The Mysteries of Mithras presents a revival of this ancient Roman mystery religion, popular from the late second century B.C. Payam Nabarz reveals the history and tenets of Mithraism, its connections to Christianity, Islam, and Freemasonry, and the modern neo-pagan practice of Mithraism today. Included are seven of its initiatory rituals.

This volume represents the high-water mark of the thought of Eliphaz Levi. It may be regarded as written by him as his Thesis for the Grade of Exempt Adept, just as his "Ritual and Dogma" was his Thesis for the grade of a Major Adept. He is, in fact, no longer talking of things as if their sense was fixed and universal. He is beginning to see something of the contradiction inherent in the nature of things, or at any rate, he constantly illustrates the fact that the planes are to be kept separate for practical purposes, although in the final analysis they turn out to be one. This, and the extraordinarily subtle and delicate irony of which Eliphaz Levi is one of the greatest masters that has ever lived, have baffled the pedantry and stupidity of such commentators as Waite.

It is the year 4022; all of the ancient country of Usa has been buried under many feet of detritus from a catastrophe that occurred back in 1985. Imagine, then, the excitement that Howard Carson, an amateur archeologist at best, experienced when in crossing the perimeter of an abandoned excavation site he felt the ground give way beneath him and found himself at the bottom of a shaft, which, judging from the DO NOT DISTURB sign hanging from an archaic doorknob, was clearly the entrance to a still-sealed burial chamber. Carson's incredible discoveries, including the remains of two bodies, one of then on a ceremonial bed facing an altar that appeared to be a means of communicating with the Gods and the other lying in a porcelain sarcophagus in the Inner Chamber, permitted him to piece together the whole fabric of that extraordinary civilization.

Living the Mysteries

With the recent Sokal hoax--the publication of a prominent physicist's pseudo-article in a leading journal of cultural studies--the status of science moved sharply from debate to dispute. Is science objective, a disinterested reflection of reality, as Karl Popper and his followers believed? Or is it subjective, a social construction, as Thomas Kuhn and his students maintained? Into the fray comes "Mystery of Mysteries," an enlightening inquiry into the nature of science, using evolutionary theory as a case study. Michael Ruse begins with such colorful luminaries as Erasmus Darwin (grandfather of Charles) and Julian Huxley (brother of novelist Aldous and grandson of T. H. Huxley, "Darwin's bulldog") and ends with the work of the English game theorist Geoffrey Parker--a microevolutionist who made his mark studying the mating strategies of dung flies--and the American paleontologist Jack Sepkoski, whose computer-generated models reconstruct mass extinctions and other macro events in life's history. Along the way Ruse considers two great popularizers of evolution, Richard Dawkins and Stephen Jay Gould, as well as two leaders in the field of evolutionary studies, Richard Lewontin and Edward O. Wilson, paying close attention to these figures' cultural commitments: Gould's transplanted Germanic idealism, Dawkins's male-dominated Oxbridge circle, Lewontin's Jewish background, and Wilson's southern childhood. Ruse explicates the role of metaphor and metavalues in evolutionary thought and draws significant conclusions about the cultural impregnation of science. Identifying strengths and weaknesses on both sides of the "science wars," he demonstrates that a resolution of the objective and subjective debate is nonetheless possible.

Enigmatic drawings invite the reader to invent his or her own stories to explain each scene.

A twenty-eight-year-old writer bursts onto the scene with this virtuoso debut novel in which a woman's disappearance unlocks the dark secrets of a small town "Secrets had a way of growing inside you. It became difficult to breathe sometimes, a struggle in the company of other people to pretend that all was well. Mike would never forgive her if he knew what she'd done." -- from The Mysteries With literary finesse and an assured eye for the complexities of our most human desires and failings, Robert McGill has created a multi-layered, utterly engaging novel set in a small Ontario community in which, it seems, everyone has something to hide. Alice Pederson has been missing for almost two years. Her husband, Mike, and their children must carry on despite grief and the frustrations of a police investigation that has hit a dead end. Then, when remains are found along a nearby shoreline, a series of coincidences emerges: young Daniel Barrie returns suddenly from school in England; local former hockey coach Stoddart Fremlinis arrested in connection with Alice's murder, then crashes his small plane and escapes across a dark field; Rocket DeWitt, once the town hockey star and among the last people to see Alice alive, abruptly leaves town; Bronwen Ferry, the insurance investigator, pursues Alice's husband's claim for reasons of her own; and something out in the bush is making grisly attacks on farm animals. Meanwhile, Native groups are protesting the building of a henge on the grounds of Cam Usher's wildlife park, an area they know to be a sacred burial site. Adding to the disquiet, an unknown traveller arrives one night carrying a weather-beaten notebook, with instructions to give it only to Alice Pederson. Weaving back and forth in time, and told from the distinct perspectives ofits cast of memorable and eccentric characters, The Mysteries hums with tension and vividly evokes the tangled web of relationships within a small town. Robert McGill is a hugely talented and inventive new writer who has the ability to draw us into the world he has created and hold us, rapt, until the very last page. From the Hardcover edition.

The Pagan Belief That Shaped the Christian World

Until we get to heaven, we're all unfinished Christians. There are no "self-made" success stories in the spiritual life. No do-it-yourself kits for aspiring saints. That's why Living the Mysteries is ideal for a family member, friend, or fellow parishioner who was recently in the RCIA program and received the sacraments of initiation - baptism, confirmation, and the Eucharist - at the Easter Vigil. That's why it's perfect for a lifelong Catholic, too. The early Church had a process in which a teacher guided seekers through stages of inquiry and purification, culminating in a final phase called "mystagogy" - MIST-a go-gee- "the revelation of the mysteries." The instruction the early Christians needed is what we all need, no matter when we were baptized, no matter how much theology we've studied. That's because God's mysteries are inexhaustible and, until we get to heaven, we're all unfinished Christians. Now eight of the early Church's greatest teachers can be your guides as Living the Mysteries presents the wisdom and insights of: St. Ambrose St. Augustine St. Basil St. Clement of Alexandria St. Cyril of Jerusalem St. Gregory of Nyssa St. John Chrysostom St. Leo the Great Designed as a devotional - and more - for the fifty days between Easter and Pentecost, Living the Mysteries is a rich spiritual resource valuable any time of the year. Each day features: A passage from the Church's great teachers that focuses on a relevant point of the mystical or moral life. A plan with practical applications for letting that reading inspire your prayer and actions throughout the day. You will treasure these timeless lessons on gaining eternal life.

Day by day throughout the calendar year, "takes the readers on a journey of divine revelation through ancient scriptures, the laws of creation, the deep of God's word, the hidden streams of history, the most important keys of spiritual truth, end-time mysteries, and the secrets of life"--Amazon.com.

The Pulitzer Prize-winning author's "astnishing" debut novel, about a son's struggle to find his own identity and integrity (The New York Times). Michael Chabon, author of The Amazing Adventures of Kavalier & Clay, Moonglow, and The Yiddish Policeman's Union, is one of the most acclaimed talents in contemporary fiction. The Mysteries of Pittsburgh, published when Chabon was just twenty-five, is the beautifully crafted debut that propelled him into the literary stratosphere. Art Bechstein may be too young to know what he wants to do with his life, but he knows what he doesn't want: the life of his father, a man who laundered money for the mob. He spends the summer after graduation finding his own way, experimenting with a group of brilliant and seductive new friends: erudite Arthur Lecomte, who opens up new horizons for Art; mercurial Phlox, who confounds him at every turn; and Cleveland, a poetry-reciting biker who pulls him inevitably back into his father's mobbed-up world. A New York Times bestseller, The Mysteries of Pittsburgh was called "astnishing" by Alice McDermott, and heralded the arrival of one of our era's great voices. This ebook features a biography of the author.

The Mystery at Rattlesnake Ridge

Richard Maxwell uses nineteenth-century urban fiction-particularly the novels of Victor Hugo and Charles Dickens-to define a genre, the novel of urban mysteries. His title comes from the "'mystery mania'" that captured both sides of the channel with the runaway success of Eugene Sue's Les mysteres de Paris and G. W. M. Reynold's Mysteries of London. Maxwell's approach to the nature and evolution of the mysteries genre includes examinations of allegorical theory, journalistic practice, the conventions of scientific inquiry, popular psychiatry, illustration, and modernized wonder tales (such as Victorian adaptations of the Arabian Nights). In The Mysteries of Paris and London Maxwell employs a sweeping vision of the nineteenth century and a formidable grasp of both popular culture and high culture to decode the popular mysteries of the era and to reveal an evolving consciousness of the city.

Inspired by the complimentary feature film documentary series, The 7 Churches of Revelation, The Mysteries of the Apocalypse by Jean-Marc Thobois and Christophe Hanauer looks at the book of Revelation through the lens of biblical history, archaeology, and culture, giving readers a more accurate—and fascinating—understanding of the end times. The book of Revelation, written by the Apostle John, opens with a set of seven letters sent to a community of seven churches located in present-day Turkey. The term apocalypse has acquired a negative connotation over the centuries that has taken it away from its original meaning to evoke a cataclysmic and destructive event. This word has become popular for the wrong reasons. In Ancient Greek, it means a disclosure or revelation of great knowledge. The first key to better understand the mysteries of the prophecies of Revelation is to refer to Old Testament scriptures. In order to understand the New Testament, one should ask how the people of Israel understood and interpreted the teachings of Jesus and the apostles in their day. The second key is to consider the historical and political context of the time of writing of the text. In the first century, the Roman Empire persecuted, sometimes with extreme violence, the followers of Jesus Christ. Finally, the third key proposed is to regard the book of Revelation as a sort of synthesis, a summary of eschatological prophecies present throughout the Bible. Far from claiming to provide absolute truth, these three major keys help to decipher the true meaning of the text and better grasp its allusions and other symbolisms. Thus history, archeology, and culture anchor the book in reality. This unveiling gives context that speaks with great interest to our generation.

Award-winning author Lisa Tuttle delivers a riveting novel combining one man's search for a missing woman with history's most enduring legends of the disappeared. “A thriller, detective story, and fantasy all in one . . . Guard the Mysteries is a compendium of five talks that the poet Cedar Sigo presented for the Bagley Wright Lecture series. Retracing the ways in which he first encountered the realm of poetry, Sigo plumbs the particulars of modern critique, identity politics, early influences, and poetic form to produce a singular 'autobiography of voice.' Across these lectures, Sigo explores his childhood on the

Suquamish Reservation, while paying homage to revolutionary artists, teachers, and thinkers whom have shaped his poetic aesthetic. Simultaneously timeless and extremely timely, these talks ponder the presences that California Buddhism, LGBTQ+ experiences, and Native Nations occupy in the poetic world and the world at large.

As Napoleon himself once said, 'History is a version of past events that people have decided to agree upon'. Noted down in historical documents, copied and widely repeated, it doesn't take long for a version of the truth to become accepted as fact. But who invents these false accounts in the first place, and why do they gain traction so quickly? Far from concerning the obscure and insignificant

of our history, these fundamental inaccuracies and downright lies colour the depiction of many of those pivotal characters and events we learnt about at school. Cleopatra, Marco Polo, Captain Cook, Joan of Arc: most of us could probably reel off a fact or two about each. But as this intriguing book reveals, a closer examination of these core parts of our social and political history shows that o

was not as it seemed, and that the agendas of those responsible for recording these events had a huge impact on what was reported and what was covered up. The Mysteries of History is an entertaining romp through the centuries, uncovering the great mysteries surrounding some of the most inaccurate and misleading parts of our past.

De la Garza weaves a powerful examination of the complex processes that work together to constrain self-expression in a woman of Mexican ancestry. The book demonstrates the use of a variety of creative and reflexive methodologies, including poetry, prayers, de/reconstructed narratives, autobiography, and letters to historical and cultural female archetypes of Mexican origin. This methodology

«art as meditation», for obtaining insight into the dynamics of culture, is used to produce an autoethnographic study of how one can reclaim voice through rigorous interrogation of our own lives as cultural texts. De la Garza offers us a template for a new methodology, as applicable in academic studies of culture as it is in the everyday lives of those seeking to find voice within silenced cultural domains.

Unravelling the Truth from the Myths of Our Past

Ranging from the late nineteenth century to the present day, this exhilarating survey by cultural critic Peter Conrad explores the ways film has changed how we see the world. This is a thematic roller-coaster ride through cinema history, with film expert Peter Conrad in the seat beside you. Thoroughly international, this book ranges from Fay Wray to Satyajit Ray, from Buster Keaton to Kurosawa, from westerns to nouvelle vague. Conrad explores the medium's relationship to speed, technology, fantasy, horror, dream, color, sound, light, and shadow with reference to scores of films, from the earliest nineteenth-century silent experiments to the latest multisensory Hollywood blockbusters. The author's insights are amplified by voices from inside and outside the industry: directors and critics are included alongside artists, writers, philosophers, and historians ranging from Leo Tolstoy to Salvador Dalí, Theodor Adorno to Philip Roth. Arranged by topics, such as “Meta-Movie” and “The Physics of Film,” rather than chronological events, The Mysteries of Cinema focuses on film's otherworldly, hypnotic, and magical qualities. Perfect for both movie fans who will discover new films and directors, and for students of film who will see familiar classics in a new light, this volume is full of unique insights into the genre.
