The book is based on a pseudo-scientific theory called the law of attraction, the principle that like attracts like. Specifically, Byrne focuses on the idea that your dreams do in fact come true thinking about money and wealth will attract these very things, causing them to manifest in your life. Likewise, fretting over a worst-case scenario will only cause your fears to be realized. Hence the importance of positive thinking. There are no accidents and bad luck. Instead Byrne writes, Your life right now is a reflection of your past thoughts. Throughout the book, Byrne intersperses quotes from proponents of the law of attraction, such as Jack Canfield, creator of the Chicken Soup for the Soul series. These experts believe the law to be supported by quantum physics, arguing that it is a law of nature like gravity. According to Byrne, the mind is a magnet, emitting and receiving frequencies to and from the Universe. Each thought sends out a signal, which is turn gathers similar frequencies due to the law of attraction before returning back to you. In this fashion, your mind can bring you anything you desire dream of a new house, and somehow, someway, it will come to you. On the flip side, dwelling on war and poverty will only perpetuate these evils. Byrne even proposes that too much negative thinking can put you in the path of a natural disaster or terrorist attack. The rest of the book explores different methods of using the law of attraction to your advantage. The primary technique is ask, believe, receive. This process involves imagining what you desire and pretending that you already have it. For example, Byrne suggests filling out a fake check and pretending to buy all the things youve always wanted. Doing so, she says, will make you wealthy. Buy a copy to keep reading! Do you see you life just as it is? Or do you see it as you want it to be? If you past is based on a lie? Find out in this "satisfied and moving story" (Publishers Weekly, starred review) in both verse and prose from #1 New York Times bestselling author, Ellen Hopkins. For as long as she can remember, it's been just Ariel and Dad. Ariel's mom disappeared when she was a baby. Dad says home is wherever the two of them are, but Ariel is now an adult and after years of new apartments, new schools, and new faces, all she wants is to sit down some roots. Complicating things are Monica and Gabe, both of whom have stirred a different kind of desire. Maya's a teenager who's run from an abusive mother right into the arms of an older man she thinks she can trust. But now she's isolated with a baby on the way, and life's getting more complicated than Maya ever could have imagined. Ariel and Maya's lives collide unexpectedly when Ariel's mother shows up out of the blue with wild accusations: Ariel wasn't abandoned. Her father kidnapped her fourteen years ago. In bestselling author Ellen Hopkins's deft hands, Ariel's emotionally charged journey to find out the truth of who she really is balances beautifully with Maya's story of loss and redemption. This is a memorable portrait of two young women trying to make sense of their lives and coming face to face with themselves—for both the last and the very first time.
