A complete overview  
of distant automatic  
speech recognition

## Read Free Total Quality

The performance of conventional Automatic Speech Recognition (ASR) systems degrades dramatically as soon as the microphone is moved away from the mouth of the speaker. This is due to a broad variety of effects such as background noise, overlapping speech

## Read Free Total Quality

from other speakers,  
and reverberation.

While traditional ASR  
systems

underperform for  
speech captured with  
far-field sensors,  
there are a number  
of novel techniques  
within the

recognition system  
as well as techniques  
developed in other  
areas of signal
