

The Tenth Good Thing About Barney

The bestselling, beloved writer of romantic comedies like You've Got Mail tells her own late-in-life love story in her "resplendent memoir," complete with a tragic second act and joyous resolution (Adriana Trigiani, bestselling author of The Good Left Undone). Delia Ephron had struggled through several years of heartbreak. She'd lost her sister, Nora, and then her husband, Jerry, both to cancer. Several months after Jerry's death, she decided to make one small change in her life—she shut down his landline, which crashed her internet. She ended up in Verizon hell. She channeled her grief the best way she knew: by writing a New York Times op-ed. The piece caught the attention of Peter, a Bay Area psychiatrist, who emailed her to commiserate. Recently widowed himself, he reminded her that they had shared a few dates fifty-four years before, set up by Nora. Delia did not remember him, but after several weeks of exchanging emails and sixties folk songs, he flew east to see her. They were crazy, utterly, in love. But this was not a rom-com: four months later she was diagnosed with AML, a fierce leukemia. In Left on Tenth, Delia Ephron enchants as she seesaws us between tears and laughter, navigating the suicidal lows of enduring cutting-edge treatment and the giddy highs of a second chance at love. With Peter and her close girlfriends by her side, with startling clarity, warmth, and honesty about facing death, Ephron invites us to join her team of warriors and become believers ourselves. Not all battles are won by the sword. Jurian's victory against the dark power in Cyrene has earned him renown throughout the Empire, but fame means nothing to him if he can't save the friend he lost. When Jurian's search for Menas leads him to Alexandria, he finds an unlikely ally in the Roman governor's brilliant and precocious daughter, Aikaterina. Together they are swept into the glittering intrigue of Diocletian's court in Nicomedia, where no one and nothing is what it seems. Then Sabra arrives in the city, and Jurian proves to the Emperor that he is more than just a legend, and finally everything he ever hoped for seems within his

reach. But Marcus Valerius Casca is also vying for Diocletian's favor, and his hatred for Jurian knows no limits. As Casca's devious plotting snares each of Jurian's friends in turn, Jurian must discover a way to beat his enemy at his own game and rescue Menas before he destroys them all. From the exotic Alexandria to the imperial court of Nicomedia and the bloody sands of the Roman Colosseum, this sweeping second installment of the Sword and Serpent series will pull you into a riveting adventure through a world of deadly intrigue, where nothing is what it seems and the price of freedom can be greater than life itself. Saints aren't born. They are forged.

Attachments aren't something he wants to form, but when the quiet new girl challenges him in front of his classmates, his curiosity is piqued. She would be the perfect final score, and what fun to break her in the process. Too bad Harper Posy has no intention of being just another warm body, especially to the bad boy quarterback. Even if he does quote Forster and Huxley when no one is listening. An aspiring author herself, Cain and his hidden soft side are dangerous to her heart. She's seen men ruin her mother's dreams time and again, and she's determined to fly far away as soon as she has that diploma in her fist. But as the school year's end looms closer, both realize they didn't quite understand the rules to begin with. Is winning a dirty bet worth the gamble when the stakes, or the other's heart in this case, are so high? Harper is the one girl who isn't up for playing games. And she just might make Cain lose. Everything.

In celebration of the tenth anniversary of "It Takes a Village," this splendid edition includes photographs and a new Introduction by Senator Hillary Rodham Clinton. A decade ago, then First Lady Hillary Rodham Clinton chronicled her quest -- both deeply personal and, in the truest sense, public -- to help make our society into the kind of village that enables children to become smart, able, resilient adults. "It Takes a Village" is "a textbook for caring.... Filled with truths that are worth a

read, and a reread" "(The Dallas Morning News)." For more than thirty-five years, Senator Clinton has made children her passion and her cause. Her long experience -- not only through her roles as mother, daughter, sister, and wife but also as advocate, legal expert, and public servant -- has strengthened her conviction that how children develop and what they need to succeed are inextricably entwined with the society in which they live and how well it sustains and supports its families and individuals. In other words, it takes a village to raise a child. In her new Introduction, Senator Clinton reflects on how our village has changed over the last decade -- from the impact of the Internet to new research in early child development and education. She discusses issues of increasing concern -- security, the environment, the national debt -- and looks at where we have made progress and where there is still work to be done. "It Takes a Village" has become a classic. As relevant as ever, this anniversary edition makes it abundantly clear that the choices we make today about how we raise our children and how we support families will determine how our nation will face the challenges of this century.

"A unique and splendidly researched story, following the trials and triumphs of Julius Caesar's Legio X-arguably the most famous legion of its day-from its activation to the slogging battle of Munda and from Thapsus, Caesar's tactical masterpiece, to the grim siege of the Jewish fortress of Masada. More than a mere unit account, it incorporates the history of Rome and the Roman army at the height of their power and gory glory. Many military historians consider Caesar's legions the world's most efficient infantry before the arrival of gunpowder. This book shows why. Written in readable, popular style, Caesar's Legion is a must for military buffs and anyone interested in Roman history at a critical point in European civilization." -T. R. Fehrenbach, author of *This Kind of War*, *Lone Star*, and *Comanches* Stephen Dando-Collins paints a vivid and definitive portrait of daily life in the Tenth Legion as he follows Caesar and his men along the blood-soaked fringes of the Empire. This unprecedented regimental history reveals countless previously unknown details about Roman military practices, Caesar's conduct as a commander and his relationships with officers and legionaries, and the daily routine and discipline of the Legion. From penetrating

insights into the mind of history's greatest general to a grunt's-eye view of the gruesome realities of war in the Classical Age, this unique and riveting true account sets a new standard of excellence and detail to which all authors of ancient military history will now aspire.

In the late fifteenth century, clocks acquired minute hands. A century later, second hands appeared. But it wasn't until the 1850s that instruments could recognize a tenth of a second, and, once they did, the impact on modern science and society was profound. Revealing the history behind this infinitesimal interval, *A Tenth of a Second* sheds new light on modernity and illuminates the work of important thinkers of the last two centuries. Tracing debates about the nature of time, causality, and free will, as well as the introduction of modern technologies—telegraphy, photography, cinematography—Jimena Canales locates the reverberations of this “perceptual moment” throughout culture. Once scientists associated the tenth of a second with the speed of thought, they developed reaction time experiments with lasting implications for experimental psychology, physiology, and optics. Astronomers and physicists

struggled to control the profound consequences of results that were a tenth of a second off. And references to the interval were part of a general inquiry into time, consciousness, and sensory experience that involved rethinking the contributions of Descartes and Kant. Considering its impact on much longer time periods and featuring appearances by Henri Bergson, Walter Benjamin, and Albert Einstein, among others, *A Tenth of a Second* is ultimately an important contribution to history and a novel perspective on modernity.

#1 NEW YORK TIMES BESTSELLER • A special 25th anniversary edition of the beloved book that changed millions of lives—with a new afterword by the author “A wonderful book, a story of the heart told by a writer with soul.”—Los Angeles Times Maybe it was a grandparent, or a teacher, or a colleague. Someone older, patient and wise, who understood you when you were young and searching, helped you see the world as a more profound place, gave you sound advice to help you make your way through it. For Mitch Albom, that person was Morrie Schwartz, his college professor from nearly twenty years ago. Maybe, like Mitch, you lost track of this mentor as you made your way, and the insights

faded, and the world seemed colder. Wouldn't you like to see that person again, ask the bigger questions that still haunt you, receive wisdom for your busy life today the way you once did when you were younger? Mitch Albom had that second chance. He rediscovered Morrie in the last months of the older man's life. Knowing he was dying, Morrie visited with Mitch in his study every Tuesday, just as they used to back in college. Their rekindled relationship turned into one final "class": lessons in how to live. Tuesdays with Morrie is a magical chronicle of their time together, through which Mitch shares Morrie's lasting gift with the world.

From a Pulitzer Prize-winning writer comes an exuberant memoir of personal loss and longing, and finding connection on the remote Azorean islands of the Atlantic Ocean. Reporter Diana Marcum is in crisis. A long-

buried personal sadness is enfolding her--and her career is stalled--when she stumbles upon an unusual group of immigrants living in rural California. She follows them on their annual return to the remote Azores islands in the Atlantic Ocean, where bulls run down village streets, volcanoes are active, and the people celebrate festas to ease their saudade, a longing so deep that the Portuguese word for it can't be fully translated. Years later, California is in a terrible drought, the wildfires seem to never end, and Diana finds herself still dreaming of those islands and the chuva--a rain so soft you don't notice when it begins or ends. With her troublesome Labrador retriever, Murphy, in tow, Diana returns to the islands of her dreams only to discover that there are still things she longs for--and one of them may be a most unexpected love.

Taken from "The Talented Tenth" written by W. E. B. Du Bois: The Negro race, like all races, is going to be saved by its exceptional men. The problem of education, then, among Negroes must first of all deal with the Talented Tenth; it is the problem of developing the Best of this race that they may guide the Mass away from the contamination and death of the Worst, in their own and other races. Now the training of men is a difficult and intricate task. Its technique is a matter for educational experts, but its object is for the vision of seers. If we make money the object of man-training, we shall develop money-makers but not necessarily men; if we make technical skill the object of education, we may possess artisans but

not, in nature, men. Men we shall have only as we make manhood the object of the work of the schools-intelligence, broad sympathy, knowledge of the world that was and is, and of the relation of men to it-this is the curriculum of that Higher Education which must underlie true life. On this foundation we may build bread winning, skill of hand and quickness of brain, with never a fear lest the child and man mistake the means of living for the object of life.

Mark Victor was a soldier left broken after the Harmony War ended. What can a broken ex-trooper really do? What are they good for if they've gone through the EMF and been tossed out the other side? If you were to ask Mark... Maybe, doing what the enemy couldn't and following his brothers and sisters. Mark wakes up to a nightmare, to an unfamiliar place with unknown faces. A planet under attack, an enemy he's never seen before, he just wants to escape, but when he sees others in danger, a trooper stands for something, they stand to protect their own. No matter the cost. For the first time in history, eradicating world poverty is within our reach. Yet around the world, a billion people struggle to live each day on less than many of us pay for bottled water. In The Life You Can Save, Peter Singer uses ethical arguments, illuminating examples, and case studies of charitable giving to show that our current response to world poverty is not only insufficient but morally indefensible. The Life You Can Save teaches us to be a part of the solution, helping others as we help ourselves.

From childhood poverty in the 1930s to being appointed a CBE in 1992, Harold Bolter's life spans some of the most turbulent years of social and political change. This is his story.

The year 2009 will mark the 75th anniversary of The Junior Book of Authors, the first volume of its kind to celebrate the people who create books for young people. The Junior Authors & Illustrators series has been a welcome and essential source of information since 1934. The biographical profiles have introduced generations of young readers to

the authors and artists who create the books they know and love. Children and young adults, parents and educators, as well as aspiring children's book writers and illustrators will appreciate the valuable insights and lively first-person presentations. Award-Winning Authors and Illustrators The latest volume in this indispensable series covers 240 award-winning authors and illustrators who represent the rich variety and multicultural nature of children's literature today. Included are Caldecott Honor Book illustrators Bryan Collier and Mo Willems; Newbery Medalists Cynthia Kadohata and Lynne Rae Perkins; popular fantasy creators Cornelia Funke and Rick Riordan; and cultural icons who have written critically acclaimed children's books, such as Julie Andrews and Holly Hobbie. Authors for teens are also well represented in profiles of Printz Award winners David Almond and Meg Rosoff and Printz Honor book recipients Laurie Halse Anderson, Sonya Hartnett, and Markus Zusak. Retrospective profiles in this volume include comprehensive overviews of the careers of some of children and young adult literature's greatest 20th century stars—Roald Dahl, Astrid Lindgren, and Dr. Seuss, among them—as well as those who continue to grow in their careers—such as Patricia Reilly Giff and Jane Yolen.

Necessary Losses

The 10th Anniversary Edition of the book that has given hope and inspiration to thousands who are dealing with eating disorders "If you or someone you love has an eating disorder, this is the book to read." —Dr. Phil Jenni had been in an abusive relationship with Ed for far too long. He controlled Jenni's life, distorted her self-image, and tried to physically harm her throughout their long affair. Then, in therapy, Jenni learned to treat her eating disorder as a relationship, not a condition. By thinking of her eating disorder as a unique personality separate from her own, Jenni was able to

break up with Ed once and for all. Inspiring, compassionate, and filled with practical exercises to help you break up with your own personal E.D., Life Without Ed provides hope to the millions of people plagued by eating disorders. Beginning with Jenni's "divorce" from Ed, this supportive, lifesaving book combines a patient's insights and experiences with a therapist's prescriptions for success to help you live a healthier, happier life without Ed. This 10th anniversary edition features a new afterword as well as sections devoted to family, friends, and supporters; how treatment professionals can use the book with their patients; and men with eating disorders. "Of all the great books written on eating disorders, none has had a wider reach than Life Without Ed. Those suffering have found connection and hope, family members have found understanding and empathy, professionals have learned from it and praised it. It will remain a classic for decades to come." —Michael E. Berrett, PhD, psychologist; CEO and cofounder of the Center for Change; coauthor of Spiritual Approaches in the Treatment of Women with Eating Disorders "[Life Without Ed] was the first [book] to teach readers that they can not only separate from their eating disorder, but also disagree with and disobey it. I wholeheartedly recommend this witty, hopeful guide to patients, carers, professionals, and anyone else who wants to understand what it's really like to live with an

eating disorder and ultimately triumph over it." —Jennifer J. Thomas, PhD, assistant professor of psychology at the Harvard Medical School; co-director of the Eating Disorders Clinical and Research Program at Massachusetts General Hospital "This uplifting book's intimate inner dialogue has energized countless young women—and men—in their own recoveries from eating disorders." —Leigh Cohn, MAT, CEDS, coauthor of *Making Weight: Men's Conflicts with Food, Weight, Shape & Recovery* "Jenni is truly a remarkable woman. She unselfishly shares her struggles and triumphs in something that will probably affect all of us in one way or another in our lifetime. Her candid and inspiring story will truly help those suffering from their own "Ed." I feel privileged to know her and her story." —Jamie-Lynn Sigler, actress

Cambridge archaeologist Sarah Weston makes an unusual discovery in the ancient Ethiopian kingdom of Aksum—a sealed tomb with inscriptions in an obscure dialect. Along with her colleague, American anthropologist Daniel Madigan, she tries to identify the entombed man and translate the inscriptions. Tracking down clues in Addis Ababa and the monasteries of Lalibela, Sarah and Daniel uncover a codex in the subterranean library revealing the secret of the tomb—a set of prophecies about Earth's final hours, written by a man hailed by Ethiopian mystics as Coptic Christianity's 10th apostle. Faced with violent opposition and left for dead in the heart of the Simien Mountains, Sarah and Daniel survive to journey to Paris, where they're given a 14th-century letter describing the catastrophe that will lead to the planet's demise. Connecting the two discoveries, Sarah faces a deadly choice: to keep the secret buried in order to promote technological advances presently leading toward the prophesied end of the Earth.
