German Renaissance artist Albrecht Dürer (1471-1528) is held up as perhaps the most significant artist of his time, particularly for his printmaking. The son of a Nuremberg goldsmith, Dürer was introduced early to the tools in his father's trade, as he was expected, naturally, to also become a goldsmith. When he was finally allowed to train as an artist, Dürer entered an apprenticeship with Michael Wolgemut, whose workshop created woodcuts for Anton Koberger, a local publisher and also Dürer's godfather. After four years, and with this strong artistic foundation, Dürer left Wolgemut's studio and traveled throughout Europe, encountering artists whose influence would have a lasting impression on his work. By age thirty, Dürer had already begun many of the works reprinted in this coloring book. Over the next few decades, he created woodcuts and engravings that revolutionized printmaking as a form of fine art. His technical brilliance grew, resulting in works that are considered a trio of masterpieces: Knight, Death, and the Devil; Melencolia I; and Saint Jerome in His Study. Along with these three engravings, we have included numerous independent prints and selections from his series the Apocalypse, the Small Passion, the Large Passion, the Engraved Passion, and the Life of the Virgin. Each is intense and fascinating.

The instant #1 New York Times bestseller | A Washington Post Notable Book | One of NPR's Best Books of 2021 The definitive behind-the-scenes story of Trump's final year in office, by Phil Rucker and Carol Leonnig, the Pulitzer-Prize winning reporters and authors of A Very Stable Genius. “Chilling.” – Anderson Cooper “Jaw-dropping.” – John Berman “Shocking.” – John Heilemann “Explosive.” – Hallie Jackson “Blockbuster new reporting.” – Nicolle Wallace “Bracing new revelations.” – Brian Williams “Bombshell reporting.” – David Muir The true story of what took place in Donald Trump’s White House during a disastrous 2020 has never before been told in full. What was really going on around the president, as the government failed to contain the coronavirus and over half a million Americans perished? Who was influencing Trump after he refused to concede an election he had clearly lost and spread lies about election fraud? To answer these questions, Phil Rucker and Carol Leonnig reveal a dysfunctional and bumbling presidency’s inner workings in unprecedented, stunning detail. Focused on Trump and the key players around him—the doctors, generals, senior advisers, and Trump family members— Rucker and

Leonnig provide a forensic account of the most devastating year in a presidency like no other. Their sources were in the room as time and time again Trump put his personal gain ahead of the good of the country. These witnesses to history tell the story of him longing to deploy the military to the streets of American cities to crush the protest movement in the wake of the killing of George Floyd, all to bolster his image of strength ahead of the election. These sources saw firsthand his refusal to take the threat of the coronavirus seriously—even to the point of allowing himself and those around him to be infected. This is a story of a nation sabotaged—economically, medically, and politically—by its own leader, culminating with a groundbreaking, minute-by-minute account of exactly what went on in the Capitol building on January 6, as Trump's supporters so easily breached the most sacred halls of American democracy, and how the president reacted. With unparalleled access, Rucker and Leonnig explain and expose exactly who enabled—and who foiled—Trump as he sought desperately to cling to power. A classic and heart-racing work of investigative reporting, this book is destined to be read and studied by citizens and historians alike for decades to come.

The artist Mark Hearld finds his inspiration in the flora and fauna of the British countryside: a blue-eyed jay perched on an oak branch; two hares enjoying the spoils of an allotment; a mute swan standing at the frozen water's edge; and a sleek red fox prowling the fields. Hearld admires such twentieth-century artists as Edward Bawden, John Piper, Eric Ravilious and Enid Marx, and, like them, he chooses to work in a range of media — paint, print, collage, textiles and ceramics. Workbook is the first collection of Hearld's beguiling art. The works are grouped into nature-related themes introduced by Hearld, who narrates the story behind some of his creations and discusses his influences. He explains his particular love of collage, which he favours for its graphic quality and potential for strong composition. Art historian Simon Martin contributes an essay on Hearld's place in the English popular-art tradition, and also meets Hearld in his museum-like home to explore the artist's passion for collecting objects, his working methods and his startling ability to view the wonders of the natural world as if through a child's eyes.

And when she feels a spark with a gorgeous neurosurgeon named Ryle Kincaid, everything in Lily's life seems too good to be true. Ryle

is assertive, stubborn, maybe even a little arrogant. He's also sensitive, brilliant, and has a total soft spot for Lily. And the way he looks in scrubs certainly doesn't hurt. Lily can't get him out of her head. But Ryle's complete aversion to relationships is disturbing. Even as Lily finds herself becoming the exception to his "no dating" rule, she can't help but wonder what made him that way in the first place. As questions about her new relationship overwhelm her, so do thoughts of Atlas Corrigan—her first love and a link to the past she left behind. He was her kindred spirit, her protector. When Atlas suddenly reappears, everything Lily has built with Ryle is threatened. An honest, evocative, and tender novel, *It Ends with Us* is "a glorious and touching read, a forever keeper.
