

The W D Gann

To make a success trading in stocks every man should learn everything he can about the stock market and the ways to operate in the market in order to make the greatest success. He should learn to take the smallest risk possible and then try to make the greatest profits possible. The more a man studies and learns the greater success he will have. We quote Proverbs 1: 5- "The wise man will Increase learning." Again, Proverbs 2: 11- "Discretion shall preserve these; understanding shall keep thee. "Proverbs 3: 9- "Give instructions to a wise man and he will become wiser. Teach a just man and he will increase in learning." The "Book of the Lambs" says that the fear of the market is the beginning of

Online Library The W D Gann

knowledge. Many people do not realize that without preparation and knowledge the stock market is dangerous and that it is easier to make losses than it is to make profits. However, the risks in stock speculation or investment are no greater than in any other line of business if you understand and apply the proper rules to speculative trading, and the profits compared to risks are greater than in any other business.

Most people buy a stock because they hope it will go up and they will make profits. They buy on tips, or what someone

Online Library The W D Gann

else thinks, without any concrete knowledge of their own that the stock will advance. Thus they entered the market wrong and did not recognize this mistake or attempt to correct it until too late. Finally they sell because they fear the stock will go lower and often they sell out near low levels, getting out at the wrong time, making two mistakes, getting in the market at the wrong time and getting out at the wrong time. One mistake could have been prevented: they could have gotten out right after getting in wrong. They do not realize that operating in Stocks and Commodities is a business or a profession, the same as engineering or the medical profession.

This course contains one of two of Gann's greatest courses, the Master Time Factor Course. We know he considered it his most important course, by his original 1939 price being

Online Library The W D Gann

\$2,500.00. This course has remained unavailable since the time Gann sold it himself. Included with it are a number of further rare Stock Forecasting Courses which have been almost unknown until this time.

W. D. Gann and his market forecasting methods are legend in the world of stocks and commodities markets. But Gann's objective in writing *The Magic Word* was to show others the way to use and obey God's divine law and thus help them to bring out their latent talents and their God-given powers, for that is the only way they can realize health, happiness, and prosperity. Pattern, Price & Time

A Review Of The Stock Market With Rules And Methods For Selecting Stocks

The W. D. Gann Stock Market Course

W. D. Gann's justly famous work on the trading of commodities. "I am writing this book to supply a

universal demand: and give rules that will forecast the trend of commodities. Conditions have changed rapidly during the last few years and will change more rapidly after this great war is over than ever before in history. Men will return to the soil of Mother Nature to make a living. Investors and speculators will have to look for new ways to make money in the future and will find it more difficult in the stock market; therefore, the necessities of life, the basic commodities, will offer greater opportunities than investments in stocks and bonds, providing the trader knows the rules to follow. "My object is to write something that will be helpful to people in trade

lines and to those who have long years of experience in the commodity market, as well as the inexperienced trader who wants knowledge and needs to learn the ways to start right, and to protect his capital and make profits. Life affords no greater pleasure than that of helping others who are trying to help themselves. "I am going to give the best of my forty years of experience in this book, and I hope to show others the way to help themselves and follow mathematical rules in the commodity market, which will result in profits. I do not believe in gambling or reckless speculation, but am firmly convinced, after years of experience, that if traders

will follow rules and trade on definite indications, that speculation can be made a profitable profession. Trading in commodities is not a gambling business, as some people think, but a practical, safe business when conducted on business principles. "I offer this book to the public with a sincere conviction that if they put in the time studying, they will derive great benefits."

Summary: "The Thirty-Second Jewel gives advanced financial market traders, investors, and analysts the technical analysis skills that evolved over a career by a global leader. This book contains an extensive, long anticipated, major release of W.D. Gann's

methods of Price and Time. Includes detailed information about the Law of Vibration with application. The book contains an analysis of Panics - 1800 to 2050. Other topics include: Global Cash flow, Euclid geometry, Harmonic Cycle Analysis, Pythagorean applications, Advanced Fibonacci, Critical Reasoning and Logic Trees for Decision Analysis. Nothing withheld. (ADVANCED LEVEL)" - provided by the Author/Publisher.

When I wrote TRUTH OF THE STOCK TAPE in 1923, it was because there was a demand for a book of that kind. People needed the help that I could give them and the benefit of my experience and

knowledge. In that book I gave the best I had and received my reward. People appreciated my efforts. They bought the book then and they are still buying it. They say it is a good book and more than worth the money. That is very gratifying to me. After the 1929 bull market culminated there was a demand for a new book to meet changed conditions under the so-called "New Era," so I wrote WALL STREET STOCK SELECTOR in the spring of 1930. I gave freely of my knowledge and the benefit of years of experience. This book helped others to protect their principal and make profits. People who read the book pronounced it one of the best. It is still selling, and

again I have been rewarded. No man can learn all there is to know about forecasting the trend of stocks in 3, 5, 10, or 20 years, but if he is a deep student and hard worker, he learns more and knowledge comes easier after years of experience. I knew more about determining the trend of stocks in 1923 than I did in 1911. Seven more years of experience gave me more knowledge and enabled me to write the WALL STREET STOCK SELECTOR in 1930 and give my readers the benefit of my increased knowledge. Now, after five more years have elapsed, my experience and practical test of new rules have enabled me to learn more of value

since 1930. The 1929-1932 panic and what has followed since, gave me valuable experience and I have gained more knowledge about detecting the right stocks to buy and sell. I cannot lose if I pass this knowledge on to those who will appreciate it. This is an extensive course for the gann trader as well as the investor. W. D. Gann's Stock Trading Course can teach you a number of different trading techniques and skills, such as charting, chart interpretation, how do find natural resistance levels, forecasting trend changes, using Gann Lines (or Gann Angles), seasonal changes for stocks, how to decipher time cycles, the relationship between time

and price, squaring price and time, how to use gann squares & gann calculators and more.

W.D. Gann Interview by Richard D. Wyckoff

Gann's Method

The Magic Word, was the last book W.D.

Gann wrote. The name "W. D. Gann" is known throughout the stocks and commodities markets. However, this particular book has nothing to do with investing! The Magic Word contains Gann's advice on how one can help oneself. In this inspirational masterpiece about the role of the human being in the universe, W. D. Gann uses the Bible to explore the secret to successful living. Through direct teachings from the Bible, you will learn how to understand, obey and apply the universal laws revealed in the Bible in order to bring

about your own latent talents and powers and put you on the road towards health, happiness and prosperity. Gann gives credit to the divine power and by his using the Magic Word, for his good health and success.

During my time studying Gann, I was fortunate to come across an e-book published by the Gann Study Group entitled, W.D. Gann on the Law of Vibration. In this e-book is where I first read a little known Gann article from 1919. In this article, Gann makes some predictions about the German

Kaiser, Wilhelm Hohenzollern, and provides some details as to how he made his predictions. Continued study and work on the contents of the article led to the publication of my first book entitled, W.D. Gann: Divination By Mathematics. In this book, I wrote a chapter on periodicity, which was personally for me, one of my favorites in the book. In that chapter I was able to show how Gann may have derived key periods in the life of the German Kaiser, Wilhelm Hohenzollern. Interestingly, during my continued research, I found another

example in Gann's work that matched the same procedure Gann may have used to derive some of the key periods in the 1919 article. Thus, one of the main goals of this small booklet is to simply share what I found. It has always been my intention to publish additional books to get some of the ideas that I have been contemplating out in the open, but I didn't have enough information on a particular topic to fill a three hundred, two hundred, or even a one hundred page book. With this in mind, I realized that I could publish small booklets

in a series of volumes, each focusing on a different topic to achieve my goal. So this is what you will find in this publication, a small booklet on the topic of periodicity, which is the first volume in a series of volumes on observations I have made with respect to Gann's work. It is my hope that the reader will find something valuable within these pages to further their own research and study.

In this inspirational masterpiece about the role of the human being in the universe, finance trader and author W. D. Gann uses

the Bible to explore the secret to successful living. Through direct teachings from the Bible, the reader may learn how to understand, obey and apply the universal laws revealed in the Bible in order to bring about his own latent talents and powers, and in turn be firmly set on the road towards health, happiness and prosperity.

This text looks at a charting method for futures' traders. It focuses on the methods of W.D. Gann, which are sometimes considered eccentric.

I would like to enlighten you with my view on a few important aspects of trading that a lot of traders have

overlooked. In my opinion, Profitable Trading is about developing ONE edged trading method and repeatedly implements the edged method again and again to reap profit from the market. So It is having a) an in-depth understanding of the implicit structure of the cycle, so that you can develop an edged method and enjoy a trading edge every time you trade in the market & b) a right mindset to implement your edged trading method, and not to trade

any opportunities that you think it will give you a profit, but trade only the ONE edged trading method that you have developed in the past In below, while I will be going thru how my day-to-day trades are being made, I am also going to share some of my trading mindset & twist with you along the way. W. D. Gann's Commodities Trading Course is an extensive course. This course gives you a number of different trading techniques and skills. Which include:

**Shortly after the publication of W.D. Gann:
Divination By Mathematics: Harmonic Analysis,
I came across some material I had not seen
related to the same subject matter. In addition,
there was a connection to Gann, and it seemed
to answer some of the questions I had left off
with in that publication. Thus, one of the goals
of this book is to simply share this additional
information along with the ideas that have
resulted from its investigation. These new ideas
are based on the four factors of Price, Time,**

Volume, and Velocity. Based on the Gann material in the public domain, it appears that various combinations of these factors are referenced as early as 1933. In fact, Gann states that every investor and trader should know the relationship between Time to Price and Volume. In the majority of instances where they are mentioned, the Master Time Factor is mentioned along with them. Since knowledge of the relationship between these factors was deemed important by Gann, the main goal of this book is to explore their relationship to each other, and to define what each of them means in the context of Gann's own words. It is my

hope that the reader will find something valuable within these pages to further their own research and study.

It appears to be a fact that Mr. W. D. Gann has developed an entirely new idea as to the principles governing market movements. He bases his operations upon certain natural laws which, though existing since the world began, have only in recent years been subjected to the will of man and added to the list of so-called modern discoveries. We have asked Mr. Gann for an outline of his work, and have secured some remarkable evidence as to the results obtained there from. W. D. Gann's description

of his experience and methods is given herewith. It should be read with recognition of the established fact that Mr. Gann's predictions have proved correct in a large majority of instances...

While W.D. Gann's works helped pioneer the discipline of technical analysis, they can be challenging to read and implement in the original. Experienced day trader and chartered technical analyst, Hima Reddy, takes her 20+ years experience with translating Gann into the modern markets, distilling Gann's tenets into crystal-clear, bite-sized explanations and illustrating them with exceptionally intuitive

charts and descriptions. With this textbook as a foundation, you'll be ready to delve more deeply into Gann, identifying even greater opportunities for profit.

Dr. Gann gives a thorough explanation of investment rules in this book for new and seasoned investors alike. Read this over and over until they become clear and fluid practices in your everyday portfolio management. This is the only eBook you will find that includes all the original charts and tables.

that turning points can be found and accurate price projections made. In all markets and all time frames. The rules are fully automatic. Filled with over 70 charts showing the method in use.

This book explains how & what:1) WD Gann defined a change in trend2) WD Gann meant by "sections"3) WD Gann told the definite confirmation of change of trend4) WD Gann meant by "price ahead time"5) WD Gann referred to on the market actions along with its 45 degree angle6) the above WD Gann

terms are related to one another7) WD Gann meant by "squaring time with top or extreme high price"8) WD Gann referred as safe selling pointsin a) today's language and with b) examples in today's marketHowever, this book is not only targeted for beginners, but it is also a guidebook for experienced WD Gann students on how to study WD Gann properly; and this guidebook will force you to re-think what WD Gann is really about and you should have some new inspirations because of this book. It gives you a correct starting point to

study WD Gann, a path guided from an insider. It also describes how the explained WD Gann trading method has helped the author to pocket 2,000+ pips in euro in 2002-2006.

This collection contains several of WD Gann's rarest and most important writings which equally apply to both stock, commodity or Forex markets. First is his most highly sought after course, The Mathematical Formula for Market Predictions, was written later in his career, after 52 years of trading and market

experience. This course was lost for 50 years until initially republished here in our collection It provides a mathematical and geometrical techniques for determining and forecasting market structures at the most advanced level. This course uses mathematical overlays, which originally were originally see-through plastic schematics which were overlaid on his hand drawn charts. We make available digital copies of his 4 transparent overlay calculators which can be downloaded by owners of this

collection, to be studied and used on electronic charts. To accompany this important set of courses, we have also gathered up all of Gann's most important writings on angles, resistance levels, geometry and mathematical tools, creating a comprehensive collection of Gann's most powerful geometrical tools. Finally we have included an enhanced set of his Master Charts.

This collection contains some of WD Gann's most rare writings, those on financial

astrology. Many people speculate and argue about just how key astrological work was to Gann's full system, as there is very little direct evidence or outright explanation of how he used astrology. Most of his references were contained in his coded book The Tunnel Thru the Air, and aside from that book, there is nothing but a handful of references where he directly discusses astrological techniques and tools in his work. This collection contains everything known from Gann's work where he presents

astrological ideas, charts, tools or letters of any kind. First is an early course from 1921, the first place he mentions a planetary correlation with his time cycles. Next is an interesting piece on the Human Body which contains astrological correlations and symbolism connected to Time Cycles. We then include some letters to students where he quite openly discusses some of his techniques related to astrology. Finally, there is a set of charts with clear planetary elements, applications and tools. This is an

important course which reveals some of the great WD Gann's most secret teachings."

Wall Street trader and author W. D. Gann ' s third book, first published in 1930, is the follow-up to his acclaimed 1923 publication Truth of the Stock Tape (1923). It aims to provide traders and investors alike with seven more years of Gann ' s own experiences—including mistakes made and losses incurred—by offering further tried and tested rules and methods that will help traders to study and learn how to select the proper stocks to buy and sell with a minimum of risk.

This course was designed to simplify and clarify Gann's books and his stock and commodity market courses. The Gann student who has encountered difficulties in understanding his methods elsewhere will find this course to be of help in mastering Gann's methods. It consists of a 155 page hardbound book and over 60 sample charts and overlays. Covers: -- Geometric Charts -- Angles and Price Squares -- The

Online Library The W D Gann

Psychology of Trading -- Decade-long Trading Plan -- Applying the Concepts -- The Cycle of the Years -- How Markets Move -- The Square of Nine.

In this book, the author analyzes a little known article that W.D. Gann wrote for the Milwaukee Sentinel in 1919. Most, if not all of the material on Gann and his techniques are based on some type of astrological interpretation. In this work, you will see that astrology was not the main factor that allowed Gann to make his amazing and pinpoint accurate forecasts. It focuses on another well known aspect of Gann's work, which is based on the numerology of the name. In the 1919 article, Gann makes predictions about the German Kaiser, Wilhelm Hohenzollern, based solely on the numbers associated with his name. Although Gann never outwardly mentions a specific numerology system that he may have utilized, the author provides

Online Library The W D Gann

evidence linking the divinations performed in this article to a specific system as it relates to character analysis. In addition to character analysis, Gann forecasts future periods where he expects critical events to take place in the upcoming year for Wilhelm Hohenzollern. With respect to these forecasts, the author analyzes the periods mentioned in relationship to the method of forecasting taught in the numerology system, and in relationship to another aspect of Gann's work, which is based on cycles. This is done to show how Gann may have calculated these future periods, which also involves a discussion of the periodic law or law of octaves. Last but not least, there is an analysis of the method employed by Gann to calculate the "key number" for an individual, which is said to govern that person throughout their entire life. As the article implies, this is the whole secret behind Mr. Gann's discovery.

Trading for a Living Successful trading is based on three M's: Mind, Method, and Money. Trading for a Living helps you master all of those three areas: * How to become a cool, calm, and collected trader * How to profit from reading the behavior of the market crowd * How to use a computer to find good trades * How to develop a powerful trading system * How to find the trades with the best odds of success * How to find entry and exit points, set stops, and take profits Trading for a Living helps you discipline your Mind, shows you the Methods for trading the markets, and shows you how to manage Money in your trading accounts so that no string of losses can kick you out of the game. To help you profit even more from the ideas in Trading for a Living, look for the companion volume--Study Guide for Trading for a Living. It asks over 200 multiple-choice questions, with answers and 11 rating scales for sharpening your trading skills. For example:

Online Library The W D Gann

Question Markets rise when * there are more buyers than sellers * buyers are more aggressive than sellers * sellers are afraid and demand a premium * more shares or contracts are bought than sold * I and II * II and III * II and IV * III and IV Answer B. II and III. Every change in price reflects what happens in the battle between bulls and bears. Markets rise when bulls feel more strongly than bears. They rally when buyers are confident and sellers demand a premium for participating in the game that is going against them. There is a buyer and a seller behind every transaction. The number of stocks or futures bought and sold is equal by definition.

interesting piece on the Human Body which contains astrological correlations and symbolism connected to Time Cycles. We then include some letters to students where he quite openly discusses some of his techniques related to astrology. Finally, there is a set of charts with clear planetary elements, applications and tools. This is an important course which reveals some of the great WD Gann's most secret teachings.

This book explains w.d. gann concept with 34 intraday trade techniques.

In reading and studying Gann's novel, The Tunnel Thru the Air or Looking Back From 1940, a certain set of passages had always grabbed the author's attention and he wondered what Mr. Gann may have been referring to. This book is a result of his investigations concerning these passages, which concerns itself with what Gann calls

Online Library The W D Gann

in his novel, the Law of Harmonic Analysis. In the author's previous work, W.D. Gann: Divination By Mathematics, published in June of 2013, he pointed out that Astrology was not the main factor that Gann utilized to forecast future events. Even Gann said that in the 1919 Milwaukee Sentinel article which is analyzed in that book. In the article, Gann uses the science of letters and numbers to make predictions regarding the German Kaiser, Wilhelm Hohenzollern. In the analysis of that article, the author showed how Gann may have used cycles and geometry to forecast the specific dates and periods mentioned. In this second book, the author continues with the mathematical aspect of Gann's work, the foundation of which, is based on a couple of passages within Gann's novel, The Tunnel Thru the Air. The author shows us that Gann was indeed trying to tell us something valuable in these passages, and this book outlines the

Online Library The W D Gann

author's research & investigation into what he believes Gann was talking about, and the application of those findings. You will learn how to apply the mathematics being presented, which is explained in simple terms for the non-mathematician. Gann was consistent in saying that mathematics was the basis of his forecasting methods. The material presented in this book is consistent with what Gann has always said. It is the hope and desire of the author that this work will inspire others to continue research into Gann's work along these lines. Even Gann said that Astrology failed, that something else had to be added into the equation.

W.D. Gann's works helped to pioneer the discipline of technical analysis, and they still offer immense potential value to investors and traders. However, Gann's original publications are esoteric and can be challenging to read and use. In this book, long-time trader and expert

Online Library The W D Gann

technical analyst Hima Reddy brings these works to life for modern traders and investors. She distills Gann's tenets into crystal-clear, bite-size explanations, and illuminates them with exceptionally intuitive charts and illustrations. Drawing on extensive personal experience, Reddy explains how Gann's insights into price, pattern and time can be applied in all types of markets and market conditions. Using this book, any experienced trader can discover the value of Gann's approach, and start utilizing it in his or her own trades. Then, with Reddy's discussion as a foundation, traders and investors can delve even more deeply into all of Gann's works, identifying even greater opportunities for profit.
