**Your teacher training may have provided sound theory and a collection of instructional techniques, but it's often the practical details that can make day-to-day survival difficult in your first days, weeks, and years of teaching. For new teachers or those just new to the middle-school environment, here is an invaluable resource from the author of**

**Meet Me in the Middle that will help you walk in the door prepared to teach. Oriented toward the unique experience of teaching grades 5 through 9, Day One and Beyond delivers proven best practices along with often-humorous observations that provide a window into the middle school environment. Based on his many years of research and experience in the middle school classroom, Rick offers frontline advice on: practical survival matters, such as what to do the first day and week, setting up the grade book and other record keeping, and what to do if you only have one computer in the classroom; classroom management, including discipline, getting students' attention, and roving classrooms; social issues, like the unique nature of middle-level students, relating to students, and positive relations with parents; professional concerns, from collegiality with teammates to professional resources all middle-level teachers should have. Content and instruction are important, but so are the practical matters that enable sound teaching practice. Day One and Beyond shows middle-level teachers how to manage the physical and emotional aspects of their unique environment so they can do what they've been trained to do: successfully teach young adolescents.**

**If you can zero in on the one thing that matters most, you can accomplish more. In this course, adapted from the podcast How to Be Awesome at Your Job, host Pete Mockaitis interviews Jay Papasan, the co-author of the bestseller The ONE Thing. Jay describes how to find out your one thing by asking one question: "What's the one thing I can do, such that by doing it everything will be easier or unnecessary?" He also explains how to build powerful focus habits using a 66-day challenge, revolutionize your to-do list, and start making appointments with yourself. Plus, learn how to get more done by starting your day off right: doing an hour of core activities-reading, meditating, exercising, writing, or generating big ideas-before you even get to work in the morning. This course was created by Pete Mockaitis of How to Be Awesome at Your Job. We are pleased to offer this training in our library.**

**Celia Sánchez is the missing actor of the Cuban Revolution. Although not as well known in the English-speaking world as Fidel Castro and Che Guevara, Sánchez played a pivotal role in launching the revolution and administering the revolutionary state. She joined the clandestine 26th of July Movement and went on to choose the landing site of the Granma and fight with the rebels in the Sierra Maestra. She collected the documents that would form the official archives of the revolution, and, after its victory, launched numerous projects that enriched the lives of many Cubans, from parks to literacy programs to helping develop the Cohiba cigar brand. All the while, she maintained a close relationship with Fidel Castro that lasted until her death in 1980. The product of ten years of original research, this biography draws on interviews with Sánchez's friends, family, and comrades in the rebel army, along with countless letters and documents. Biographer Nancy Stout was initially barred from the official archives, but, in a remarkable twist, was granted access by Fidel Castro himself, impressed as he was with Stout's project and aware that Sánchez deserved a worthy biography. This is the extraordinary story of an extraordinary woman who exemplified the very best values of the Cuban Revolution: selfless dedication to the people, courage in the face of grave danger, and the desire to transform society.**
