Rain is lashing down when Barby Keel is called out to an emergency unfolding at the gates of her animal sanctuary, deep in the Sussex countryside. A greyhound had been dumped under the cover of darkness, and is at death's door. In the 37 years she has dedicated her life to the welfare of animals, Barby has witnessed the horrors that humans are capable of, but never has she seen anything as barbaric as this poor dog's condition. Cigarette burns scar his flank, and he is so malnourished that he struggles to stand, every rib showing through his patchy fur. It's touch-and-go whether he will survive the night. The dog, who Barby names Bailey, proves he has a fighting spirit and, slowly but surely, begins the long road to recovery. But Barby is facing her own battle with ill health - one that threatens the future of the entire sanctuary... Will You Love Me? is an emotional, joyful true story of the deepest bond that exists between humans and animals, and shows how in rescuing others, we can rescue ourselves.

Examines the extraordinary plumage, behavior, and conservation successes of all thirty-nine bird of paradise species, and includes images of previously unrepresented birds from remote New Guinea.

During a family trip to China, eleven-year-old Mia Chen and her older brother Jake follow clues and solve riddles in hopes of finding their missing Aunt Lin and, perhaps, a legendary treasure.

Howard Fineman, one of our most trusted political journalists, shows that every debate, from our nation's founding to the present, is rooted in one of thirteen arguments that—thankfully—defy resolution. It is the very process of never-ending argument, Fineman argues, that defines us, inspires us, and keeps us free. At a time when most public disagreement seems shrill and meaningless, Fineman's is a cogent case for nurturing the real American dialogue. The Thirteen American Arguments runs the gamut, including • Who Is a Citizen? • The Declaration of Independence says "everyone," but it took a Civil War, the Civil Rights Act, and other movements to make it so. • Now, what about human embryos and prisoners in Guantanamo? • The Role of Faith No country is more legally secular yet more religiously prayerful. From Thomas Jefferson to James Dobson, the issue persists: Where does God fit in government? • America in the World and everywhere else, we ask ourselves whether we must change the world in order to survive and honor our values—or whether we can do both is to deal with the world as it is. Whether it's the nomination of judges or the limits of free speech, presidential power, or the national debt, the issues that galvanized the Founding Fathers should still inspire our leaders, thinkers, and fellow citizens. If we cease to argue about these things, we cease to be. "Argument is strength, not weakness," says Fineman. "As long as we argue, there is hope. As long as there is hope, we will argue."

It is the early Cold War. The Soviet Union appears to be in irresistible ascendance, and moves to exploit the Olympic Games as a platform for promoting international communism. In response, the United States conceives a subtle, far-reaching psychological warfare campaign to blunt the Soviet advance. Drawing on newly declassified materials and archives, Toby C. Rider chronicles how the US government used the Olympics to promote democracy and its own policy aims during the tense early phase of the Cold War. Rider shows how the US, though constrained by traditions against interference in the Games, eluded detection by cooperating with private groups, including émigré organizations bent on liberating their home countries from Soviet control. At the same time, the United States used the Olympic host cities to hype the American economic and political system while, behind the scenes, the government attempted to manipulate the International Olympic Committee. Rider also details the campaigns that sent propaganda materials around the world. The United States mobilized culture in general, and sports in particular, to fight the communist threat.

When 30-year-old Dean Nicholson set off from Scotland to cycle around the world, his aim was to learn as much as he could about our troubled planet. But he hadn't bargained on the lessons he'd learn from his unlikely companion. Three months after leaving home, on a remote road in the mountains between Montenegro and Bosnia, he came across an abandoned kitten. Something about the piercing eyes and plaintive meowing of the bedraggled little cat proved irresistible. He couldn't leave her to her fate, so he put her on his bike and then, with the help of local vets, nursed her back to health. Soon on his travels with the cat he named Nala, they forged an unbreakable bond - both curious, independent, resilient and

adventurous. The video of how they met has had 20 million views and their Instagram has grown to almost 750k followers - and still counting! Experiencing the kindness of strangers, visiting refugee camps, rescuing animals through Europe and Asia, Dean and Nala have already learned that the unexpected can be pretty amazing. Together with Garry Jenkins, writer with James Bowen of the bestselling *A Street Cat Named Bob*, Dean shares the extraordinary tale of his and Nala's inspiring and heart-warming adventure together.

With his Hollywood good looks, boundless enthusiasm, and mesmeric media presence, John F. Kennedy was destined to capture the imaginations of over 70 million Americans who watched the nation's first televised presidential debate. Just days after winning the election by the narrowest margin in history, Kennedy himself said, It was the TV more than anything else that turned the tide. But one man begged to differ: writer Norman Mailer, who bragged that his pro-Kennedy treatise, *Superman Comes to the Supermarket*, had won the election for Kennedy. Whether or not that was the case, the article, published in *Esquire* magazine just weeks before polls opened, did redefine political reporting and journalism itself, spawning a form that would be called New Journalism. Mailer's frank, first-person, irreverent voice reflected on Kennedy's cult of personality, calling him the existential hero who could awaken the nation from its postwar slumber and staunchly conformist Eisenhower years.

Donkeys are gaining in popularity across the country. They are used in trail riding, as pets, to guard livestock from coyotes and wild dogs, and as show animals. Donkeys are also used to breed mules, which are a hybrid produced by crossing a male donkey with a female horse. In *The Book of Donkey*, Donna Campbell Smith will cover the origin and history of donkeys world-wide. She will include chapters on breeds and types, care, housing, breeding, training, and the use of donkeys in the same format as her previous three books with Lyons Press. *The Book of Donkeys* will stand alone as an introduction to the world of donkeys and donkey keeping.

The first examination of Nelson Algren in over 25 years, *Algren* is the definitive biography of one of the best-known writers of mid-20th-century America. Journalist Mary Wisniewski interviewed dozens of Algren's inner circle, including photographer Art Shay and the late Studs Terkel, and examined Algren's unpublished writing and correspondence, including hundreds of letters he received from lover Simone de Beauvoir, to craft an account as entertaining as it is meticulously researched. *Algren* reveals details about the writer's life, work, personality, and habits, digging beneath the street-crawling man's man stereotype to show a funny, sensitive, and romantic but self-destructive artist. This fresh look at the man whose tough but humorous style and compassionate message enchanted readers and fellow writers is indispensable to anyone interested in 20th-century American literature.

A Humorous Exploration of Man's Fur-ocious Devotion to Dogs

From the New York Times, USA Today, and Wall Street Journal bestselling author of The Radium Girls comes another dark and dramatic but ultimately uplifting tale of a forgotten woman whose inspirational journey sparked lasting change for women's rights and exposed injustices that still resonate today. 1860: As the clash between the states rolls slowly to a boil, Elizabeth Packard, housewife and mother of six, is facing her own battle. The enemy sits across the table and sleeps in the next room. Her husband of twenty-one years is plotting against her because he feels increasingly threatened--by Elizabeth's intellect, independence, and unwillingness to stifle her own thoughts. So Theophilus makes a plan to put his wife back in her place. One summer morning, he has her committed to an insane asylum. The horrific conditions inside the Illinois State Hospital in Jacksonville, Illinois, are overseen by Dr. Andrew McFarland, a man who will prove to be even more dangerous to Elizabeth than her traitorous husband. But most disturbing is that Elizabeth is not the only sane woman confined to the institution. There are many rational women on her ward who tell the same story:

they've been committed not because they need medical treatment, but to keep them in line--conveniently labeled "crazy" so their voices are ignored. No one is willing to fight for their freedom and, disenfranchised both by gender and the stigma of their supposed madness, they cannot possibly fight for themselves. But Elizabeth is about to discover that the merit of losing everything is that you then have nothing to lose... Bestselling author Kate Moore brings her sparkling narrative voice to *The Woman They Could Not Silence*, an unputdownable story of the forgotten woman who courageously fought for her own freedom--and in so doing freed millions more. Elizabeth's refusal to be silenced and her ceaseless quest for justice not only challenged the medical science of the day, and led to a giant leap forward in human rights, it also showcased the most salutary lesson: sometimes, the greatest heroes we have are those inside ourselves. "The glowing ghosts of the radium girls haunt us still."--NPR Books for *The Radium Girls*

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

From the front page of The New York Times to YouTube, Dr. Wafa Sultan has become a force radical Islam has to reckon with. For the first time, she tells her story and what she learned, first-hand, about radical Islam in *A God Who Hates*, a passionate memoir by an outspoken Arabic woman that is also a cautionary tale for the West. She grew up in Syria in a culture ruled by a god who hates women. "How can such a culture be anything but barbarous?", Sultan asks. "It can't", she concludes "because any culture that hates its women can't love anything else." She believes that the god who hates is waging a battle between modernity and barbarism, not a battle between religions. She also knows that it's a battle radical Islam will lose. Condemned by some and praised by others for speaking out, Sultan wants everyone to understand the danger posed by *A God Who Hates*.

But Amanda could never have imagined that in doing so she was really saving herself... Amanda's six year-old son Kyle, who was born with cerebral palsy and autism, built a deep and lasting connection with Miracle and their special bond has transformed not only Kyle's life but that of the entire family. Heartbreaking, inspirational and ultimately life-affirming, this incredible tale is proof that miracles really can happen...

David Rosenfelt's *Dogtripping* is moving and funny account of a cross-country move from California to Maine, and the beginnings of a dog rescue foundation. When mystery writer David Rosenfelt and his family moved from Southern California to Maine, he thought he had prepared for everything. They had mapped the route, brought three GPSs for backup, as well as refrigerators full of food, and stoves and microwaves on which to cook them. But traveling with twenty-five dogs turned out to be a bigger ordeal than he anticipated, despite the RVs, the extra kibble, volunteers (including a few readers), and camping equipment. Rosenfelt recounts the adventure of moving his animal companions across the United States with humor and warmth, and tells the tale of how he and his wife became passionate foster parents for rescue dogs, culminating in the creation of the Tara Foundation and successfully placing several thousand dogs with loving families. Remember Me? is a guidebook for owners of dogs who are losing their mental faculties as they age, and the story of a dog and owner who retained their bond through this most difficult situation.

"Whole food, real food, clean eating . . . home-prepared meals incorporating healthy ingredients are eminently do-able alternatives." —*The Bark* There's a reason why pets beg at the table—they want real food! Not the kibble manufactured by pet food companies, transformed beyond recognition, drained of natural nutrients, and a far cry from fresh meat, vegetables, and grain. If we as human beings are so dedicated to preparing healthy, homemade meals for ourselves in the comfort and safety of our own kitchens, shouldn't we be doing the same for our beloved pets? *Homemade Meals for Cats and Dogs* is a collection of more than fifty cat and dog food recipes that will teach you how to whip up a fresh, balanced meal for your hungry critters. Written by a veterinarian certified in food therapy and an advocate for pet food safety, these recipes are also based on the National Research Council requirements for dogs and cats. Debunk the myth that pet food companies are the only entities qualified to feed your pets. Instead, beat pet obesity, disease, and sickness by reaching into your pantry or refrigerator, turning on the stove, and starting to cook yourself! Making food at home will also decrease those exorbitant pet food bills. It's time to go back to the table. Know exactly what your pet is eating and serve it a variety of real food that it deserves. Be a responsible pet parent by balancing your pet's diet and pleasing its palate. Previously published under the title *Dinner PAWsible* "The recipes look good enough to eat for humans." —*The Conscious Cat* with Ingrid King

Chew on this. As humans, we have a deep need to believe . . . a need to relate to something greater and more ideal than ourselves. Perhaps that's why so many millions believe in Dog. Man's devotion to Dog has come to rival the great -isms and -ologies of the world. This thing has gone way beyond a hobby. We may not literally worship dogs, but we come pawfully close. This rabid reverence for Rover has a name: Dogtology. Dogtology is for the dog lover who has bailed on a date because they didn't want Twinkles to be left home alone. It is for the human whose dog owns a more festive holiday wardrobe than they do, whose pups dine on free-range bison burgers while they live off ramen, or whose smartphones have more photos of their dog than of the humans in their family. In this sacred dogtrine, the case is made that Dogtology has become a bone-a-fide belief system on par with the world's great philosophies and religions.

"I just feel better now Sox is here. Before, I felt like I wanted to die. I couldn't even go to parties. Then Sox came along. It feels like our hearts are connected – I love him so much." Toby When Toby Turner was excluded from school for the third time for hitting and kicking his teachers, his family hit rock bottom. Toby, who has autism, felt so upset by his own aggression, he told his parents they would be better off without him. Terrified, Toby's mum gave up her job as a nursery nurse to teach him at home while they found a place for him in a special school. Eventually, the only way the family could get Toby out of the house was by giving him headphones, sunglasses and a cap to block out the world. After a difficult few years, the family was thrown a lifeline by the charity Dogs for Good, which introduced Toby to Sox. The adorable three-year-old Labrador Golden Retriever was trained by the charity to help children with autism. Within two weeks, he had turned Toby's life around. Together, as a family unit, and with Sox by their side, the Turners have learned to enjoy life again.

The Thirteen American Arguments

The true story of a loveable rescue donkey who becomes a hero, perfect for animal lovers everywhere. Tracy Garton had run the Radcliffe Donkey Sanctuary for twenty years, creating a safe haven for more than sixty sick, unwanted and mistreated donkeys. But after a devastatingly difficult winter, with sky high bills, she didn't know if she could afford to carry on - or if she had the physical strength to keep going. Then, in the first week of January, the phone rang. A donkey had been abandoned 130 miles away. Rushing to his rescue Tracy found Alan - forlorn, balding and shivering - tethered up tightly in a supermarket car park. Barely able to walk on his painfully overgrown hooves, he had been left to die. Tracy ran her hands gently over Alan's protruding ribs, and whispered in his ear: 'Don't worry boy, I won't give up on you.' Over the next twelve months, as Tracy grappled with attacks from vandals and perilous flash floods and desperately tried to raise money, Alan gradually recovered - turning into a loveable rogue. As Christmas rolled around, Tracy was too worried about the future to enjoy the festive season. She had no idea that the shy skinny animal she'd rescued was going to give her the greatest gift of all . . . Alan The Christmas Donkey is a funny, warm and inspiring read.
