Inspired by Buddhist philosophy, this

In the West, we have everything we could possibly need or want—except for peace of mind. So writes Linda Leaming, a harried American who traveled from Nashville, Tennessee, to the rugged Himalayan nation of Bhutan—sometimes called the happiest place on Earth—to teach English and unlearn her politicized and polarized, energetic and impatient way of life. Bhutan, if I have three things to do in a week, it's considered busy. In the U.S., I have at least three things to do between breakfast and lunch. After losing her luggage immediately upon arrival, Leaming realized that she also had emotional baggage—a tendency toward inaction, a touch of self-absorption, and a hundred other trite, stupid, embarrassing, and inconsequential things—that needed to get lost as well. Pack up ideas and feelings that tie you down and send you lead-footed down the wrong path. Put them in a metaphorical suitcase and sling it over a metaphorical bridge in your mind. Let the river take them away. Forced by circumstance and her rustic surroundings to embrace a simplified life, Leaming made room for more useful beliefs. The thin air and hard climbs of her mountainous commute put

her deeply in touch with her breath, helping her find focus and appreciation. The archaic, glacially paced bureaucracy of a Bhutanese bank taught her to go with the flow—and take up knitting. The ancient ritual of drinking tea brought tranquility, friendship, and, eventually, a husband. Each day, and each adventure, in her adopted home brought new insights and understandings to take back to frantic America, where she now practices the art of "simulating Bhutan." This collection of stories, impressions, and suggestions is a little nudge, a push, a leg up into the rarefied air of paradise—of bright sunlight and beautiful views.

built essentially like anyone else's—and then they changed their brains in ways that changed the world. Science is now revealing how the flow of thoughts actually sculpts the brain, and more and more, we are learning that it's possible to strengthen positive brain states. By combining breakthroughs in neuroscience with insights from thousands of years of mindfulness practice, you too can use your mind to shape your brain for greater happiness, love, and wisdom. Buddha's Brain draws on the latest research to show how to stimulate your brain for more fulfilling relationships, a deeper spiritual life, and a greater sense of inner confidence and worth. Using guided meditations and mindfulness exercises, you'll learn how to activate the brain states of calm, joy, and compassion instead of worry, sorrow, and anger.

Most importantly, you will foster positive psychological growth that will literally change the way you live in your day-to-day life. This book presents an unprecedented intersection of psychology, neurology, and contemplative practice, and is filled with practical tools and skills that you can use every day to tap the unused potential of your brain and rewire it over time for greater well-being and peace of mind.

A sympathetic illustrated guide to learning to live with your mind--even when it tries to trick you. Most of us spend our lives trailing after our minds, allowing our brains to take us in directions that are safe and secure, controlled and conformed. Your mind doesn't want you to take that new job, sign up for that pottery class, or ask someone out. It wants you to stay

unemployed, unfulfilled, and single because it enjoys routine and is resistant to change, no matter how positive the change may be. But more often than not, that's not what you want. *Whose Mind Is It Anyway?* will help you learn how to separate what you want from what your brain wants and how to do less when your mind is trying to trick you into doing more. In a colorful, funny, and nonthreatening way, it answers the difficult question of how we can take control of our self-defeating behaviors. Filled with charming illustrations, this book will be the friendly voice in your head to counter your negative thoughts, and it will teach you how to finally be at peace with all that you are.

"Elegant and wise" (Deepak Chopra), "The most uplifting and life-affirming book in years." (Forbes) Brad Aronson's life changed in an instant when his wife, Mia, was diagnosed with leukemia. Brad also provides dozens of ways you can make a difference through the simplest words and deeds. You'll discover how buying someone a meal or sharing a little encouragement at the right time can change someone's world, as well as your own. The resource section at the back of the book

for this generation's short attention span. The chapters in this small book can be read in any order, and are simple and easy to understand. Each story, inspirational quote and teaching offers mindfulness-enhancing techniques that anyone can relate to. You don't need to be a Buddhist to find this book motivational. As the Dalai Lama says, "Don't try to use what you learn from Buddhism to be a Buddhist; use it to be a better whatever-you-already-are." Whether it's Mother Teresa's acts of charity, Gandhi's perseverance, or your aunt Betty's calm demeanor, it doesn't matter who inspires you, so long as you're motivated to be better today than you were yesterday. Regardless of religion or geographical region, race, ethnicity, color, gender, sexual orientation, age, ability, flexibility, or vulnerability, if you do good, you feel good, and if you do bad, you feel bad.
