

The Wars Of The Roses The Fall Of The Plantagenets And The Rise Of The Tudors

The author of the New York Times bestseller The Plantagenets and The Templars chronicles the next chapter in British history—the historical backdrop for Game of Thrones The inspiration for the Channel 5 series Britain's Bloody Crown The crown of England changed hands five times over the course of the fifteenth century, as two branches of the Plantagenet dynasty fought to the death for the right to rule. In this riveting follow-up to The Plantagenets, celebrated historian Dan Jones describes how the longest-reigning British royal family tore itself apart until it was finally replaced by the Tudors. Some of the greatest heroes and villains of history were thrown together in these turbulent times, from Joan of Arc to Henry V, whose victory at Agincourt marked the high point of the medieval monarchy, and Richard III, who murdered his own nephews in a desperate bid to secure his stolen crown. This was a period when headstrong queens and consorts seized power and bent men to their will. With vivid descriptions of the battles of Towton and Bosworth, where the last Plantagenet king was slain, this dramatic narrative history revels in bedlam and intrigue. It also offers a long-overdue corrective to Tudor propaganda, dismantling their self-serving account of what they called the Wars of the Roses. The first book in #1 New York Times bestselling author Conn Iggulden’s brilliant new historical series about two families that plunged England into a devastating, decades-long civil war. In 1437, the Lancaster king Henry VI ascends the throne of England after years of semi-peaceful regency. Named “The Lamb,” Henry is famed more for his gentle and pious nature than his father’s famous battlefield exploits; already, his dependence on his closest men has stirred whispers of weakness at court. A secret truce negotiated with France to trade British territories for a royal bride—Margaret of Anjou—sparks revolts across English territory. The rival royal line, the House of York, sees the chaos brought on by Henry’s weakness and with it the opportunity to oust an ineffectual king. As storm clouds gather over England, King Henry and his supporters find themselves besieged abroad and at home. Who or what can save the kingdom before it is too late? “It’s been said that Game of Thrones is the Wars of the Roses written as fantasy: this is the real thing, more glorious [and] more passionate.”—M. C. Scott, author of Rome: The Emperor’s Spy “Capturing the violence and romance of medieval life, Iggulden makes real those grand characters who live in the collective memory.”—Kirkus Reviews “Great pacing, fascinating people, and vibrant descriptions make this a must read!”—Historical Novel Review A concise and entertaining study of the vicious wars between the English noble houses of York and Lancaster during the 15th century. The vicious wars between the English noble houses of York and Lancaster marked the end of medieval England and the birth of the Renaissance. The end of that thirty-year period of strife and bloodshed saw the collapse of the great Plantagenet dynasty, rulers of all England and much of France for over three hundred years, and the rise of the Tudors. All the characters are here: Henry V and his luckless son, Henry VI, together with his unfortunate uncles, John of Bedford and Humphrey of Gloucester, not to mention the notorious Richard III and his nephews - The Princes in the Tower. Neillands skilfully tackles this complex period providing a clear and entertaining analysis.

Wars of the Roses: Stormbird

Encyclopedia of the Wars of the Roses

In 1437, after years of regency, the pious and gentle Henry VI, the Lamb, comes of age and accedes to the English throne. His poor health and frailty of mind render him a weakling king - Henry depends on his closest men. Spymaster Derry Brewer and William de la Pole, Duke of Suffolk, to run his kingdom. Yet there are those, such as the Plantagenet Richard, Duke of York, who believe England must be led by a strong king if she is to survive. With England's territories in France under threat, and rumours of revolt at home, fears grow that Henry and his advisers will see the country slide into ruin. With a secret deal struck for Henry to marry a young French noblewoman, Margaret of Anjou, those fears become all too real. As storm clouds gather over England, King Henry and his supporters find themselves besieged abroad and at home. Who, or what can save the kingdom before it is too late? The dynastic struggles of the Wars of the Roses (1455-85) have traditionally been portrayed as belonging to one of the most dramatic periods in the history of England, an age of murder and melodrama. In this classic history of the wars, charting their origins, progress, conclusions and effects, Professor Lander sets the record straight. By putting the wars into their contemporary context, using the written records of the time (many of which are reproduced in the text) and the results of modern research and scholarship, the true picture emerges. The wars were, in fact, very limited. While not denying that contemporary English society was disorderly and violent, Lander suggests that this state of affairs was due far less to civil war than to habits of violence among all classes of society. Fluently and clearly written "The Wars of the Roses" is the perfect overview of one of the most famous of medieval conflicts.

Shedding light, as it does, on fifteenth-century history as a whole, the roots of the Tudor dynasty, and the background to Shakespeare's history plays, this book deserves a place on the bookshelf of anyone interested in this most turbulent period.

This book is also available as part of the Men-at-Arms series as no. 145:'Wars of the Roses'. Much myth and fantasy surrounds the events of the Wars of the Roses: a bloody and prolonged dynastic struggle between the houses of York and Lancaster. Terence Wise's fascinating text lays bare the real story, and examines the armies, liveries and badges of the conflict. The author's readable account provides a comprehensive guide as to who fought whom, where, when, why and for what, from the origins of the Wars to such famous battles as Tewkesbury and Bosworth. The accompanying photographs, illustrations and colour plates by Gerry Embleton clearly detail the arms, armour and standards of the time.

"The Wars of the Roses were a series of dynastic wars fought between supporters of two rival branches of the royal House of Plantagenet: the houses of Lancaster and York (whose heraldic symbols were the red and the white rose, respectively) for the throne of England. They were fought in several sporadic episodes between 1455 and 1485, although there was related fighting both before and after this period. They resulted from the social and financial troubles following the Hundred Years' War. The final victory went to a relatively remote Lancastrian claimant, Henry Tudor, who defeated the last Yorkist king Richard III and married Edward IV's daughter Elizabeth of York to unite the two houses. The House of Tudor subsequently ruled England and Wales for 117 years."--Wikipedia.

A Short History of the Wars of the Roses

Peace and Conflict in 15th Century England

This authoritative A-Z encyclopedia of the Wars of the Roses provides accurate and concise descriptions of the major battles and events and the principal historical figures and issues involved. * More than 275 entries and over 40 illustrations * A map of the Wars of the Roses battle sites * Guide to related topics, chronology, and genealogies * Table showing the involvement of the higher peeraage in the Wars of the Roses * List of Popes and English church leaders in the 15th century * List of selected websites for 15th century topics

First published in 1990. Routledge is an imprint of Taylor & Francis, an informa company.

It was the period when the French beat the English and the English fought among themselves. Traditional historians have glossed over it, considering it the time that wrecked Britain's military greatness. But Gillingham elegantly separates myth from reality, arguing that, paradoxically, the wars actually proved how peaceful the country was. His gifted graphic description makes this exciting and dramatic throughout. “Incisively written and highly readable.”—Sunday Times. “Gillingham informs us...with such verve, with and intelligence that we are left dazzled and delighted.”—History.

It was no small act of heroism to which the boy made up his mind in those few moments. Those were lawless days, and human life was held very cheap. The band of fierce men who had believed they were carrying off a prince, would think nothing of running him through with their swords when they discovered how they had been tricked, and that by a mere child. Paul set his teeth hard and braced himself up for the task he had set himself. He knew his peril he realized it too; but he was a soldier's son, and had he not said he would live and die for the prince? Would he ever be worthy of the knighthood every lad looked forward to as the goal of his ambition, if he shrank now from the task he had set himself? Hardly had that resolution been taken before there sprang out from the thick underwood two or three fierce-looking men, armed to the teeth.

The Wars of the Roses, 1377-1471

Edward IV and the Wars of the Roses

From Wakefield to Towton

Military Activity and English Society, 1452-97

Indisputably the most effective general of the Wars of the Roses, Edward IV died in his bed, undefeated in battle. Yet Edward has not achieved the martial reputation of other warrior kings such as Henry V - perhaps because he fought battles against his own people in a civil war. It has also been suggested that he lacked the personal discipline expected of a truly great commander. But, as David Santiuste shows in this perceptive and highly readable new study, Edward was a formidable military leader whose strengths and subtly have not been fully recognized. This reassessment of Edward's military role, and of the Wars of the Roses in which he played such a vital part, gives a fascinating insight into Edward the man and into the polttics and the fighting. Based on contemporary sources and the latest scholarly research, Edward IV and the Wars of the Roses brings to life an extraordinary period of English history.

The brilliant retelling of the Wars of the Roses continues with Trinity, the second gripping novel in the new series from historical fiction master, Conn Iggulden. 1454: King Henry VI has remained all but exiled in Windsor Castle, struck down by his illness for over a year, his eyes vacant, his mind a blank. His fiercely loyal wife and Queen, Margaret of Anjou, safeguards her husband's interests, hoping that her son Edward will one day know the love of his father. Richard Duke of York, Protector of the Realm, extends his influence throughout the kingdom with each month that Henry slumbers. The Earls of Salisbury and Warwick make up a formidable trinity with Richard, and together they seek to break the support of those who would raise their colours in the name of Henry and his Queen. But when the King unexpectedly recovers his senses and returns to London to reclaim his throne, the balance of power is once again thrown into turmoil. The clash of the Houses of Lancaster and York will surely mean a war to tear England apart ... Following on from Stormbird, Trinity is the second epic instalment in master storyteller Conn Iggulden's new Wars of the Roses series. Fans of Game of Thrones and The Tudors will be gripped from the word go. Praise for Stormbird: "Pacey and juicy, and packed with action". (Sunday Times). "Energetic, competent stuff; Iggulden knows his material and his audience". (Independent). "A novel that seamlessly combines narrative, historical credence and great knowledge of the period". (Daily Express). "A page-turning thriller". (Mail on Sunday). "Superbly plotted and paced". (The Times). Conn Iggulden is one of the most successful authors of historical fiction writing today. Following on from Stormbird, the Sunday Times best-seller, Trinity is the second book in his superb new series set during the Wars of the Roses, a remarkable period of British history. His previous two series, on Julius Caesar and on the Mongol Khans of Central Asia, describe the founding of the greatest empires of their day and were number one bestsellers. Conn Iggulden lives in Hertfordshire with his wife and children.

The author of Powers and Thrones and presenter of Netflix's Secrets of Great British Castles offers a vivid account of the events that inspired Game of Thrones and Shakespeare's Henry IV and Richard III Discover the real history behind The Hollow Crown: The Wars of the Roses, the PBS Great Performance series of Shakespeare's plays, starring Judi Dench, Benedict Cumberbatch, Sofie Okenedo and Hugh Bonneville. The crown of England changed hands five times over the course of the fifteenth century, as two branches of the Plantagenet dynasty fought to the death for the right to rule. In this riveting follow-up to The Plantagenets, celebrated historian Dan Jones describes how the longest-reigning British royal family tore itself apart until it was finally replaced by the Tudors. Some of the greatest heroes and villains of history were thrown together in these turbulent times, from Joan of Arc and Henry V, whose victory at Agincourt marked the high point of the medieval monarchy, to Richard III, who murdered his own nephews in a desperate bid to secure his stolen crown. It also offers a long-overdue corrective to Tudor propaganda, dismantling their self-serving account of what they called the Wars of the Roses. "If you're a fan of Game of Thrones or The Tudors then Dan Jones' swashbucklingly entertaining slice of medieval history will be right up your alley... Every bit as entertaining and readable as his previous blockbuster The Plantagenets." – Daily Express

The Wars of the Roses (c. 1455-1487) are renowned as an inamously savage and tangled slice of English history. A bloody thirty-year struggle between the dynastic houses of Lancaster and York, they embraced localised vendetta (such as the bitter northern feud between the Percies and Nevilles) as well as the formal clash of royalist and rebel armies at St Albans, Ludford Bridge, Mortimer's Cross, Towton, Tewkesbury and finally Bosworth, when the usurping Yorkist king, Richard III, was crushed by Henry Tudor. Powerful personalities dominate the period: the charismatic and enigmatic Richard III, immortalized by Shakespeare; the slippery Warwick, the Kingmaker", who finally over-reached ambition to be cut down at the Battle of Barnet; and guileful women like Elizabeth Woodville and Margaret of Anjou, who for a time ruled the kingdom in her husband's stead. David Grummitt places the violent events of this complex time in the wider context of fifteenth-century kingship and the development of English political culture.Never losing sight of the traumatic impact of war on the lives of those who either fought in or were touched by battle, this captivating new history will make compelling reading for students of the late medieval period and Tudor England, as well as for general readers.

Lancaster and York

Wars of the Roses

Henry VI, Margaret of Anjou and the Wars of the Roses

The Hollow Crown

Part of a series of evidence-based history books, covering central themes in the curriculum for the 11-16 age group, this book covers the Wars of the Roses.

This is the first modern scholarly study of north-eastern England during the Wars of the Roses. For a fleeting period in the late fifteenth century, the North dominated England: it was both the adopted home and the power base of Richard III. But this is more than simply an account of the rise and fall of the last Plantagenet as the Lord of the North. A. J. Pollard analyses regional politics and the interrelationship between province and centre from the beginningof the Neville-Percy feud in the 1450s to the establishment of Tudor authority by 1500. Themes explored include Anglo-Scottish relations, local government, the structure of landed society, the wealth, power, and the outlook of lords and gentry, and the economy of the region.Dr Pollard sets political history in the context of the period, and paints a detailed portrait of lay society, based on intensive research among local records. He shows that, contrary to some recent views, the North-East was in certain significant respects more feudal, more conservative and, by the early sixteenth century, poorer than the South-East of England.

Recounts the origins of the quarrel within the English royal family called the Wars of the Roses, the rise and fall and rise again of Lancaster and York, the deaths of the Princes in the Tower, and how Henry Tudor became king, and discusses the effect ofthe war on English history

The brilliant retelling of the Wars of the Roses continues with Bloodline, the gripping third novel in the new series from historical fiction master Conn Iggulden. Winter 1461: Richard, duke of York, is dead—his ambitions in ruins, his head spiked on the walls of the city. King Henry VI is still held prisoner. His Lancastrian queen, Margaret of Anjou, rides south with an army of victorious northerners, accompanied by painted warriors from the Scottish Highlands. With the death of York, Margaret and her army seem unstoppable. Yet in killing the father, Margaret has unleashed the sons. Edward of March, now duke of York, proclaims himself England’s rightful king. Factions form and tear apart as snow falls. Through blood and treason, through broken men and vengeful women, brother shall confront brother, king shall face king. Two men can always claim a crown—but only one can keep it. Following Margaret of Anjou, Bloodline is the third epic installment in master storyteller Conn Iggulden’s new Wars of the Roses series. Fans of the Game of Thrones and the Tudors series will be gripped from the word “go.”

Wars of the Roses: Bloodline

North-eastern England During the Wars of Roses

The Fall of the Plantagenets and the Rise of the Tudors

Each of these lavishly illustrated books serves up a brief and manageable portion of the Fraser-edited and much-touted Lives of the Kings and Queens of England. A set of six jewels for Fraser's crown.

Lancaster and York. For much of the fifteenth century, these two families were locked in battle for control of the British monarchy. Kings were murdered and deposed. Armies marched on London. Old noble names were ruined while rising dynasties seized power and lands.

The war between the royal House of Lancaster and York, the longest and most complex in British history, profoundly altered the course of the monarchy. In The Wars of the Roses, Alison Weir reconstructs this conflict with the same dramatic flair and impeccable research that she brought to her highly praised The Princes in the Tower. The first battle erupted in 1455, but the roots of the conflict reached back to the dawn of the fifteenth century, when the corrupt, hedonistic Richard II was sadistically murdered, and Henry IV, the first Lancastrian king, seized England's throne. Both Henry IV and his son, the cold warrior Henry V, ruled England ably, if not always wisely—but Henry VI proved a disaster, both for his dynasty and his kingdom. Only nine months old when his father's sudden death made him king, Henry VI became a tormented and pathetic figure, weak, sexually inept, and prey to fits of insanity. The factional fighting that plagued his reign escalated into bloody war when Richard Plantagenet, Duke of York, laid claim to the throne that was rightfully his—and backed up his claim with armed might. Alison Weir brings brilliantly to life both the war itself and the historic figures who fought it on the great stage of England. Here are the queens who changed history through their actions--the chic, unconventional Katherine of Valois, Henry V's queen; the ruthless, social-climbing Elizabeth Wydville; and, most crucially, Margaret of Anjou, a far tougher and more powerful character than her husband., Henry VI, and a central figure in the Wars of the Roses. Here, too, are the nobles who carried the conflict down through the generations--the Beauforts, the bastard descendants of John of Gaunt, Richard Neville, Earl of Warwick, known to his contemporaries as "the Kingmaker"; and the Yorkist King, Edward IV, a ruthless charmer who pledged his life to cause the downfall of the House of Lancaster. The Wars of the Roses is history at its very best--swift and compelling, rich in character, pageantry, and drama, and vivid in its re-creation of an astonishing, dangerous, and often grim period of history. Alison Weir, one of the foremost authorities on the British royal family, demonstrates here that she is also one of the most dazzling stylists writing history today.

A riveting account of the Wars of the Roses, focusing on the human side of the story. The war between the houses of Lancaster and York for the throne of England was characterized by treachery, deceit and, at St. Albans, Blore Hill and Towton, some of the bloodiest and most dramatic battles on England ’ s soil. Between 1455 and 1487, the royal coffers were bankrupted and the conflict resulted in the downfall of the House of Lancaster and the House of York, and the emergence of the illustrious Tudor dynasty. Alison Weir ’ s lucid and gripping account focuses on the human side of history, on the people and personalities involved in the conflict. At the centre of the book stands Henry VI, the pious king whose mental instability led to political chaos; Richard Plantagenet, Duke of York and Henry ’ s rival; and most important of all, Margaret of Anjou, Henry ’ s wife who took up arms in her husband ’ s cause and battled for many years in a violent man ’ s world.

Explores the events of the Wars of the Roses through the eyes of the key players. Discover the personalities behind the fight for the throne.

England's First Civil War

The Wars of the Roses

Stormbird

1455–1485

THE WARS OF THE ROSES is the definitive account of one of the bloodiest episodes in British history - wars between the houses of York and Lancaster. Trevor Royle provides a military history of the Wars while placing the conflict in the context of the time. This was a period with a rich legacy: William Caxton introduced the art of printing; there was a growing body of literature, such as Chaucer, in the English tongue; architecture flourished and great educational institutions were born such as Winchester School and King's College, Cambridge.

The brilliant retelling of the Wars of the Roses continues with Margaret of Anjou, the second gripping novel in the new series from historical fiction master Conn Iggulden. As traitors advance . . . a queen defends. It is 1454 and for more than a year King Henry VI has remained all but exiled in Windsor Castle, struck down by his illness, his eyes vacant, his mind blank. His fiercely loyal wife and queen, Margaret of Anjou, safeguards her husband's interests, hoping that her son Edward will one day come to know his father. With each month that Henry is all but absent as king, Richard, the duke of York, protector of the realm, extends his influence throughout the kingdom. A trinity of nobles--York and Salisbury and Warwick--are a formidable trio and together they seek to break the support of those who would raise their colors and their armies in the name of Henry and his queen. But when the king unexpectedly recovers his senses and returns London to reclaim his throne, the balance of power is once again thrown into turmoil. The clash of the Houses of Lancaster and York may be the beginning of a war that could tear England apart . . . Following Stormbird, Margaret of Anjou is the second epic installment in master storyteller Conn Iggulden's new Wars of the Roses series. Fans of the Game of Thrones and the Tudors series will be gripped from the word "go."

The Wars of the Roses is one of the most dramatic and fascinating periods in medieval history. Much has been written about the leading personalities, bitter dynastic rivalries, political intrigues, and the rapid change of fortune on the battlefields of England and Wales. However, there is one aspect that has been often overlooked, the role of castles in the conflict.Dan Spencer's original study traces their use from the outbreak of civil war in the reign of Henry VI in the 1450s to the triumph of Henry VII some thirty years later. Using a wide range of narrative, architectural, financial and administrative sources, he sheds new light on the place of castles within the conflict, demonstrating their importance as strategic and logistical centres, bases for marshalling troops, and as fortressesDan Spencer's book provides a fascinating contribution to the literature on the Wars of the Roses and to the study of siege warfare in the Middle Ages. The Wars of the Roses was a complicated, bloody affair between the houses of Lancaster and York, and witnessed much changing of sides. That disjointed feuding persisted for a staggering thirty years and was a north versus south affair

However, the period and conflicts covered by this title are refreshingly clear. An intriguing tale of treachery and deceit.

In the Wars of the Roses

Lancastrians and Yorkists

Wars of the Roses: Margaret of Anjou

Wars of the Roses: Trinity

John Ashdown-Hill, whose research was instrumental in the discovery of Richard III's remains, offers a meticulous and engaging insight into the famous Wars of the Roses.

The Wars of the Roses (1455–85) were a major turning point in English history. But the underlying causes for the successive upheavals have been hotly contested by historians ever since. In this original and stimulating new synthesis, distinguished historian Michael Hicks examines the difficult economic, military, and financial crises and explains, for the first time, the real reasons why the Wars of the Roses began, why they kept recurring, and why, eventually, they ceased. Alongside fresh assessments of key personalities, Hicks sheds new light on the significance of the involvement of the people in politics, the intervention of foreign powers in English affairs, and a fifteenth-century credit crunch. Combining a meticulous dissection of competing dynamics with a clear account of the course of events, this is a definitive and indispensable history of a compelling, complex period.

The fifteenth century experienced the longest and bloodiest series of civil wars in British history. The crown of England changed hands violently five times as the great families of England fought to the death for the right to rule. Some of the greatest heroes and villains in history were thrown together in these chaotic years. Yet efforts were made to maintain some semblance of peace and order, as chivalry was reborn, the printing press arrived, and the Renaissance began to flourish. Following on from Dan Jones's bestselling *The Plantagenets*, *The Hollow Crown* is a vivid and engrossing history of these turbulent times.

In this new edition of *The Wars of the Roses*, A.J. Pollard has incorporated new research and consideration of the debates which have emerged from the first edition.

The Wars of the Roses and the Rise of the Tudors

The Key Players in the Struggle for Supremacy

The Castle in the Wars of the Roses

The final volume in a trilogy of historical source books covering 1450–1485, this work focuses on the reign of Henry VI, whose manifest shortcomings provided a pretext for the start of the Wars of the Roses in the 1450s. The Wars have been viewed as a dynastic struggle, but more recently such interpretation has been rejected. A vigorous debate has flourished concerning the origins and nature of the Wars and this volume offers a framework for interpretation and a selection of passages from contemporary sources. The aim is for readers to appreciate just why the rule of Henry VI brought about the outbreak of the Wars of the Roses, what the struggles were like and how they culminated in the end of the House of Lancaster.

"Westeros is probably closer to medieval Britain than anything else." George R.R. Martin, creator of Game of Thrones Kings who were insane, infant or imprisoned; feuding families, disputed successions and monarchs executing their brothers; exiled nobles, war with France and enemies forced to unite against a common foe – the history of the Wars of the Roses is so filled with drama that it feels like fiction. In fact, it has inspired fiction. As Game of Thrones author George R.R. Martin said: "I've drawn on many parts of history, but the Wars of the Roses is probably the one A Song Of Ice and Fire is closest to." Telling the story of the fifteenth century wars between Lancastrians and Yorkists, The Wars of the Roses follows the course of the conflict from the succession of infant King Henry VI right through to the defeat of rebellions under Henry VII. Its protagonists were twisted by their conflicting loyalties of blood, marriage and, above all, ambition. From mad Henry VI captured in battle to the mystery of the 'Princes in the Tower' and the truth behind Richard III's deformity, the book is a lively account of more than 30 tumultuous years. Illustrated with more than 200 colour and black-and-white photographs, artworks and maps, The Wars of the Roses reveals the scheming and betrayal, the skullduggery and murder behind the struggle to gain power – and then hold on to it.

Frequently remembered only as a period of military history which both saw the French beat the English and then the English fight amongst themselves, traditional historians have tended to regard The Wars of the Roses as an episode that wrecked England's military greatness. John Gillingham's highly readable history separates the myth from the reality. He argues that, paradoxically, the Wars of the Roses demonstrate how peaceful England in fact was. From the accession of the infant Henry VI to the thrones of England and France in 1422 to the accession of Henry VII following the Battle of Bosworth in 1485, Gillingham uses his gift for graphic description (particularly with his exciting account of the 1471 campaign) to great effect. He is also good at placing the warfare within its European context, especially in showing the problems encountered in conducting a civil war within a normally peaceful country. The Wars of the Roses is an irresistible account of a fascinating period of history that makes available to a much wider audience the work of historians of recent decades. Praise for John Gillingham 'Incisively written and highly readable' – Sunday Times John Gillingham is Emeritus Professor of Medieval History at the London School of Economics and Political Science. On 19 July 2007 he was elected into the Fellowship of the British Academy. He is renowned as an expert on the Angevin empire. His other titles include Oliver Cromwell: Portrait of a Soldier. 'Iggulden is in a class of his own when it comes to epic historical fiction' Daily Mirror Conn Iggulden's Wars of the Roses Ebook Bundle contain the following: Trinity Stormbird Bloodline Ravenspur

The Wars of the Roses raged from 1455 to 1485 - the longest period of civil war in English history. They barely affected the daily routine of the civilian population, yet for the leaders of the opposing houses of York and Lancaster, the wars were devastating. First hand accounts reveal how the lives of their women and children were blighted during three decades of war, as many of their male relatives met with violent deaths. This book examines in detail the causes, course and results of each of the main wars and concludes with a fascinating insight into why the wars ended so abruptly.

This book presents a truly coherent account of the Wars of the Roses.
