Diverse perspectives on the “chronicle” as a literary genre and socio-cultural practice. Jeanne de Jussie (1503–61) experienced the Protestant Reformation from within the walls of the Convent of Saint Clare in Geneva. In her impassioned and engaging Short Chronicle, she

offers a singular account of the Reformation, reporting not only on the larger clashes between Protestants and Catholics but also on events in her convent—devious city councilmen who lied to trusting nuns, lecherous soldiers who tried to kiss them, and iconoclastic intruders who smashed statues and burned paintings. Throughout her tale, Jussie highlights women's roles on both sides of the conflict, from the Reformed women who came to her convent in an attempt to convert the nuns to the Catholic women who ransacked the shop of a Reformed apothecary. Above all, she stresses the Poor Clares' faithfulness and the

First published in French in 1611, Jussie's Short Chronicle is translated here for an English-speaking audience for the first time, providing a fresh perspective on struggles for religious and political power in sixteenth-century Geneva and a rare glimpse at early modern monastic life.

This book provides descriptive reports about people living in poverty in New York City (New York) in the period from 1964 to 1979 as a beginning to solving the problems of persistent poverty. Analyses of the problems of poverty have rarely been undertaken from the point of view of the poor themselves. It is argued that society will never be able to grapple with the contradictions of poverty until it comes to understand the poor as real people, not as statistical abstractions or faceless objects of pity or contempt. These reports are not sociological studies, but they are informal case studies that reveal the lives of residents in a poor largely Puerto Rican neighborhood in Manhattan (New York) assisted

In this elegantly written book, Lee Wandel discusses the relationship between the reform of poor relief and the Protestant Reformation in early sixteenth-century Zurich. In the introduction she traces the various ways that poverty has been evaluated, and its social and religious connotations, up to the sixteenth century. After providing a portrait of sixteenth-century Zurich, the author goes on to explore the discussion of the poor in various media of the town: the sermons and pamphlets of Huldrych

By exploring each of these different "languages"--the words of Zwingli's sermons, the visual images of title page prints, and the language of legislation--Professor Wandel restores the complex perception of the poor in Reformation Zurich. In each, the poor were located within matrices of religious and social values and were seen as both economically dependent and symbolic within larger theological and

This study examines the theme of poverty in the fourth-century sermons of Basil of Caesarea, Gregory Nazianzen, and Gregory Nysson. These sermons are especially important for what they tell us about the history of poverty relief and the role of fourth century Christian theology in constructing the body of the redemptive, involuntary poor. Some of the topics explored include the contextualization of the poor in scholarship, the poor in late antiquity, and starvation and famine dynamics. In exploring this relationship between cultural context and theological language, this volume offers a broad and fresh overview of these little-studied

In "Poor, Sinning Folk," W. David Myers investigates the sixteenth-century fate of the medieval Christian sacrament of penance, the process of confessing to a priest in secret one's sins against God and other humans. In Pre-Reformation Germany, numerous layers of public ritual, expectation, and display surrounded the central secret act of confessing and conditioned its meaning. Less frequent and less private than the ritual familiar to modern Catholics, medieval penance was for most German-speaking Christians a seasonal event with social as well as spiritual ramifications for participants. Protestantism swept confession away from many

German lands. Even where Catholicism survived and flourished, as in the lands comprising modern Bavaria, the sacrament of penance changed profoundly. The modern confessional booth was introduced, making the sacrament more prominent, more secure from scandal, and ultimately more private. This reform coincided with the efforts of secular rulers to fashion a more disciplined, obedient population. New religious orders, most notably the Society of Jesus in Bavaria, saw the frequent confession of lay people as a means to piety and spiritual discipline amid the temptations of worldly affairs. By the middle of the seventeenth century, political and religious forces combined to forge the sacrament of

From Charles Dickens's Oliver Twist to George Sims's How the Poor Live, illustrated accounts of poverty were en vogue in Victorian Britain. Poverty was also a popular subject on the screen, whether in dramatic retellings of well-known stories or in 'documentary' photographs taken in the slums. London and its street life were the preferred setting for George Robert Sims's rousing ballads and the numerous magic lantern slide series and silent films based on them. Sims was a popular journalist and dramatist, whose articles, short stories, theatre plays and ballads discussed overcrowding, drunkenness, prostitution and child poverty in dramatic and heroic episodes from the lives and deaths of the poor. Richly illustrated and drawing from many previously unknown sources, Pictures of Poverty is a comprehensive account

of the representation of poverty throughout the Victorian period, whether disseminated in newspapers, illustrated books and lectures, presented on the theatre stage or projected on the screen in magic lantern and film performances. Detailed case studies reveal the intermedial context of these popular pictures of poverty and their mobility across genres. With versatile author George R. Sims as the starting point, this study explores the influence of visual media in historical discourses about poverty and the highly controversial role of the Victorian state in poor relief.

This book is the first of its kind to examine the relationship between social exclusion, poverty and the labour market. It challenges long-standing and dominant myths about 'the workless' and 'the poor', by exploring close-up the lived realities of life in low-pay, no-pay Britain. Work may be 'the best route out of poverty' sometimes but for many people getting a job can be just a turn in the cycle of recurrent poverty - and of long-term churning between low-skilled 'poor work' and unemployment.
