

The Thames Hudson Dictionary Of Art And Artists World Of Art

"Distinguishes itself...with clear, concise entries on a range of subjects."--"Archaeology" From Abgig to Zawiyet Umm el-Rakham, this book will appeal to tourists, museum visitors, armchair travelers, and scholars. All the major archaeological sites of Egypt and Sudan are described in this up-to-date guide. Ancient Egypt offers a bewildering array of kings and dynasties, gods and goddesses, temples and tombs, and this dictionary provides an authoritative reference. Each king receives a separate entry: famous pharaohs such as Ramesses the Great and Tutankhamun are discussed alongside lesser-known kings such as Rudamun and Takelot. Other entries cover ancient Egypt's most important queens and courtiers, its deities and major works of literature, as well as general cultural topics such as language and medicine. There are explanations of specialist terms and of Egyptian civilization's distinctive features, including hieroglyphs and mummification. 316 illustrations, 163 in color.

A clear and well-illustrated guide to the main characters and legends of Judaism This book captures the richness and vitality of traditional Jewish culture: a web of legend, folklore and superstition that is crucial to understanding Judaism. Topics include Jewish law, literature and poetry; the festivals of the Jewish year; the languages and sub-groups within the Jewish community; and the many countries that Jews have lived in. The book also reveals another side of Judaism, a world populated by angels and demons, sages and Kabbalists, and creatures unknown to zoologists.

An illustrated tour of the forefront shoe designer's creative process collects 120 color sketches as prepared by the artist at the outside of his design process, in a tribute that includes commentary by such contributors as Michael Roberts and Anna Piaggi. Original.

Henri Cartier-Bresson (1908-2004) is one of the most influential and beloved figures in the history of photography. Released to accompany an exhibition at The Museum of Modern Art, 'Henri Cartier-Bresson: The Modern Century' is the first major publication to make full use of the extensive holdings of the Fondation Henri Cartier-Bresson in Paris including thousands of prints and a vast resource of documents relating to the photographers life and work. The heart of the book surveys Cartier-Bresson's career through 300 photographs divided into twelve chapters. While many of his most famous pictures are included, a great number of images will be unfamiliar even to specialists. A wide-ranging essay by Peter Galassi, Chief Curator of Photography at the Museum, offers an entirely new understanding of Cartier-Bresson's extraordinary career and its overlapping contexts of journalism and art. The extensive supporting material featuring detailed chronologies of the photographers professional travels and his picture stories as they appeared in magazines will revolutionize the study of Cartier-Bresson's work.

Here is a comprehensive, accessible and authoritative illustrated reference to the history, art and science of photography. In one single, elegant volume, it features over 300 iconic photographs and contains more than 1,200 concise yet fully detailed entries on all aspects of the subject. Though much information can today be found online, locating it takes time and sources can have questionable provenance and uncertain academic credentials. All previous dictionaries of photography are now outdated, as well, focusing either on the famous and influential practitioners of the genre or presented as mere glossaries of technical terms. This landmark publication, newly available in paperback, is the culmination of ten years of development and research. Working with an international expert panel of 150 consultants and 79 researchers, Nathalie Herschdorfer has triumphed in creating the first source of information for all scholars, practitioners and collectors of photography to turn to in the future. In this landmark photography publication and accompanying exhibition, Clément Chéroux demonstrates how Magnum Photos owes its pre-eminence to the ability of its photographers to encompass and navigate the points between photography as art object and photography as documentary evidence. A Magnum photograph can be expressive and bear witness at the same time. Magnum Manifesto is organized into three main parts: Part 1 (1947-1968) views the Magnum archive through a humanist lens, focusing on post-war ideals of commonality and utopianism. Part 2 (1969-1989) shows a world fragmenting, with a focus on subcultures, minorities and outsiders. Part 3 (1990-present day) charts the ways in which Magnum photographers have captured - and continue to capture - a world in flux and under threat. Featuring both group and individual projects, the book includes contact sheets, notebooks, magazine spreads and other previously unseen material to accompany the photographs. Complete with extensive texts by Clément Chéroux and photographic historian Clara Bouveresse, Magnum Manifesto is an essential purchase for anyone seeking to understand the very best in

photography.

the thames & hudson dictionary of ancient egypt

PhotoBox presents a collection of 250 photographs by 200 of the world's most prominent photographers, ranging from legendary masters to contemporary stars, in a compact paperback format. Photographers include Ansel Adams, Richard Avedon, Yann Arthus-Bertrand, Henri Cartier-Bresson, Elliot Erwitt, Robert Frank, Nan Goldin, David LaChapelle, Annie Leibovitz, Helmut Newton, and many more. Each image is accompanied by an engaging commentary and a brief biography of the photographer. An essential anthology of must-see photographs from the earliest days of the medium to the present.

Surveys the history of British art and discusses important artists, movements, and periods.

In nearly 1500 entries, many of them strikingly and often surprisingly illustrated, J. C. Cooper has documented the history and evolution of symbols from prehistory to our own day. With over 200 illustrations and lively, informative and often ironic texts, she discusses and explains an enormous variety of symbols extending from the Arctic to Dahomey, from the Iroquois to Oceania, and coming from systems as diverse as Tao, Christianity, Judaism, Buddhism, Islam, Tantra, the cult of Cybele and the Great Goddess, the Pre-Columbian religions of the Western Hemisphere and the Voodoo cults of Brazil and West Africa.

This book presents the entire epoch of the Renaissance through a collection of images, offering all the tools anyone needs to explore this age of reawakening, invention, and achievement.

More than 1,000 illustrations - of paintings, sculpture, architecture, drawings, and engravings - are grouped to present more than a hundred pertinent topics. The topics themselves are divided among eight major themes covering every aspect of intellectual, political, religious, economic, social, technological, artistic, and architectural life in the Renaissance, all extensively cross-referenced.

What exactly is Neo-Expressionism? The part of a city known as the acropolis? Or the painting technique called gouache? In this authoritative and concise dictionary, more than 2000 entries and 375 illustrations embrace the vast vocabulary of painting and sculpture, architecture and photography, the decorative, applied and graphic arts. The geographical spread is global; the chronological range takes in both Helladic art from Bronze Age Greece and holography, one of the newest means of expression provided by modern technology. 375 illus.

Provides over 1,000 accessible, informative and authoritative entries that answer any major question about Hinduism, its mythology, practices, customs and laws India is so vast that each of its regions is a land in its own right, with diverse languages, customs, and cultural traditions. Yet shared social systems, firmly grounded in religious beliefs, provide the cohesive force that unites over a billion people of different backgrounds. Hinduism is the main religion of India, and this new dictionary provides an unrivaled insight to all aspects of Hindu life, past and present. Some thousand illustrated entries elucidate the history of Hinduism, its mythology, art, architecture, religion, laws, and folklore. The development of Hinduism is presented from its ancient manifestations in local cults and epic poems to modern-day festivals and customs worldwide. The complex relationship between the multitude of gods, goddesses, and semi-divine beings is brought to light in the articles on religion and mythology, while its rich imagery is revealed in the entries on architecture, sculpture, painting, dance, and theater, including works of art illustrated here for the first time. Food and etiquette, the caste system, Ayurvedic medicine, love and marriage, and contemporary practices are just a few of the topics explored. Maps and entries on the major cities and places of pilgrimage in India, as well as a concise chronology and a list of principal dynasties, provide a clear overview of the geography, history, languages, and vibrant religious and cultural traditions of Hinduism. This volume will serve as a lively and indispensable guide for those preparing a visit to India, for Indians living in the West, for students, or for anyone interested in the subcontinent. 275 b/w illustrations.

The Visual Dictionary of Graphic Design is a comprehensive guide to the numerous terms used within graphic design and associated disciplines. Over 250 terms are explained and contextualized, with concise definitions accompanied by illustrations and examples taken from historical and contemporary graphic design. The dictionary covers traditional practice and process terms as well as modern terminology. It also defines a wide variety of practical terms, such as Perfect binding, Deboss and Strikethrough, as well as movements and styles including Surrealism, Psychadelia and Postmodernism.

A single-volume, illustrated reference to ancient Egypt features entries for each major archaeological site, the rulers and their dynasties, and key cultural topics, in a guide that includes coverage of specialist terms and processes. By the author of Genesis of the Pharaohs.

The Way We Live Now

International and up to date, this extensively illustrated and copiously cross-referenced dictionary provides information on over 2500 artists, paintings, sculptures, drawings, prints, schools and movements, including essential information on contemporary art and artists, not available elsewhere, and on techniques, materials, terms and writers who have influenced artists. This indispensable sourcebook has now been extensively revised, supplemented and updated with over 200 new entries.

Twenty years in print, The Thames & Hudson Dictionary of Graphic Design and Designers contains around 750 entries offering detailed information on every important graphic designer, movement, agency, practice and publication from 1840 up to the present day. The dictionary gives clear and accessible definitions, from technical minutiae of typography to computer-aided design and printing. Cross-references make navigating between entries simple. The endmatter contains a handy bibliography of key texts and recommended reading, as well as a timeline that puts the most influential individuals, developments and movements in chronological order. This third edition contains over 200 new, updated or expanded entries (as well as 45 new illustrations, 22 in colour) on the latest designers, terms and influences; content that ranges from Adobe InDesign to Manga, and from Chip Kidd to Marian Bantjes. Redesigned and re-typeset throughout, the book remains an indispensable reference tool to all students and practitioners of graphic design.

The landmark photographic survey of the human body at a moment when body image and body politics are being redefined.

Examines men's fashion revealing their sources of inspiration, including works of art, natural and scientific themes, films, and military uniforms.

The Photography Book

Pictorial Dictionary of Ancient Athens

This book attempts to collect into one volume, of manageable size, a cross section of information about the emergence of design as an important expression of modern realities.* Styles, periods, and movements* Designers and design firms* Critics, writers, and educators* Museums, design schools, and organizations

Provides more than 1,200 detailed entries on the life and work of every important designer since 1840, in a reference that covers the fashion media, influential art movements, garment and accessory styles, and more. Original.

A glorious companion volume to Historical Fashion in Detail- The 17th and 18th Centuries and Modern Fashion in Detail, this book captures the opulence and variety of nineteenth-century fashion through an authoritative text, exquisite colour photography and line drawings of the complete garments. From the delicate embroidery on neoclassical gowns to the vibrant colours of crinolines and the elegant tailoring of men's coats, the richness of the period is revealed in breathtaking detail. The garments showcased here, drawn from the V&A Museum's world famous collection, were at the height of fashion in their time. They display a remarkable range of colours, materials and construction details- from the intricate boning on women's corsets to the patterned silk of men's waistcoats. Seen in close-up for the first time and further illuminated by detailed commentary and line drawings that show the ingenuity of the underlying construction, these carefully chosen garments illustrate some of the major themes of nineteenth-century dress.

Leonardo da Vinci is one of the outstanding figures of the Renaissance and of all time.

The Panorama of the Renaissance

Manolo Blahnik

The Visual Dictionary of Graphic Design

A thought-provoking reflection on the practice and history of pilgrimage, and a compelling exploration of its relevance today. Pilgrimage, a global ritual embraced by nearly all faiths, is one of civilization's most enduring traditions. In this compelling book, author and journalist Peter Stanford reflects on the reasons people have walked along the same sacred paths through the ages. Through this history, Stanford explores how the experiences of the first pilgrims to Jerusalem, Mecca, and Santiago de Compostela compare to the millions of people who embark on life-changing physical and spiritual journeys today. Pilgrimage traverses sacred landscapes around the world, from the Basilica of Our Lady of Guadalupe in Mexico City to the monolithic rock-cut churches of Lalibela, Ethiopia and the riverbanks of the Kumbh Mela in India. Stanford explores the historical and spiritual significance of these places of healing and reflection and discusses their roles as crossroads. Although pilgrimage is usually viewed as an individual's escape from the everyday to refocus the mind and soul, institutional and national struggles for power have always had an impact on the way pilgrims experience their own personal journey. Guiding readers through the global history of pilgrimage, this thought-provoking book educates a new generation that may seek solace, clarity, and wonder by following in the footsteps of travelers from the past.

"Girst elegantly unravels the skeins of Duchamp's thinking. . . . An essential compendium for puzzling out an essential artist." —Richard Armstrong, Director of the Solomon R. Guggenheim Museum and Foundation Among the most influential artists of the last hundred years, Marcel Duchamp holds great allure for many contemporary artists worldwide and is largely considered to be one of the founding fathers of modern art. Despite this popularity, books on Duchamp are often hyper-theoretical, rarely presenting the artist in an accessible way. This new book explores the artist's life and work through short, alphabetical dictionary entries that introduce his legacy in a clear and engaging way. From alchemy and anatomy to Warhol and windows, The Duchamp Dictionary offers a pithy and readable text that draws on in-depth scholarship and the very latest research. Thomas Girst includes close to 200 entries on the most interesting and important artworks, relationships, people, and ideas in Duchamp's life—from The Bicycle Wheel and Fountain to Walter and Louise Arensberg, Peggy Guggenheim, Katherine Dreier, and Arturo Schwarz. Delightful, newly commissioned illustrations introduce each letter of the alphabet and accompany select entries, capturing the irreverent spirit of the artist himself.

"Excellent, concise . . . highly recommended." —Choice This extensively illustrated dictionary provides information on over 2,500 artists, paintings, sculptures, drawings, prints, schools and movements throughout the world, including entries on contemporary art and artists, techniques, materials, terms, and writers who have influenced artists.

2,373 entries relating to British and North American wares, decorative techniques, styles, leading designers and makers, principally from c. 1500 to the present.
