**Book Description**
**Data Analytics Made Easy is an accessible beginner's guide for anyone working with data. The book interweaves four key elements: Data visualizations and storytelling - Tired of people not listening to you and ignoring your results? Don't worry; chapters 7 and 8 show you how to enhance your presentations and engage with your managers and co-workers. Learn to create focused content with a well-structured story behind it to captivate your audience. Automating your data workflows - Improve your productivity by automating your data analysis. This book introduces you to the open-source platform, KNIME Analytics Platform. You'll see how to use this no-code and free-to-use software to create a KNIME workflow of your data processes just by clicking and dragging components. Machine learning - Data Analytics Made Easy describes popular machine learning approaches in a simplified and visual way before implementing these machine learning models using KNIME. You'll not only be able to understand data scientists' machine learning models; you'll be able to challenge them and build your own. Creating interactive dashboards - Follow the book's simple methodology to create professional-looking dashboards using Microsoft Power BI, giving users the capability to slice and dice data and drill down into the results. What you will learn**
**Understand the potential of data and its impact on your business**

**Who this book is for**
**This book is for beginners who work with data and those who need to know how to interpret their business/customer data. The book also covers the high-level concepts of data workflows, machine learning, data storytelling, and visualizations, which are useful for managers. No previous math, statistics, or computer science knowledge is required. A quick-and-easy guide to core business and career concepts—no MBA required! The ability to negotiate a deal. Confidence to oversee staff. Complete, accurate monitoring of expenses. In today's business world, these are must-have skills. But all too often, comprehensive business books turn the important details of best practices into tedious reading that would put even a CEO to sleep. From hiring and firing to strategizing and calculating revenues, Negotiating 101 is an easy-to-understand roadmap of today's complex business world, packed with hundreds of entertaining tidbits and concepts that can't be found anywhere else. So whether you're a new business owner, a middle manager, or an entry-level employee, this 101 series has the answers you need to conduct business in a smarter way.**

Book Excerpt: ...Another characteristic list of words might be made, compounded with the monosyllable tang (which in Sakai and Semang means "hand"), and conveying an idea of seizing or holding.Tang-an the hand. Tang-kap to seize. Tang-kei a stalk. Tang-gong to support. Tang-gal to drop off (having left hold). Tong-kat a walking-stick, &c.The history of the Malay people is to be discovered in the language itself, for no authentic records of pre-Muhammadan times exist. Just as an insight into the early history of our own nation may be obtained by analysing the component parts of the English tongue, and assigning to each of the languages which have contributed to make it what it is their due proportion of influence, so, by resolving the Malay language into its separate elements, of which native, Sanskrit, and Arabic are the chief, and by examining the words contributed by each, it is possible to follow with some approach to historical...

Dictionary of Malaysian proverb.

Indonesia's great size and diversity and its history of regional dissension have made its struggle for national integration particularly complex. Christine Drake presents an informed and balanced picture of past and present developments in this struggle, offering readers a realistic assessment of the current status and future prospects of national integration in Indonesia. By addressing historical, political, social, and economic issues in conjunction with statistical analysis, Professor Drake argues that the spatial pattern of integration is far more complex than the commonly accepted core-periphery model of Indonesian integration and development. The author examines the effectiveness of Indonesian government policies in promoting national integration and concludes that in general they have led to greater national unity, although many serious problems remain.

*Keistimewaan Hisbah dilihat sebagai kesempurnaan Islam kerana Hisbah mendidik umat Islam sentiasa patuh perintah Allah SWT dengan berhati-hati, berwaspada, mempertikaikan setiap amalan yang dilakukan agar umat Islam tidak tergelincir daripada melakukan kemungkaran. Buku ini menjelaskan tentang sistem Hisbah yang bertindak sebagai pengawasan luaran yang berasaskan kepada pengawasan dalaman yang dikenali sebagai muhasabat al-nafs. Melalui buku ini juga, didokumentasikan sejarah dan perbandingan dalam amalan semasa terutamanya dengan institusi pengawasan lain seperti ‘al- Qada”, “Wilayat Mazalim” dan ‘Niyabat al-Ammah”. Semoga buku ini dapat memberi sumbangan dalam keilmuan Islam dan mempertingkatkan pengetahuan kita tentang Hisbah yang berperanan dalam mengawasi tingkah laku manusia dalam melakukan al-amr bi al-ma’ruf wa al-nahy an al-munkar.*

*This dissertation is a description of the grammar of West Coast (WC) Bajau, a western Austronesian language spoken in Sabah, Malaysia by some 60,000 people. Drawing extensively from elicited data as well as a corpus of compiled texts, I describe the language at its various levels: phonology, morphology, phrase structure, clause structure, clause-combining operations, and discourse. In its verbal morphology, WC Bajau shows a (marked) actororientation vs. (unmarked) undergoer orientation with both transitive and intransitive verb roots. I show evidence for a verb phrase in WC Bajau, in one (and possibly two) voices. Investigation of the pragmatic structure of the clause shows that WC Bajau has both a topic and a focal position preverbally. Though primarily descriptive in nature, the grammar devotes some space to theoretical issues concerned with the voice system, which has long been the subject of debate among linguists and typologists studying western Austronesian languages. I argue on primarily syntactic grounds that WC Bajau shows little evidence for an ergative-antipassive voice system, as has been proposed for a number of other Sama-Bajaw languages. Instead, WC Bajau patterns as a symmetrical voice language with two transitive voices, as well as a 'true passive' voice. In this and other respects, WC Bajau resembles Malay/Indonesian and Balinese ('Indonesian-type' languages) as opposed to the indigenous languages of Sabah and some Sama-Bajaw languages, which show greater resemblance to the 'Philippine-type' languages.*

**Databases are structured accumulations of data, built for easy access and retrieval of data as per requirement. Such data frameworks are constructed according to industrial or organizational needs. Large databases require elaborate and efficient database management systems. They are of two types- general and special purpose. It has applications across a number of fields such as library systems, website management, inventory management, etc. This book sheds light on the modern techniques and methods of database system design, their applications and management. It elucidates concepts and innovative models around prospective developments with respect to database systems. This book will serve as a valuable source of reference for professionals, researchers and students in the fields of computer science and engineering, information science, knowledge management and software engineering.**

**A Tuareg youth ventures into trackless desert on a life-threatening quest to find the father he remembers only as a shadow from his childhood, but the spirit world frustrates and tests his resolve. For a time, he is rewarded with the Eden of a lost oasis, but eventually, as new settlers crowd in, its destiny mimics the rise of human civilization. Over the sands and the years, the hero is pursued by a lover who matures into a sibyl-like priestess. The Libyan Tuareg author Ibrahim al-Koni, who has earned a reputation as a major figure in Arabic literature with his many novels and collections of short stories, has used Tuareg folklore about Anubis, the ancient Egyptian god of the underworld, to craft a novel that is both a lyrical evocation of the desert's beauty and a chilling narrative in which thirst, incest, patricide, animal metamorphosis, and human sacrifice are more than plot devices. The novel concludes with Tuareg sayings collected by the author in his search for the historical Anubis from matriarchs and sages during trips to Tuareg encampments, and from inscriptions in the ancient Tifinagh script in caves and on tattered manuscripts. In this novel, fantastic mythology becomes universal, specific, and modern.**

*Syncretism - the synthesis of different religious - is a contentious word. Some regard it as a pejorative term, referring to local versions of notionally standard `world religions' which are deemed `inauthentic' because saturated with indigenous content. Syncretic versions of Christianity do not conform to `official' (read `European') models. In other contexts however, the syncretic amalgamation of religions may be validated as a mode of resistance to colonial hegemony, a sign of cultural survival, or as a means of authorising political dominance in a multicultural state. In Syncretism/Anti-Syncretism the contributors explore the issues of agency and power which are integral to the very process of syncretism and to the competing discourses surrounding the term.*
