"We'd like to wrap this musical in gold paper with spangles all over it and attach a card saying Merry Christmas! Remember the wonderful Victor Herbert music? Remember the lyrics?

"Toyland, toyland, little girl and boy land." There are wonderful roles for everyone: Mary, Mary, Quite Contrary; Tom-Tom, the Piper's Son; Jack and Jill; Little Miss Muffet; Wicked Uncle Barnaby who runs the toy shop (and his comic-ruffian assistants, Roderigo and Gonzorgo) and can turn children into dolls and sell them for gold; and lovable Jane and Alan who are his next victims. The adaptation uses the original music of Victor Herbert and much of Glen MacDonough's libretto and lyrics."--Publisher website.

Launched by Walt Disney in 1929 as a "musical novelty" series to complement his recent success with Mickey Mouse, the Silly Symphonies soon became much more. Silly Symphonies won every Academy Award presented to animation shorts throughout the 1930s. From the authors of the prize-winning Walt in Wonderland: The Silent Films of Walt Disney, this richly illustrated volume is a complete history of the Silly Symphonies including detailed entries for all the Symphonies along with a lengthy critical analysis and production history of the series.

This anthology examines how immigrants and their US-born children use media to negotiate their American identity and how audiences engage with mediated narratives about the immigrant experience (cultural adjustments, language use, and the like). Where this work diverges from other collections and monographs is the area is its intentional focus on how both first- and second-generation Americans' complex identities and hybrid cultures interact with mediated narratives in general, alongside the extent to which these narratives reflect their experience. In a three-part structure, the collection examines representations, "zooms in" to explore the reception of these narratives through autoethnographic essays, and concludes in a section of analysis and critique of specific media.

This is the first comprehensive history of films made in or about Iowa. It reflects some twenty years of collecting, lecturing, and talking with some of Iowa's current

generation of independent filmmakers. It covers the span from 1918 to 2013 and gives important background information on dozens of high profile films such as the STATE FAIR films of 1933 and 1945, THE BRIDGES OF MADISON COUNTY, FIELD OF DREAMS, and many others. It is designed as a companion for the State Historical Society's blockbuster "Hollywood in the Heartland" exhibition in Des Moines that is scheduled to run at least through 2016. The book has an interpretive essay covering the entire history as well as paragraph length descriptions of each film. A user-friendly feature is the Index of Films, which makes it easy to locate discussions of individual films. Marty Knepper is a featured commentator on video screens in the "Hollywood in the Heartland" exhibition.

Blacks in American Horror Films from the 1890s to Present

From King Kong to Candyman, the boundary-pushing genre of the horror film has always been a site for provocative explorations of race in American popular culture. In *Horror Noire: Blacks in American Horror Films from 1890's to Present*, Robin R. Means Coleman traces the history of notable characterizations of blackness in horror cinema, and examines key levels of black participation on screen and behind the camera. She argues that horror offers a representational space for black people to challenge the more negative, or racist, images seen in other media outlets, and to portray greater diversity within the concept of blackness itself. *Horror Noire* presents a unique social history of blacks in America through changing images in horror films. Throughout the text, the reader is encouraged to unpack the genre's racialized imagery, as well as the narratives that make up popular culture's commentary on race. Offering a comprehensive chronological survey of the genre, this book addresses a full range of black horror films, including mainstream Hollywood fare, as well as art-house films, Blaxploitation films, direct-to-DVD films, and the emerging U.S./hip-hop culture-inspired Nigerian "Nollywood" Black horror films. *Horror Noire* is, thus, essential reading for anyone seeking to understand how fears and anxieties about race and race relations are made manifest, and often challenged, on the silver screen.

Walt Disney's Classic Storybook

This book addresses Disney parks using performance theory. Few to no scholars have done this to date—an enormous oversight given the Disney parks' similarities to immersive theatre, interpolated dramaturgical construction of attractions. Most scholars and critics deny agency to the tourist in their engagement with the Disney theme park experience. The vast body of research and journalism "Imagineers"—the designers and storytellers who construct the park experience—leads to the misconception that these exceptional artists puppeteer every aspect of the guest's experience. Conversely, Disney park guests find a range of possible reading strategies when they enter the space. Certainly Disney presents a primary reading, but generations of critical theory have established the various strategies that interpreters can employ to read against the text. This volume of twelve essays re-centers the park experience around its protagonist: the tourist.

"Outstanding . . . The most accessible distillation of that conflict yet written." -The Boston Globe "Energetically written and lucid, it makes an ideal introduction to the subject." -The New York Times The "dean of Cold War historians" (The New York Times) now presents the definitive account of the global confrontation that dominated the last half of the twentieth century. Drawing on newly opened archives and the reminiscences of the major players, John Lewis Gaddis explains not just what happened but why—from the months in 1945 when the U.S. and the U.S.S.R. went from alliance to antagonism to the barely averted holocaust of the Cuban Missile Crisis to the maneuvers of Nixon and Mao, Reagan and Gorbachev. Brilliant, accessible, almost Shakespearean in its drama, The Cold War stands as a triumphant summation of the era that, more than any other, shaped our own. Gaddis is also the author of On Grand Strategy.

"In *The Race for Paradise*, Paul M. Cobb offers an accurate and accessible representation of the Islamic experience of the Crusades during the Middle Ages. Cobb overturns previous claims and presents new arguments, such as the idea that the Frankish invasions of the Near East were something of a side-show to the broader internal conflict between Sunnis and Shi'ites in the region. *The Race for Paradise* moves along two fronts as Cobb stresses that, for medieval Muslims, the contemporaneous Latin Christian expansion throughout the Mediterranean was seen as closely linked to events in the Levant. As a consequence of this expanded geographical range, the book takes a broader chronological range to encompass the campaigns of Spanish kings north of the Ebro and the Norman conquest of Sicily (beginning in 1060), well before Pope Urban II's famous call to the First Crusade in 1095. Finally, *The Race for Paradise* brilliantly combats the trend to portray the history of the Crusades, particularly the Islamic experience, in simplistic or binary terms. Muslims did not solely experience the Crusades as fanatical warriors or as helpless victims, Cobb writes; as with any other human experience of similar magnitude, the Crusades were experienced in a great variety of ways, ranging from heroic martyrdom, to collaboration, to utter indifference"--
