Early in the year, our North American forests come to life as native wildflowers start to push up through patches of snow. With longer days and sunlight streaming down through bare branches of towering trees, life on the forest floor awakens from its winter sleep. Plants such as green dragon, squirrel corn, and bloodroot interact with their pollinators and seed dispersers and rush to create new life before the trees above leaf out and block the sun's rays. Wake Up, Woods showcases the splendor of our warming forests and offers clues to nature's annual springtime floral show as we walk in our parks and wilderness areas, or even in shade gardens around our homes. Readers of Wake Up, Woods will see that Gillian Harris, Michael Homoya and Shane Gibson, through illustrations and text, present a captivating look into our forests' biodiversity, showing how species depend on plants for food and help assure plant reproduction. This book celebrates some of nature's most fascinating moments that happen in forests where we live and play.

This is the ninth in the 300 series of circuit design books, again contains a wide range of circuits, tips and design ideas. The book has been divided into sections, making it easy to find related subjects in a single category. Edited collaboratively with Simpson, the book uniquely retells pivotal historical events that have been conventionally unchallenged in dominant historical narratives, while presenting a fascinating personal perspective in the singular voice of Williams, whose rare body of knowledge spans back to the 1700s. With this wealth of knowledge, wit and storytelling skill, Williams recounts key moments of his personal history, connecting them to the larger history of the Anishinaabeg and other Indigenous communities.

This volume draws on empirical evidence to explore the interplay between language teacher identity (LTI) and professional learning and instruction in the field of TESOL. In doing so, it makes a unique contribution to the field of language teacher education. By reconceptualizing teacher education, teaching, and ongoing teacher learning as a continuous, context-bound process of identity work, Language Teacher Identity in TESOL discusses how teacher identity serves as a framework for classroom practice, professional, and personal growth. Divided into five sections, the text explores key themes including narratives and writing; multimodal spaces; race, ethnicity, and language; teacher emotions; and teacher educator-researcher practices. The 15 chapters offer insight into the experiences of preservice teachers, in-service teachers, and teacher educators in global TESOL contexts including Canada, Japan, Korea, Norway, Sri Lanka, Turkey, the United Kingdom, and the United States. This text will be an ideal resource for researchers, academics, and scholars interested in furthering their knowledge of concepts grounding LTI, as well as teachers and teacher educators seeking to implement identity-oriented approaches in their own pedagogical practices.
