The New York Times Bestseller! "An absolute page turner, *I'm Not Dying with You Tonight* is a compelling and powerful novel that is sure to make an impact." —Angie Thomas, New York Times bestselling author of *The Hate U Give* NAACP Image Award Nominee, *I'm Not Dying with You Tonight* follows two teen girls—one black, one white—who have to confront their own assumptions about racial inequality as they rely on each other to get through the violent race riot that has set their city on fire with civil unrest. Lena has her killer style, her awesome boyfriend, and a plan. She knows she's going to make it big. Campbell, on the other hand, is just trying to keep her head down and get through the year at her new school. When both girls attend the Friday-night football game, what neither expects is for everything to descend into sudden mass chaos. Chaos born from violence and hate. Chaos that unexpectedly throws them together. They aren't friends. They hardly understand the other's point of view. But none of that matters when the city is up in flames, and they only have each other to rely on if they're going to survive the night. This book is perfect for: Sparking conversations about prejudice and the racial tension that exists in America Parents and educators looking for multicultural and African American books for teens Fans of Nic Stone, Angie Thomas, and Jason Reynolds Additional Praise for *I'm Not Dying with You Tonight*: "A vital addition to the YA race relations canon." —Nic Stone, New York Times bestselling author of *Dear Martin* "An astounding achievement. This novel is an incendiary experience, one that does not shy away from difficult questions about privilege and violence. But Jones and Segal don't hold our hands to provide us easy answers; this is a book meant to be devoured in a single sitting and discussed for years to come." —Mark Oshiro, author of *Anger is a Gift* "*I'm Not Dying With You Tonight* is a powerful examination of privilege, and how friends are often found in surprising places. Jones and Segal have penned a page-turning debut, as timely as it is addictive." —David Arnold, New York Times bestselling author of *Mosquitoland* and *Kids of Appetite*

In 900 text pages, *Campbell Biology in Focus* emphasizes the essential content and scientific skills needed for success in the college introductory course for biology majors. Each unit streamlines content to best fit the needs of instructors and students, based on surveys, curriculum initiatives, reviews, discussions with hundreds of biology professors, and careful analyses of course syllabi. Every chapter includes a Scientific Skills Exercise that builds skills in graphing, interpreting data, experimental design, and math—skills biology majors need in order to succeed in their upper-level courses. This briefer book upholds the Campbell hallmark standards of accuracy, clarity, and pedagogical innovation.

Concepts of Biology is designed for the single-semester introduction to biology course for non-science majors, which for many students is their only college-level science course. As such, this course represents an important opportunity for students to develop the necessary knowledge, tools, and skills to make informed decisions as they continue with their lives. Rather than being mired down with facts and vocabulary, the typical non-science major student needs information presented in a way that is easy to read and understand. Even more importantly, the content should be meaningful. Students do much better when they understand why biology is relevant to their everyday lives. For these reasons, *Concepts of Biology* is grounded on an evolutionary basis and includes exciting features that highlight careers in the biological sciences and everyday applications of the concepts at hand. We also strive to show the interconnectedness of topics within this extremely broad discipline. In order to meet the needs of today's instructors and students, we maintain the overall organization and coverage found in most syllabi for this course. A strength of *Concepts of Biology* is that instructors can customize the book, adapting it to the approach that works best in their classroom. *Concepts of Biology* also includes an innovative art program that incorporates critical thinking and clicker questions to help students understand--and apply--key concepts.

Winner of the Hilary Weston Writers' Trust Prize for Nonfiction Winner of the Freedom to Read Award Winner of the Hubert Evans Prize In the midst of an unfolding international crisis, renowned journalist Deborah Campbell finds herself swept up in the mysterious disappearance of Ahlam, her guide and friend. Campbell's frank, personal account of a journey through fear and the triumph of friendship and courage is as riveting as it is illuminating. The story begins in 2007, when Deborah Campbell travels undercover to Damascus to report on the exodus of Iraqis into Syria, following the overthrow of Saddam Hussein. There she meets and hires Ahlam, a refugee working as a "fixer"—providing Western media with trustworthy information and contacts to help get the news out. Ahlam has fled her home in Iraq after being kidnapped while running a humanitarian center. She supports her husband and two children while working to set up a makeshift school for displaced girls. Strong and charismatic, she has become an unofficial leader of the refugee community. Campbell is inspired by Ahlam's determination to create something good amid so much suffering, and the two women become close friends. But one morning, Ahlam is seized from her home in front of Campbell's eyes. Haunted by the prospect that their work together has led to her friend's arrest, Campbell spends the months that follow desperately trying to find Ahlam—all the while fearing she could be next. The compelling story of two women caught up in the shadowy politics behind today's most searing conflict, *A Disappearance in Damascus* reminds us of the courage of those who risk their lives to bring us the world's news.

The Parker Inheritance

The page-turning, never-before-told story of Kim Campbell's roller-coaster thirty-four-year marriage to music legend Glen Campbell, including how Kim helped Glen finally conquer his addictions only to face their greatest challenge when he was diagnosed with Alzheimer's disease. Kim Campbell was a fresh-faced twenty-two-year-old dancer at Radio City Music Hall when a friend introduced her to Glen Campbell, the chart-topping, Grammy-winning, Oscar-nominated entertainer. The two performers from small Southern towns fell in love, a bond that produced a thirty-four-year marriage and three children. In Gentle on My Mind, Kim tells the complete, no-holds-barred story of their relationship, recounting the highest of highs—award shows, acclaimed performances, the birth of their children, encounters with Mick Fleetwood, Waylon Jennings, Alan Jackson, Alice Cooper, Jane Seymour, and others—and the lowest of lows, including battles with alcohol and drug addiction and, finally, Glen's diagnosis, decline, and death from Alzheimer's. With extraordinary candor, astonishing bravery, and a lively sense of humor, Kim reveals the whole truth of life with an entertainment giant and how she loved and loving him amid the extraordinary challenge of Alzheimer's disease. This is a remarkable account of enduring love, quiet strength, and never-faltering faith.

'An outpouring of truth, wit, and beautiful comedic wisdom.' Katherine Ryan 'Such a funny and interesting book.' Sara Pascoe 'The vagina has a voice!' London Hughes 'Powerful, bold, vulnerable, beautiful, hilarious, universal, unique.' Scarlett Curtis

***** For as long as she can remember, Grace Campbell has been told that she does

suit her name. But being graceful is no fun anyway. Growing up in a world of privilege and politics, she had a lot to feel confident about. But she was also a record-breaker when it came to feeling shame. Shame about sex, shame about rejection, shame about men over time, and with a 24 carat gold dose of female friendship, Grace has turned shame into a defiant sense of self. At only 20, she has a lot to learn about being an adult, but she's already got a lot to share about being a disgrace, and how she came to be utterly and disgracefully proud of it. This is the book every young woman should read, and every young man should worry about.

This heartbreaking, hilarious, and brutally honest memoir shares the deeply personal life story of a girl next door and her transformation into a household name. For more than forty years, Katie Couric has been an iconic presence in the media world. In her brutally honest, hilarious, heartbreaking memoir, she reveals what was going on behind the scenes of her sometimes tumultuous personal and professional life - a story she ' s never shared, until now. Of the medium she loves, the one that made her a household name, she says, " Television can put you in a box; the flat-screen can flatten. On TV, you are larger than life but smaller, too. It is not the whole story, and it is not the whole me. This book is. "

Beginning in early childhood, Couric was inspired by her journalist father to pursue the career he loved but couldn ' t afford to stay in. Balancing her vivacious, outgoing personality with her desire to be taken seriously, she overcame every obstacle in her way: insecurity, an eating disorder, being typecast, sexism . . . challenges, and how she dealt with them, setting the tone for the rest of her career. Couric talks candidly about adjusting to sudden fame after her astonishing rise to co-anchor of the TODAY show, and guides us through the most momentous events and news stories of the era, to which she had a front-row seat: Rodney King, Anita Hill, Columbine, the death of Princess Diana, 9/11, the Iraq War . . . In every instance, she relentlessly pursued the facts, ruffling more than a few feathers along the way. She also recalls in vivid and sometimes lurid detail the intense pressure on female anchors to snag the latest " get " —often sensational tabloid stories like Jon Benet Ramsey, Tonya Harding, and OJ Simpson. Couric ' s position as one of the leading lights of her profession was shadowed by the shock and trauma of losing her husband to stage 4 colon cancer when he was just 42, leaving her a widow and single mom to two daughters, 6 and 2. The death of her sister Emily, just three years later, brought yet more trauma—and an unwavering commitment to cancer awareness and research, one of her proudest accomplishments. Couric is unsparing in the details of her historic move to the anchor chair at the CBS Evening News—a world rife with sexism and misogyny. Her " welcome " was even more hostile at 60 Minutes, an unrepentant boys club that engaged in outright hazing of even the most established women. In the wake of the MeToo movement, Couric shares her clear-eyed reckoning with gender inequality and predatory behavior in the workplace, and the downfall of Matt Lauer—a colleague she had trusted and respected for more than a decade. Couric also talks about the challenge of finding love again, with all the hilarity, false-starts, and drama that search entailed, before finding her midlife Mr. Right. Something she has never discussed publicly—why her second marriage almost didn ' t happen. If you thought you knew Katie Couric, think again. Going There is the fast-paced, emotional, riveting story of a thoroughly modern woman, whose journey took her from humble origins to superstardom. In these pages, you will find a friend, a confidante, a role model, a survivor whose lessons about life will enrich your own.

Examines myths and folk tales from around the world in an attempt to understand the symbolism of the hero as it appears in the mythologies and religions of mankind.

Darius doesn't think he'll ever be enough, in America or in Iran. Hilarious and heartbreaking, this unforgettable debut introduces a new voice in contemporary YA. Winner of the William C. Morris Debut Award "Heartfelt, tender, and so utterly real. I'd live in this world forever if I could." —Becky Albertalli, award-winning author of *Simon vs. the Homo Sapiens Agenda* Darius Kellner speaks better in Farsi, and he knows more about Hobbit social cues than Persian ones. He's a Fractional Persian—half, his mom's side—and his return to Iran is about to change his life. Darius has never really fit in at home, and he's sure things are going to be the same in Iran. Depression doesn't exactly help matters, and trying to explain his medication to his grandparents only makes things harder. Then Sohrab, the boy next door, and everything changes. Soon, they're spending their days together, playing soccer, eating faludehs, and sitting for hours on a secret rooftop overlooking the city's skyline. Sohrab calls him Darioush—the original Persian version of his name—and Darius never felt more like himself than he does now that he's Darioush to Sohrab. Adib Khorram's brilliant debut is for anyone who's ever felt good enough—then met a friend who makes them feel so much better than okay.

By the author of the Newbery Honor Book *The Night Diary*, a thoughtful and relatable story about cultural identity, friendship, and what it means to fit in without losing who you are. For the first time, Sonia's mixed heritage is a source of confusion as classmates ask questions—questions Sonia doesn't always know how to answer—as she navigates between a group of popular students who want to try out for the cheerleading squad and other students who aren't part of the "in" crowd. At the same time that Sonia is trying to fit in with her friends, she's dealing with what it means to have an out-of-work parent—it's hard for her family to adjust to their changed circumstances. Then, one day, Sonia's father goes missing. Now Sonia wonders if she ever really knew him. As she begins to look for answers, she discovers what really matters and who her true friends are—and whether her two halves, no matter how different, can make her a whole.
