A Guide to Law Firm Retirement and Succession Planning
Don't wait for a crisis. Maintain business continuity with a succession plan. One hundred percent of top global companies—and 72 percent of all companies—have a formal succession planning process. If your company is in the minority, a move in the right direction is easier than you may think. Authored by talent development experts Wanda Piña-Ramírez and Norma Dávila, this workbook highlights the importance of knowledge transfer in a time of fierce competition for talent, an aging workforce, and a critical shortage of people with the right set of skills. Indispensable for the CEO as well as the small business owner, Passing the Torch presents stories from the boardroom to the family-owned bakery, and from the car dealership to the beach resort hotel. This is a book for all with a stake in maintaining the livelihood of a business and contains templates to guide you through the seven steps of the succession planning life cycle. In this book, you will learn: why all companies, regardless of industry or size, must create a succession plan how to create a business case to guide your company through the succession planning life cycle how to identify key positions and retain key people in your company

For law firms, succession is a fact of life: founding partners retire, rainmakers depart, and in the meantime, client relationships must be preserved. Passing the Torch without Getting Burned: A Guide to Law Firm Retirement and Succession Planning is a comprehensive examination of the key economic issues typically encountered by law firms when they consider how partners end their careers, as they inevitably must. Peter Giuliani, an experienced law-firm management consultant, illustrates common retirement issues and their resolutions through "real life" case studies from his years of consulting experience.
This book is an illustrated collection of short stories and memories of a Zimbabwean Professional Guide who loves what he does! All of the stories are factual accounts, that happened to me, except the one about Alistair Hull, a close colleague. These stories were about incidents that happened to me during the early years of eco-tourism in Zimbabwe, prior to 2000. All of the photographs (except where indicated) were collected by myself at different times during this period, and I have attempted to present them in a sequence similar to the stories.

Written by a field insider with more than 20 years of experience in the development and application of atomic spectroscopy instrumentation, the Practical Guide to ICP-MS offers key concepts and guidelines in a reader-friendly format that is superb for those with limited knowledge of the technique. This reference discusses the fundamental principles, analytical advantages, practical capabilities, and overall benefits of ICP-MS. It presents the most important selection criteria when evaluating commercial ICP-MS equipment and the most common application areas: clinical, nuclear, food, metallurgical, and petrochemical industries.
What is the S.E.L.F.? The S.E.L.F. is the sacred eternal life force, which is the spark that in turn gives birth to the S.O.U.L, which is the space of unlimited light. There is no man above or beneath in essence, however, there are those great Avatars who willingly descend into this Third Density for a Five-Fold Purpose: To Elevate, To Protect, To Inform, To Uplift, and To Inspire. This work was compiled for the sole purpose of helping cleanse the "Throne of God," which is your consciousness that is housed and functions via your beautiful Mind, Body, and Soul. This is the falsehood which are the results of lower-self vibratory frequency. Love cannot be destroyed, Truth cannot be hidden, Peace cannot be disturbed, Freedom won't be caged, and Justice finds All. Wa Alaikum As Salaam and Honors to the Prophet, Sheik Shariff Abdul Ail.
