

The Whale Road The Oathsworn Series Book 1

Set in the late Sixth century Saxon Dawn shows the last flames of resistance to the Anglo-Saxon invaders. King Arthur and the last of the Romans are gone but King Urien fights on. When three orphans join his warriors then the tide begins to turn and, despite, overwhelming odds they begin to turn the tide. Based on the history of the period Saxon Dawn is a fast moving story with graphic battles scenes as well as complex characters and devious plot twists.

"STIRLING HAS SURPASSED HIS PREVIOUS WORK," raved Science Fiction Chronicle of his bestselling novel *Island in the Sea of Time*, and George R. R. Martin hailed it as "an utterly engaging account of what happens when the isle of Nantucket is whisked back into the Bronze Age." Now, the adventure continues... In the years since the Event, the Republic of Nantucket has done its best to recreate the better ideas of the modern age. But the evils of its time resurface in the person of William Walker, renegade Coast Guard officer, who is busy building an empire for himself based on conquest by technology. When Walker reaches Greece and recruits several of their greater kinglets to his cause, the people of Nantucket have no choice. If they are to save the primitive world from being plunged into bloodshed on a twentieth-century scale, they must defeat Walker at his own game: war. "Inspired by the salty tales of seasoned maritime novelists C. S. Forester and Patrick O'Brian, [Worrall] delicately balances action and adventure with introspection. . . . Fans of seafaring military sagas will welcome [Sails on the Horizon]."—Booklist The year is 1797.

Napoleon Buonaparte is racking up impressive wins in the field against the enemies of revolutionary France, while on the seas England is putting up a staunch resistance. Twenty-five-year-old Charles Edgemont is second lieutenant aboard the British ship *Argonaut*. When orders come for the *Argonaut* to engage in an all-but-suicidal maneuver to prevent the escape of Spanish ships off the coast of Portugal, he leads his gun crews bravely—until the deaths of the captain and first lieutenant elevate him to commander. For refusing to yield to enemy fire, Charles is permanently promoted and generously rewarded by the Admiralty, becoming wealthy beyond his wildest dreams. Yet upon his return home, his newfound riches prove no help when it comes to winning the heart of Penelope Brown, who regards war as sinful and soldiers as little better than murderers. Changing Penelope's mind may just be the hardest battle Charles has ever fought—at least until fresh orders send him back to sea, where he faces a formidable adversary in a series of stirring battles of will and might. "Well executed . . . demonstrating Worrall's expertise in ship and sea warfare history . . . Readers will root for [Charles Edgemont]. . . . He handily defeats veteran seamen, takes enormous chances and is always rewarded."—Publishers Weekly

NATIONAL BESTSELLER • “Rutherford brings England’s New Forest to life” (The Seattle Times) in this companion to the critically acclaimed Sarum From the time of the Norman Conquest to the present day, the New Forest, along England’s southern coast, has remained an almost mythical place. It is here that Saxon and Norman kings rode forth with their hunting parties, and where William the Conqueror’s son Rufus was mysteriously killed. The mighty oaks of the forest were used to build the ships for Admiral Nelson’s navy, and the fishermen who lived in Christchurch and Lymington helped Sir Francis Drake fight off the Spanish Armada. The New Forest is the perfect backdrop for the families who people this epic story. The feuds, wars, loyalties, and passions of many hundreds of years reach their climax in a crime that shatters the decorous society of Bath in the days of Jane Austen, whose family lived on the edge of the Forest. Edward Rutherford is a master storyteller whose sense of place and character—both fictional and historical—is at its most vibrant in The Forest. “As entertaining as Sarum and Rutherford’s other sweeping novel of British history, London.”—The Boston Globe

It was one of the greatest human experiments ever undertaken: to populate an unknown land with the criminal, the unloved and the unwanted of English society. Amid conditions of brutality that paralleled those of slavery, 'The First Fleet' was sent to a land no European but the legendary Captain Cook had ever seen. These convicts - and their equally isolated guards - were left to live or die on the hostile Australian continent. Richard Morgan - a convicted felon and educated, intelligent, resourceful man - finds the will to survive, experience the joys of love, and finally make an indelible mark upon the new frontier. His story is both inspirational and heartwarming and will stay with you long after you finish the last page...

The Goths—a rumored people first known by history around the river Vistula in present

Poland-was the people that more than other contributed to the fall of the Roman Empire. It was however also the Goths who preserved the Roman culture against other Germanic tribes. Earlier it has been generally assumed the Goths originated in Scandinavia but during the 20th c. many scholars have grown skeptical. The author has, using both Classical and Nordic sources and supplementary sciences, made probable there is an intimate connection between the Goths and the Nordic countries. Consequently it is quite possible that at least part of the Goths have a Nordic origin. The book rests on the basic hypothesis that the Goths are not a people but a number of tribes and peoples united through a common religious/cultic origin. The old dispute concerning the relationship between Svear and Gautar also gets quite a new meaning. The book is interdisciplinary and embraces history, religion, arts, linguistics and archaeology. In 1999 Ingemar Nordgren received his Ph.D. at Odense University, Denmark The book builds to a considerable extent on his dissertation but has been updated and partly rewritten with brand new material. A Viking adventure, packed with battles, blood and gore, Raven is historical fiction at its very best, and marks the debut of an outstanding new talent. For two years Osric has lived a simple life, apprenticed to the mute old carpenter who took him in when others spurned him. But when Norsemen from across the sea burn his village, Osric is taken prisoner by these warriors. Their chief, Sigurd the Lucky, believes the Norns have woven this strange boy's fate together with his own, and Osric begins to sense glorious purpose among this fellowship of warriors. Immersed in the Norsemen's world and driven by their lust for adventure, Osric proves a natural warrior and forges a blood bond with Sigurd, who renames him Raven. But the Norsemen's world is a savage one, where loyalty is often repaid in blood and where a young man must become a killer in order to survive. When the Fellowship faces annihilation from ealdorman Ealdred of Wessex, Raven chooses a bloody and dangerous path, accepting the mission of raiding deep into hostile lands to steal a holy book from Coenwolf, King of Mercia. There he will find much more than the Holy Gospels of St Jerome. He will find Cynethryth, an English girl with a soul to match his own. And he will find betrayal at the hands of cruel men, some of whom he regards as friends. A Viking saga of warmongering, honour and loyalty from the Sunday Times bestselling author of Lancelot, Giles Kristian. Perfect for fans of Bernard Cornwell and Games of Thrones. "A fitting end to a trilogy that fans of Bernard Cornwell should devour" -- THE TIMES "The master storyteller...whose books throw the reader headlong into the Viking age." -- BEN KANE "This remains Viking writing at its best: thrilling in its truest sense, heart-rendering and, yes, glorious." -- MANDA SCOTT "Probably the best Viking saga I have ever read -- ***** Reader review "Wonderfully written and researched, the whole series makes the entire Nordic world come alive" -- ***** Reader review "This trilogy is gripping from start to finish" -- ***** Reader review ***** THE GODS MUST BE FAVOURED... Norway, AD 785. A wild place, a place of blood, a place where the gods hold sway . . . Sigurd Haraldarson and his oathsworn band are winning fame and reputation. But to confront his hated enemy - the oath-breaker and betrayer King Gorm - they must win riches too. When a daring raid goes wrong, Sigurd finds himself a prisoner of the powerful Jarl Guthrum. Bound like a slave, he is taken to the sacred temple at Ubsola to face the sacrificial knife. But here Sigurd discovers a potent relic: Gungnir, a great

spear that would give him the power to assemble a host strong enough to challenge King Gorm, and avenge the betrayal of his father and the murder of his family. The roar of Odin and the wild hunt will be as nothing compared to Sigurd's rage, for he and his warriors will be borne on the wings of the storm . . . Wings of the Storm concludes the Viking saga, started in God of Vengeance and Winter's Fire.

The third book in Robert Low's stunning new trilogy about the making of Scotland.

An informative look at the military conflicts that most altered the course of history and civilization, from ancient times to the modern world. Rather than celebrating warfare, 50 Battles That Changed the World looks at the clashes the author believes have had the most profound impact on world history. Ranked in order of their relevance to the modern world, these struggles range from the ancient past to the present day and span the globe many times over. Some of the battles in this book are familiar to us all—Bunker Hill, which prevented the American Revolution from being stillborn, and Marathon, which kept the world's first democracy alive. Others may be less familiar—the naval battle at Diu (on the Indian Coast), which led to the ascendancy of Western Civilization and the discovery of America, and Yarmuk, which made possible the spread of Islam from Morocco to the Philippines. With remarkable accounts of both famous and lesser-known clashes, 50 Battles That Changed the World provides impressive insight into the battles that shaped civilization as we know it.

Simplified Signs: A Manual Sign-Communication System for Special Populations, Volume 1.

The White Raven (The Oathsworn Series, Book 3)

A Lexicon of Medieval Nordic Law

A Vanished Dynasty, Ashanti

Winthrop's Journal, "History of New England," 1630-1649

Simplified Signs presents a system of manual sign communication intended for special populations who have had limited success mastering spoken or full sign languages. It is the

culmination of over twenty years of research and development by the authors. The Simplified Sign System has been developed and tested for ease of sign comprehension, memorization, and formation by limiting the complexity of the motor skills required to form each sign, and by ensuring that each sign visually resembles the meaning it conveys. Volume 1 outlines the research underpinning and informing the project, and places the Simplified Sign System in a wider context of sign usage, historically and by different populations. Volume 2 presents the lexicon of signs, totalling approximately 1000 signs, each with a clear illustration and a written description of how the sign is formed, as well as a memory aid that connects the sign visually to the meaning that it conveys. While the Simplified Sign System originally was developed to meet the needs of persons with intellectual disabilities, cerebral palsy, autism, or aphasia, it may also assist the communication needs of a wider audience – such as healthcare professionals, aid workers, military personnel, travellers or parents, and children who have not yet mastered spoken language. The system also has been shown to enhance learning for individuals studying a foreign language. Lucid and comprehensive, this work constitutes a valuable resource that will enhance the communicative interactions of many different people, and will be of great interest to researchers and educators alike.

Ancient Knowledge Networks is a book about how knowledge travels, in minds and bodies as well as in writings. It explores the forms knowledge takes and the meanings it accrues, and how these meanings are shaped by the peoples who use it. Addressing the relationships between political power, family ties, religious commitments and literate scholarship in the ancient Middle East of the first millennium BC, Eleanor Robson focuses on two regions where cuneiform script was the predominant writing medium: Assyria in the north of modern-day Syria and Iraq, and Babylonia to the south of modern-day Baghdad. She investigates how networks of knowledge

enabled cuneiform intellectual culture to endure and adapt over the course of five world empires until its eventual demise in the mid-first century BC. In doing so, she also studies Assyriological and historical method, both now and over the past two centuries, asking how the field has shaped and been shaped by the academic concerns and fashions of the day. Above all, *Ancient Knowledge Networks* is an experiment in writing about 'Mesopotamian science', as it has often been known, using geographical and social approaches to bring new insights into the intellectual history of the world's first empires.

Bandits, soldiers, thieves, murderers: all thrive in the lawless hills... The Borders are at war. Henry VIII, fat and pained with a diseased leg, wants to burn them all; to burn the very water if he has to. Batty Coalhouse is still haunted by Maramaldo, the warlord responsible for cutting off his arm. He's given an intriguing offer: find some stray nuns and bring them to safety. In turn, that will lead him to his nemesis, now rampaging with an army not far away in the Cheviot hills. What seems a routine assignment becomes a living hell, for in the Debatable lands, nothing is as it seems... Brimming with atmosphere and brutal violence, this is Robert Low at his best, perfect for fans of Bernard Cornwell, Conn Iggulden and S. J. A. Turney.
