know the answer. Imagine asking your accounting staff the difference between a balance sheet and an income statement and finding out you stumped them. Now consider this: You can maybe ring another 20% in sales out of your current customers, but that's offset by the hole in your customer bucket. Real growth comes from new business development and you've entrusted a good share of that to a marketing team that can't define a basic marketing term. Not good. An imaginative, witty, original but deadly serious introduction to all the concepts you need in marketing today. Successful executives know that marketing as a process and an orientation is a necessity for understanding where a company needs to go and how to get there. It's not difficult to spot those organizations that have failed to adopt a marketing approach! In order for managers and students to quickly grasp the key principles, one of the world's leading marketing educators, Malcolm McDonald, has teamed up with expert cartoonist and educational designer, Peter Morris, to create this short, unique and powerful guide. Using black and white cartoons and graphics packed with ideas and examples, *Marketing Plans: A Complete Guide in Pictures* is a highly accessible primer that is both a rigorous and serious introduction to the subject for those discovering marketing for the first time, and a versatile companion for more experienced professionals. This book is based on the international bestseller *Marketing Plans: How to Prepare Them, How to Use Them* by Malcolm McDonald and Hugh Wilson (Wiley).

All aspects of the planning process are covered, from analysing market share and deciding marketing strategy, to specific elements of the

marketing mix - campaign planning, media evaluation, sales promotion, publicity, packaging and PR. An especially valuable feature is the charts and forms, over 150 of them, which are used throughout to clearly illustrate the planning process.
