Glaciers have always played an important role in human history, and currently, they are carefully observed as climate change sentinels. Glacier melt rate is increasing, and its mass balance is continuously negative. This issue deserves accurate and in-depth studies in order to, adequately, monitor its state. This circumstance in fact endangers the water supply, affecting human settlements but also creating new environments

allowing the colonization by pioneer communities and the formation of new landscapes. This book is subdivided into two main sections in order to deal with the two topics of worldwide research on glaciers and ecology in glacial environments. In the first one "Glaciers in the World," several reviews and studies are collected. It is an overview of glaciers, their state, and research carried out in different continents and contexts. The second section "Glacial Ecosystems" focuses, on the other hand, on glacier environments and ecological researches.

It then reviews the vulnerability of river ecosystems, exploring potential genotoxic effects and water quality, and explaining typology and monitoring of these aspects, and particularly highlighting mollusk assemblages and monitoring of intermittent rivers. The closing chapters focus on the impact of river flooding and discuss controversial projects aiming to find an approach mutually acceptable to all stakeholders. Given its scope, the

When Marko Vukcic, one of Nero Wolfe's closest friends, is gunned down in cold blood, the great detective takes it personally, pledging to do everything in his considerable power to bring the killer to justice. But Wolfe's reckless vow draws him to the most lethal case of his career, propelling the portly P.I. and his faithful factotum, Archie Goodwin,

Communist cutthroats and Albanian thugs have already disposed of Wolfe's friend and Wolfe's adoptive daughter . . .

Introduction by Max Allan Collins

“It is always a treat to read a Nero Wolfe mystery. The man has entered our folklore.”—The New York Times Book Review A grand master of the form, Rex Stout is one of America’s greatest mystery writers, and his literary creation Nero Wolfe is one of the greatest fictional detectives of all time.

Together, Stout and Wolfe have entertained—and puzzled—millions of mystery fans around the world. Now, with his perambulatory man-about-town, Archie Goodwin, the arrogant, gourmandizing, sedentary sleuth is back in the original seventy-three cases of crime and detection written by the inimitable master himself, Rex Stout.

Excerpt from *The Land of the Black Mountain: The Adventures of Two Englishmen in Montenegro* This is a common opinion of travellers to Montenegro, and one that is spread by them all over Europe. And yet how unjust! A fairly large number of

tourists take the drive from beautiful little Cattaro up that wild mountain-side and through the barren Katunska to Cetinje. A few hours later they return the way they came, con vinced that they have seen Montenegro. A few, very few, prolong the tour to Podgorica and Niksic', returning with a still firmer conviction that they have penetrated into the very fastnesses of that wonderful little land. These chosen few have at least seen that all is not bare and rocky, that there. Are rich green valleys, rushing mountain torrents, and pleasant streams. About the

Close to the Bay of Kotor, Montenegro's favourite tourist area, hidden and almost unknown among the surrounding mountains and hills, lie a large number of wonderful old fortresses, relics from the last decades of the Austro-Hungarian Empire, built to defend their huge military harbour and protect the southernmost outpost of the empire. Ravaged by earthquake, lightning strike, the impact of extremely heavy rainfall, and in some cases robbed of their best hand-crafted stone, they are set in

Using the combined skills of the author, an experienced day hiker and photographer, with the assistance of Volker Pachauer of Graz University in Austria, an acknowledged expert in the history of these old structures, and founding member of the Austrian Society for Fortress Research, it will enable anyone with hiking skills to discover and explore many of these hidden treasures for themselves, learning something of their history. The Adventures of Two Englishmen in Montenegro (Classic Reprint)

Comparatively little is well known about Europe's newest and one of its smallest independent states: the small mountain fastness Montenegro. In a book written

for specialists and general readers alike, Elizabeth Roberts traces its history from pre-Slavic times, including its part in the 1389 battle of Kosovo and its prominent role in resisting the Ottomans. She recounts Montenegro's development under its Prince-Bishops toward the independence achieved at the Congress of Berlin and lost after the Versailles Conference when the Podgorica Assembly voted to join the new Kingdom of Yugoslavia. When Slobodan Milosevic spoke of Montenegro and Serbia as "two eyes in the same head," he encapsulated a view that has deep roots in

both nations. But not all Montenegrins agreed, and many chafed at being forced to play the role of Serbia's junior partner. Indeed, Montenegro's complex and shifting cultural and political identity is the main theme of Roberts's witty and dispassionate book, which culminates in Montenegro's defining referendum and subsequent international recognition in the summer of 2006. The history of Montenegro is at once a colorful, often bloodily violent story and instructive about how land, religion, and politics (both domestic and

international) have intersected over centuries to shape and reshape cultural identities in Southeastern Europe.

Students of national identity have much to learn from the Montenegrin case, and general readers will be enthralled by the dramatic tale that unfolds in Realm of the Black Mountain.

Tree "Bigfoot" Smith and Cedar Jones first meet on the day they join the US Cavalry's Fourth Cavalry Regiment based out of the Historic Fort Concho in what is now San Angelo, Texas, in 1870. Their journey takes them into the heart of the dangerous Llano

Estacado region known as the Comancheria. The area is ruthlessly defended by a band of Quahadi Comanche and their stoic leader, Lonely Horse. The Troop encounters a large group of Comanches and the gun-running Comancheros at Mushaway Mountain, close to Gail, Texas. A quick battle ensues that leaves eight men dead. Post Cavalry life finds Tree Smith and Cedar Jones as cowhand and cook on the large Rolling J cattle ranch in South Texas bordering the Rio Grande River. The ranch employs two Vaqueros from the village of Montenegro in Mexico, just across the river,

whom Tree befriends. The quiet life on the Rolling J ranch is brought to an abrupt halt when a local sheriff warns that a band led by the cold-blooded, sadistic killer known as Gato Montes has been preying on the ranches along the Rio Grande. After the sheriff is nearly killed by these men, Tree is tasked with tracking them down, only this time, he is traveling alone and the dangers are greatly multiplied. His epic journey takes him back into the Llano Estacado where he is captured by Lonely Horse and taken to Mushaway Mountain where the Comanche carry out their own

form of frontier justice. Tree's return journey puts him on the same path as Marco, a Mexican goat herder, who rides with him to the Mexican Village of Montenegro, where Tree meets Julia, who changes his life forever after he becomes involved in and bears witness to the wonderful celebration of Dia de los Muertos.

The mountains of Montenegro are some of the wildest, most spectacular, and least visited in Europe. Nevertheless they are easily accessible, and many areas have well-marked trails. They present an opportunity to travel through

outstandingly beautiful and remarkably unspoilt natural scenery, which as yet sees few visitors. The Mountains of Montenegro is the first comprehensive English-language guide to hiking in this beautiful area, written by an author who has visited the country over a number of years and has lived in neighbouring Croatia. This work is the culmination of years of research into the royal family of Montenegro and its role in European history. This book observes images of Montenegro in Anglo-American creative writing and films from the late eighteenth century until 2016. Like the Balkans as a whole, Montenegro usually reappeared in the West's consciousness with the outbreak of wars, but remained marginalized on the larger Balkan map because of its peripheral political influence and, therefore, remained little known. In the past, Montenegro was experienced as almost unapproachable, barren, and wild. Its people, like their mountains, were seen as massive and fierce, while

their primitivism equally delighted and repulsed visitors. Even today, when one searches the Internet for “Montenegro,” one finds titles mostly containing modifiers circling around “undiscovered,” “magical,” and “mysterious.” The book follows these vignettes chronologically to point out how the rhetoric they share dangerously builds a caricature of the country. However, they also provide a very lively mosaic of landscapes, history, people, their costumes, houses, and everyday life, which are sometimes distorted. No one can claim that these

descriptions were not influenced by the ideologies the travellers inherited at home and were not filtered through their own cultural grids, but, significantly, they evoke places that are now forever lost – destroyed in wars, by earthquakes, faulty development planning, or, simply, by time.
