#1 New York Times bestselling author John C. Maxwell's latest book will enhance the lives of leaders, professionals, and anyone who wants to achieve success and personal growth. We often treat the word capacity as if it were a natural law of limitation. Unfortunately, most of us are much more comfortable defining what we perceive as off limits rather than what's really possible. Could it be that many of us have failed to expand our potential because we have allowed what we perceive as capacity to define us? What if our limits are not really our limits? In his newest book, John Maxwell identifies 17 core capacities. Some of these are abilities we all already possess, such as energy, creativity and leadership. Others are aspects of our lives controlled by our choices, like our attitudes, character, and intentionality. Maxwell examines each of these capacities, and provides clear and actionable advice on how you can increase your potential in each. He will guide you on how to identify, grow, and apply your critical capacities. Once you've blown the "cap" off your capacities, you'll find yourself more successful--and fulfilled--in your daily life.

New York Times best-selling author John C. Maxwell shows that talent is just the starting point for a successful impact in any organization. It's what takes you beyond your talent that matters. People everywhere are proving him right. Read the headlines, watch the highlights, or just step out your front door: Some talented people reach their full potential, while others self-destruct or remain trapped in mediocrity. What makes the difference? Maxwell, the go-to guru for business professionals across the globe, insists that the choices people make?not merely the skills they inherit?propel them to greatness. Among other truths, successful people know that: Belief lifts your talent. Initiative activates your talent. Focus directs your talent. Preparation positions your talent. Practice sharpens your talent. Perseverance sustains your talent. Character protects your talent. . . . and more! It's what you add to your talent that makes the greatest difference. With authentic examples and time-tested wisdom, Maxwell shares thirteen attributes you need to maximize your potential and live the life of your dreams. You can have talent alone and fall short of your potential. Or you can go beyond talent and stand out.

Relationships are at the heart of every positive human experience. Maxwell, a master communicator and relational expert, makes learning about relationships accessible to everyone. In the new edition of this widely praised text, Alan Aldridge examines the complex realities of religious belief, practice and institutions. Religion is a powerful and controversial force in the contemporary world, even in supposedly secular societies. Almost all societies seek to cultivate religions and faith communities as sources of social stability and engines of social progress. They also try to combat real and imagined abuses and excess, regulating cults that brainwash vulnerable people, containing fundamentalism that threatens democracy and the progress of science, and identifying terrorists who threaten atrocities in the name of religion. The third edition has been carefully revised to make sure it is fully up to date with recent developments and debates. Major themes in the revised edition include the recently erupted 'culture war' between progressive secularists and conservative believers, the diverse manifestations of 'fundamentalism' and their impact on the wider society, new individual forms of religious expression in opposition to traditional structures of authority, and the backlash against 'multiculturalism' with its controversial implications for the social integration of ethnic and religious minority communities. Impressive in its scholarly analysis of a vibrant and challenging aspect of human societies, the third edition will appeal strongly to students taking courses in the sociology of religion and religious studies, as well as to everyone interested in the place of religion in the contemporary world.

The Secret of Your Success Is Determined by Your Daily Agenda

We all have a longing to be significant. We want to make a contribution, to be a part of something noble and purposeful. But many people wrongly believe significance is unattainable. They worry that it's too big for them to achieve. That they have to have an amazing idea, be a certain age, have a lot of money, or be powerful or famous to make a real difference. The good news is that none of those things is necessary for you to achieve significance and create a lasting legacy. The only thing you need to achieve significance is to be intentional. And to do that, all you need to do is start. You can't make an impact sitting still and doing nothing. Every major accomplishment that's ever been achieved started with a first step. Sometimes it's hard; other times it's easy, but no matter what, you have to do it if you want to get anywhere in life. In INTENTIONAL LIVING, John Maxwell will help you take that first step, and the ones that follow, on your personal path through a life that matters.

A positive attitude comes easy in times of joy and progress. But the real test of character comes during times of turmoil and conflict--which are always just on the horizon. When the skies above appear stormy, how will you steer that internal plane we call attitude?In How High Will You Climb? bestselling author and pastor John C. Maxwell emphasizes that even in the worst of storms, we are never flying solo. With God supporting our approach in every challenge that comes our way, we have the power to choose--yes, choose--the attitude we take with us on our journey. Oftentimes our outward expression and attitude during conflict is every bit as critical as the inward struggle, and our approach to the struggles in our family, in work, in life in general will actually determine the outcome more than the actual struggle. The choice is yours--when your path brings you through your next storm, how high will you climb?

Most of us look at our days in the wrong way: We exaggerate yesterday. We overestimate tomorrow. We underestimate today. The truth is that the most important day you will ever experience is today. Today is the key to your success. Maxwell offers 12 decisions and disciplines--he calls it his daily dozen--that can be learned and mastered by any person to achieve success.

Learn how to maximize your potential in minimal time with this compact how-to book derived from No Limits by #1 New York Times bestselling author John Maxwell. Many of us hold ourselves back because we firmly believe our abilities are finite. But what if our supposed limitations are just an illusion? In THE POWER OF YOUR POTENTIAL John Maxwell identifies and examines the seventeen key capacities each of us possesses. Some we are born with, such as how we think or how we naturally relate to other people. The rest are choices, often unconscious, including our attitude or personal disciplines. All are expandable. Maxwell gives clear and actionable advice on what we can do to improve in each of these areas. From learning to manage your emotions and increase your energy, to conquering procrastination and becoming more comfortable with taking risks, you will surpass your own expectations to become a better you than you ever thought possible.

It's time to get over your self! Written by a clinical psychologist and student of Eastern philosophy, this handy little guide offers a radical solution to anyone struggling with self-doubt, self-esteem, and self-defeating thoughts: "no-self help." By breaking free of your own self-limiting beliefs, you'll discover your infinite potential. There is an insidious, global identity theft occurring that has robbed people of their very recognition of their true selves. The culprit--indeed the mastermind of this crisis--has committed the inside job of creating and promoting the idea that we are all a separate self, which is the chief source of our daily distress and dissatisfaction. No more than a narrative of personhood pieced together from disparate neural activations, the self we believe ourselves to be in our own minds--although quite capable of being affirming, inspiring, and constructive--often spews forth a distressing flow of worry and second-guessing, blaming and shaming, regret and guilt. This book offers an antidote to this epidemic of stolen identity, isolation, and self-deprecation: no-self (a concept known in Buddhist philosophy as anatta or anatman). The No-Self Help Book turns the idea of self-improvement on its head, arguing that the key to well-being lies not in the relentless pursuit of bettering one's self but in the recognition of the self as a false identity born in the mind. Rather than identifying with a small, relative sense of self, this book encourages you to embrace a liberating alternative--an expansive awareness that is flexible and open to experiencing life as an ongoing and ever-changing process, without attachment to personal outcomes or storylines. To help you make this leap from self to no-self, the book provides forty bite-sized chapters full of clever and inspiring insights based in positive psychology and non-duality--a philosophy that asserts there is no real separation between any of us. So, if you're tired of "self-help" and you're ready to explore who you are beyond the self, let The No-Self Help Book be your guide.

At the heart of John C. Maxwell's brilliant and inspiring book is a simple premise: To do well in life, we must first think well. But can we actually learn new mental habits? Thinking for a Change answers that with a resounding "yes" -- and shows how changing your thinking can indeed change your life. Drawing on the words and deeds of many of the world's greatest leaders and using interactive quizzes, this empowering book helps you assess your thinking style, guides you to new ones, and step by step teaches you the secrets of: Big-Picture Thinking -- seeing the world beyond your own needs and how that leads to great ideas. Focused Thinking -- removing mental clutter and distractions to realize your full potential. Creative Thinking -- stepping out of the "box" and making breakthroughs. Shared Thinking -- working with others to compound results. - Reflective Thinking -- looking at the past to gain a better understanding of the future ...and much more. Here America's most trusted and admired motivational teacher examines the very foundation of success and self-transformation. Illuminating and life-changing, Thinking for a Change is a unique primer not on what to think, but how to best use one of your most precious possessions: your mind.
