Passover Haggadah retells the story of the Israelites' Exodus from slavery in Egypt with faithfulness to the contours of a traditional seder. By holding up the Exodus next to the concept of a beloved national pastime, connections are made that cast light on the Passover story in new and unexpected patterns. This enchanting Haggadah with its vivid illustrations will capture the imagination of seder participants of all ages (from little leaguers to adults). By infusing an old ritual with thought provoking readings and new insights, this Haggadah may stand alone as the sole text at a religious school model seder or can be used as a supplementary Haggadah in traditional or liberal homes. Values taught at the seder, such as love of freedom, kindness to strangers, and concern for others, are

With Moses as the team captain for the Israelites and Pharaoh heading up the Taskmasters, the lineups struggle for dominance. God throws the ultimate "splitter," making way for the Israelites to cross the Sea of Reeds. Each participant takes a turn up at bat as a reader. There is a 7th Inning Stretch, during which the children can go to the door to search for and welcome the presence of Elijah. Ultimately, there is praise and joy and celebration. Freedom has been won. The Israelites, have made it safely home, and springtime is renewed on a field of green.

Spring signifies change and a new beginning. A time of longer days and warmer weather, the holidays celebrated during this season reflect this sense of renewal and rebirth. The specific customs and traditions may differ among cultures, but the underlying themes - of honoring life and the triumph of good over evil - remain the same. Although hundreds of festivals occur in the spring, four in particular are widely observed: the Christian Easter celebration, the Hindu celebration of Holi, the Jewish observance of Passover, and the Persian festival of Navruz. The book focusses on the origin and transformation of the priestly festival calendar. Since the epoch-making work of Julius Wellhausen at the end of the 19th century the differences between the various ancient

Israelite festival calendars have often been explained in terms of a gradual evolution, which shows an increasing historicisation, denaturalisation and ritualisation. The festivals were in Wellhausen's view gradually detached from agricultural conditions and celebrated more and more at fixed points in the year. This study tries to show that the changes in the priestly festival calendar reflect a conscious effort to adapt the ancient Israelite festival calendar to the semi-annual layout of the Babylonian festival year. The ramifications of the change only come to the fore after a careful study of the agricultural conditions of ancient Israel - and Mesopotamia - makes clear that passover and the festival of unleavened bread were

originally celebrated in the second month of the year. The first month of the year envisaged by the priestly festival calendar for the celebration of passover and the festival of unleavened bread in turn mirrors the date of one of the two semi-annual Babylonian New Year festivals. The two Babylonian New Year festivals were celebrated exactly six months apart at the vernal and autumnal equinoxes. In order to adapt the ancient Israelite festival calendar to the Babylonian scheme with two New Year festivals a year, the date of passover and the festival of unleavened bread had to be moved up by one month. The consequences for the origin of passover, the festival of unleavened bread, the festival of weeks and the festival of huts
