The historical roots, key practitioners, and artistic, theoretical, and technological trends in the incorporation of new media into the performing arts. The past decade has seen an extraordinarily intense period of experimentation with computer technology within the performing arts. Digital media has been increasingly incorporated into live theater and dance, and new forms of interactive performance have emerged in participatory installations, on CD-ROM, and on the Web. In Digital Performance, Steve Dixon traces the evolution of these practices, presents detailed accounts of key practitioners and performances, and analyzes the theoretical, artistic, and technological contexts of this form of new media art. Dixon finds precursors to today's digital performances in past forms of theatrical technology that range from the deus ex machina of classical Greek drama to Wagner's Gesamtkunstwerk (concept of the total artwork), and draws parallels between contemporary work and the theories and practices of Constructivism, Dada, Surrealism, Expressionism, Futurism, and multimedia pioneers of the twentieth century. For a theoretical perspective on digital performance, Dixon draws on the work of Philip Auslander, Walter Benjamin, Roland Barthes, Jean Baudrillard, and others. To document and analyze contemporary digital performance practice, Dixon considers changes in the representation of the body, space, and time. He considers virtual bodies, avatars, and digital doubles, as well as performances by artists including Stelarc, Robert Lepage, Merce Cunningham, Laurie Anderson, Blast Theory, and Eduardo Kac. He investigates new media's novel approaches to creating theatrical spectacle, including virtual reality and robot performance work, telematic performances in which remote locations are linked in real time, Webcams, and online drama communities, and considers the "extratemporal" illusion created by some technological theater works. Finally, he defines categories of interactivity, from navigational to participatory and collaborative. Dixon challenges dominant theoretical approaches to digital performance—including what he calls postmodernism's denial of the new—and offers a series of boldly original arguments in their place.

How we can harness cutting-edge biology and manufacturing to fight waste and pollution. In Nature, there is little chemical waste; nearly every atom is a resource to be utilized by organisms, ensuring that all the available matter remains in a perpetual cycle. By contrast, human systems of energy production and manufacturing are linear; the end product is waste. In Brave Green World, Chris Forman and Claire Asher show what our linear systems can learn from the efficient circularity of ecosystems. They offer an unblinkered yet realistic and positive vision of a future in which we can combine biology and manufacturing to solve our central problems of waste and pollution.

Curator Jens Hoffman s Theater of Exhibitions considers the plight of art after the end of art and asks whether inherited frameworks of making, theorizing and exhibiting art still apply to contemporary practice. Are exhibitions still an appropriate form of assembly and embodied ritual in our 21st-century global society? Drawing from his formation in theater and his own curatorial work, Hoffmann reflects on the current spaces of contemporary art the gallery, the institution and the biennial. Ultimately he positions the discipline of curating in the context of a larger cultural sphere one shaped by the political, social and economic conditions and demanding new attitudes and new thinking. The book also considers the commodification of the art industry and the distribution of images in the digital age and posits the exhibition as an anthropological endeavor, with curator as agent

The ideal theater appreciation text for courses focusing on theater elements, "The Theater Experience" encourages students to be active theater-goers as they learn about the fundamentals of a production. By addressing the importance of the audience, Wilson brings the art of performance to life for students who may have little experience with the medium. .

Devising Critically Engaged Theatre with Youth: The Performing Justice Project offers accessible frameworks for devising original theatre, developing critical understandings of racial and gender justice, and supporting youth to imagine, create, and perform possibilities for a more just and equitable society. Working at the intersections of theory and practice, Alrutz and Hoare present their innovative model for devising critically engaged theatre with novice performers. Sharing why and how the Performing Justice Project (PJP) opens dialogue around challenging and necessary topics already facing young people, the authors bring together critical information about racial and gender justice with new and revised practices from applied theatre, storytelling, theatre, and education for social change. Their curated collection of PJP "performance actions" offers embodied and reflective approaches for building ensemble, devising and performing stories, and exploring and analyzing individual and systemic oppression. This work begins to confront oppressive narratives and disrupt patriarchal systems—including white supremacy, racism, sexism, and homophobia. Devising Critically Engaged Theatre with Youth invites artists, teaching artists, educators, and youth-workers to collaborate bravely with young people to imagine and enact racial and gender justice in their lives and communities. Drawing on examples from PJP residencies in juvenile justice settings, high schools, foster care facilities, and community-based organizations, this book offers flexible and responsive ways for considering experiences of racism and sexism and performing visions of justice. Visit performingjusticeproject.org for additional information and documentation of PJP performances with youth.

In the eleventh century Murasaki Shikibu, a lady in the Heian court of Japan, wrote the world's first novel. But The Tale of Genji is no mere artifact. It is, rather, a lively and astonishingly nuanced portrait of a refined society where every dalliance is an act of political consequence, a play of characters whose inner lives are as rich and changeable as those imagined by Proust. Chief of these is "the shining Genji," the son of the emperor and a man whose passionate impulses create great turmoil in his world and very nearly destroy him. This edition, recognized as the finest version in English, contains a dozen chapters from early in the book, carefully chosen by the translator, Edward G. Seidensticker, with an introduction explaining the selection. It is illustrated throughout with woodcuts from a seventeenth-century edition.

Literature's greatest books condensed into 90 minutes.

This book seeks to give insight into the people and processes that create theater. It does not strip away the feeling of magic but to add wonder for the artistry that make a production work well." -- Open Textbook Library.

Grace stays behind, tending to the homefront and the general store that helps keep her small Nova Scotian community running. The war, everyone says, will be over before it starts. But three years later, the fighting rages on and rumours swirl about "wolf packs" of German U-Boats lurking in the deep waters along the shores of East Jeddore, a stone's throw from Grace's window. As the harsh realities of war come closer to home, Grace buries herself in her work at the store. Then, one day, a handsome stranger ventures into the store. He claims to be a trapper come from away, and as Grace gets to know him, she becomes enamoured by his gentle smile and thoughtful ways. But after several weeks, she discovers that Rudi, her mysterious visitor, is not the lonely outsider he appears to be. He is someone else entirely—someone not to be trusted. When a shocking truth about her family forces Grace to question everything she has so strongly believed, she realizes that she and Rudi have more in common than she had thought. And if Grace is to have a chance at love, she must not only choose a side, but take a stand. Come from Away is a mesmerizing story of love, shifting allegiances, and second chances, set against the tumultuous years of the Second World War.*

**Robert Cohen draws on fifty years of acting, directing and teaching experience in order to illustrate how the world's great theatre artists combine collaboration with leadership at all levels, from a production's conception to its final performance. This book challenges the notion that creating brilliant theatrical productions requires tyrannical directors or temperamental designers. Viewing the theatrical production process from the perspectives of the producer, director, playwright, actor, designer, stage manager, dramaturg and crew person, Cohen provides the techniques, exercises and language that promote successful collaborative skills in the theatre. Collaboration is vital to successful theatre making and Working Together in Theatre is the first book to show how leadership and collaboration can be combined to make every theatrical production far greater than the sum of its many parts.**

***The official playscript of the original West End production of Harry Potter and the Cursed Child. It was always difficult being Harry Potter and it isn't much easier now that he is an overworked employee of the Ministry of Magic, a husband, and father of three school-age children. While Harry grapples with a past that refuses to stay where it belongs, his youngest son Albus must struggle with the weight of a family legacy he never wanted. As past and present fuse ominously, both father and son learn the uncomfortable truth: sometimes, darkness comes from unexpected places. The playscript for Harry Potter and the Cursed Child was originally released as a 'special rehearsal edition' alongside the opening of Jack Thorne's play in London's West End in summer 2016. Based on an original story by J.K. Rowling, John Tiffany and Jack Thorne, the play opened to rapturous reviews from theatregoers and critics alike, while the official playscript became an immediate global bestseller. This revised paperback edition updates the 'special rehearsal edition' with the conclusive and final dialogue from the play, which has subtly changed since its rehearsals, as well as a conversation piece between director John Tiffany and writer Jack Thorne, who share stories and insights about reading playscripts. This edition also includes useful background information including the Potter family tree and a timeline of events from the wizarding world prior to the beginning of Harry Potter and the Cursed Child.***

***This study of Egyptian theatre and its narrative construction explores the ways representations of Egypt are created of and within theatrical means, from the 19th century to the present day. Essays address the narratives that structure theatrical, textual, and performative representations and the ways the rewriting process has varied in different contexts and at different times. Drawing on concepts from Theatre and Performance Studies, Translation Studies, Cultural Studies, Postcolonial Studies, and Diaspora Studies, scholars and practitioners from Egypt and the West enter into dialogue with one another, expanding understanding of the different fields. The articles focus on the ways theatre texts and performances change (are rewritten) when crossing borders between different worlds. The concept of rewriting is seen to include translation, transformation, and reconstruction, and the different borders may be cultural and national, between languages and dramaturgies, or borders that are present in people's everyday lives. Essays consider how rewritings and performances cross borders from one culture, nation, country, and language to another. They also study the process of rewriting, the resulting representations of foreign plays on stage, and representations of the Egyptian revolution on stage and in Tahrir Square. This assessment of the relationship between theatre practices, exchanges, and rewritings in Egyptian theatre brings vital coverage to an undervisited area and will be of interest to developments in theatre translation and beyond.***

Rewriting Narratives in Egyptian Theatre

A portrait of three couples successively occupying a suite at the Plaza. A suburban couple take the suite while their house is being painted and it turns out to be the one in which they honeymooned 23 (or was it 24?) years before and was yesterday the anniversary, or is it today? This tale of marriage in tatters is followed by the exploits of a Hollywood producer who, after three marriages, is looking for fresh fields. He calls a childhood sweetheart, now a suburban housewife, for a little sexual diversion. Over the years she has idolized him from afar and is now more than the match he bargained for. The last couple is a mother and father fighting about the best way to get their daughter out of the bathroom and down to the ballroom where guests await her or as Mother yells, "I want you to come out of that bathroom and get married!"--Publisher's description.

King Lear is a tragedy by Shakespeare, written about 1605 or 1606. Shakespeare based it on the legendary King Leir of the Britons, whose story is outlined in Geoffrey of Monmouth's pseudohistorical History of the Kings of Britain (written in about 1136). The play tells the tale of the aged King Lear who is passing on the control of his kingdom to his three daughters. He asks each of them to express their love for him, and the first two, Goneril and Regan do so effusively, saying they love him above all things. But his youngest daughter, Cordelia, is compelled to be truthful and says that she must reserve some love for her future husband. Lear, enraged, cuts her off without any inheritance. The secondary plot deals with the machinations of Edmund, the bastard son of the Earl of Gloucester, who manages to convince his father that his legitimate son Edgar is plotting against him. After Lear steps down from power, he finds that his elder daughters have no real respect or love for him, and treat him and his followers as a nuisance. They allow the raging Lear to wander out into a storm, hoping to be rid of him, and conspire with Edmund to overthrow the Earl of Gloucester. The play is a moving study of the perils of old age and the true meaning of filial love. It ends tragically with the deaths of both Cordelia and Lear—so tragically, in fact, that performances during the Restoration period sometimes substituted a happy ending. In modern times, though, King Lear is performed as written and generally regarded as one of Shakespeare's best plays. This Standard Ebooks edition is based on William George Clark and William Aldis Wright's 1887 Victoria edition, which is taken from the Globe edition. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

Many regard religious experience as the essence of religion, arguing that narratives might be created and rituals invented but that these are always secondary to the original experience itself. However, the concept of "experience" has come under increasing fire from a range of critics and theorists. This Reader presents writings from both those who assume the existence and possible universality of religious experience and those who question the very rhetoric of "experience". Bringing together both classic and contemporary writings, the Reader showcases differing disciplinary approaches to the study of religious experience: philosophy, literary and cultural theory, history, psychology, anthropology; feminist theory; as well as writings from within religious studies. The essays are structured into pairs, with each essay separately introduced with information on its historical and intellectual context. The ultimate aim of the Reader is to enable students to explore religious experience as rhetoric created to authorize social identities. The book will be an invaluable introduction to the key ideas and approaches for students of Religion, as well as Sociology and Anthropology.
