Q. What is the most-watched TV format in history, seen by about 100 million people weekly around the world? A. Wheel of Fortune, a game show. Without putdowns or pandering, the author looks at 260 such shows, concluding that culture has triumphed over technology. For despite our capacity to transmit the same content world-wide, McLuhan's global village has not come to pass. Technology has, however, encouraged already-existing "cultural continents" to coalesce. About one-third of the world's game shows have been licensed or adapted from another country, especially from the United States. Conversely, a single program can cross borders unchanged, such as Sabado Gigante, which appeals to Spanish speakers in 18 countries. The first truly global study of TV entertainment, this book includes interviews with producers, contestants, and licensors. With its tables, illustrations and appendices, the text provides details on content and audiences, as well as explanatory overviews.

Following on in the same vein of The Joy of Sheds, The Joy of Pubs is an intoxicating publication detailing everything and anything you want to know about pubs. It celebrates the many facets of the traditional British pub over the years, with chapters on: Pub Characters, Pub Games, Pub Fiddles (how the licensee has shafted his customers over the years), Pub Teams and Pub History from Geoffrey Chaucer to Jeffrey Bernard. It features the great pubs of literature – Robert Louis Stevenson's Admiral Benbow, Daphne du Maurier's Jamaica Inn and Charles Dickens' The Grapes; the great pubs of film – The Crown Inn at Amersham (Four Weddings and a Funeral), the Crown Inn at Wells (Hot Fuzz); the great pubs of TV – apart from the Rover's Return, Queen Vic and Woolpack. It features tales of barring, of dodgy deals of riotous lock-ins and of strange hauntings. The perfect present for anyone who loves their pub or just the idea that they have a pub.

This book is not so much round the world in eighty days as round the world in 1,200 challenging quiz questions, designed to test the knowledge, resolve and goal-scoring accuracy of even the most ardent football fan. Spanning the whole history of the World Cup since its conception and covering all the nail-biting competitions, participating teams and unforgettable players and managers, the cunning questions could give your brain a nasty tackle and leave it calling for a stretcher. With a fitting Foreword by Martin Peters MBE, this veritable treasure trove is brimful of interesting facts and figures and is guaranteed to stir up fond memories of the all the highlights and lowlights that have graced the World Cup stage and have left an indelible mark on the history of football.

Quizzing is at a peak right now and this is a QUIZ OF THE WORLD, with 20 varied and interesting questions on the current 197 countries and sovereign states. World travel has been very risky recently because of the Covid -19 Crisis, so I thought that you might appreciate the chance to travel round the world in a rather different way. There are hints to assist in answering the more difficult questions and this book will give a big boost to family quiz nights, pub quiz leagues and quiz clubs in general. I hope that it will prove both educational and entertaining.

INSTANT NEW YORK TIMES BESTSELLER "One of the most important books I've ever read—an indispensable guide to thinking clearly about the world." – Bill Gates "Hans Rosling tells the story of 'the secret silent miracle of human progress' as only he can. But Factfulness does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly." —Melinda Gates "Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases." - Former U.S. President Barack Obama Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world's population live in poverty; why the world's population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In Factfulness, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn't mean there aren't real concerns. But when we worry about everything all the time

instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, Factfulness is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- " This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book will be. " Hans Rosling, February 2017.
