## The Reality of ESP

First published in 1941, a classic portrait of a Soviet revolutionary who is imprisoned and tortured under Stalin's rule finds him agonizingly reflecting on his ironic career under the totalitarian movement.

The doctor – and bestselling author – who

first demonstrated the healing effects of prayer now offers an unprecedented look at the science of premonitions. The Power of Premonitions takes readers through documented cases of premonitions, including a remarkable instance when an entire Nebraska community skipped church the very day it exploded; an

examination of recent scientific study of 'presentiment'; a discussion of what it all means to daily life; and practical field-tested techniques for inviting premonitions. In this compelling new book Dossey uses cutting-edge science to prove the value of what has long been considered spiritual mumbo-jumbo. This

is a book for the sceptical mind, but it's also for the believer's heart – because its author possesses the rare gift of having both.

Bizarre military history: In 1979, a crack commando unit was established by the most gifted minds within the U.S. Army. Defying all known laws of physics and

they're back—and they're fighting the War on Terror. An uproarious exploration of American military paranoia: With investigations ranging from the mysterious “Goat Lab,” to Uri Geller's covert psychic work with the CIA, to the increasingly bizarre role played by a succession of U.S. presidents, this might
