It's time for reading and learning how TOEFL candidates reached very high scores in Writing Test. - Additionally, Writing topics could be repeated several times each year. - The valuable papers for any TOEFL candidates included all features of Academic Writing. + Complexity Written language is relatively more complex than spoken language. Written language has longer words, it is lexically more dense and it has a more varied vocabulary. It uses more

noun-based phrases than verb-based phrases. Written texts are shorter and the language has more grammatical complexity, including more subordinate clauses and more passives. + Formality Academic writing is relatively formal. In general this means that in an essay you should avoid colloquial words and expressions. + Precision In academic writing, facts and figures are given precisely. + Objectivity Written language is in general objective rather than personal. It therefore has fewer words that refer to the writer or the reader. This means that the main emphasis should be on the information that you want to give and the arguments you want to make, rather than you. For that reason, academic writing tends to use nouns (and adjectives), rather than verbs (and adverbs). + Explicitness Academic writing is explicit about the relationships in the text. Furthermore, it is the responsibility of the writer in English to make it clear to the reader how the various parts of the text are related. These connections can be made explicit by the use of different signalling words. + Accuracy Academic writing uses vocabulary accurately. Most subjects have words with narrow specific meanings. Linguistics distinguishes clearly between "phonetics" and "phonemics"; general English does not. + Hedging In any kind of academic writing you do, it is necessary to make decisions about your stance on a particular subject, or the strength of the claims you are making. Different subjects prefer to do this in different ways. A technique common in certain kinds of academic writing is known by linguists as a 'hedge'. + Responsibility In academic writing you must be responsible for, and must be able to provide evidence and justification for, any claims you make. You are also responsible for demonstrating an understanding of any source texts you use.
