Traces a young man's effort to escape the dangers of the streets and his own nature after graduating from Yale, describing his youth in violent 1980s Newark, efforts to navigate two fiercely insular worlds and life-ending drug deals. 75,000 first printing.

Jacek Lidwin presents "Unknown People", a book containing 126 black and white street portraits. This book highlights provoking and contemporary examples of the medium of portraiture. Jacek is trying to express his perspective on individuals, unknown people who he meets in the streets of Poland. His art

illustrates Osho's words: "We are born alone, we live alone and we die alone. Aloneness is our very nature but we are not aware of it". He is inspired by street photography of Robert Frank, Henri Cartier-Bresson, Robert Doisneau.

Since its first publication in 1972, more than 30,000 blue-water sailors have looked to this book when injury or illness struck at sea. Virtually every accident or ailment that might occur when professional medical care is unavailable is squarely faced and dealt with, using laymans language and step-by-step instructions that calmly take the reader from diagnosis through treatment to follow-up care. The fifth edition brings this standard work up-to-date with current medical practice. While maintaining its ease of use for quick, easy reference in case

of a medical emergency at sea, diagrams inside the front and back covers point the reader to the appropriate section of the book. Each section starts with a short account of a possible accident or sickness that might occur on a voyage, and then lists the steps to be taken by the caregiver. Photographs and diagrams accompany many of the procedures. Separate chapters are devoted to preparing a crew and the boat's medical chest for long cruises, including lists of drugs for which prescriptions are needed. A number of chapters deal with the unique needs of children.

William Etty was English painter, one
of the few British artists to specialize
almost exclusively in the nude. He
spent most of his career in London.
Etty's paintings are often of
mythological or historical subjects,
sometimes on an ambitious size, but
he also made life studies throughout
his career, and these are now
probably his most admired works. He

was often attacked for the alleged indecency of his work, The Times considering it 'entirely too luscious for the public eye'. However, by the time of his death he was wealthy and respected. He summed up his attitude to his favourite subject thus: 'Finding God's most glorious work to be Woman, that all human beauty had been concentrated in her, I dedicated myself to painting—not the Draper's or Milliner's work—but God's most glorious work, more finely than ever had been done.' His draughtsmanship is often criticized, but it is generally agreed that he attained a glowing voluptuousness in the painting of flesh that few British artists have ever approached.

nationally renowned attorney whose practice is limited to the complex legal aspects of these kinds of securities; it is a concise, easily understood and practical guide on how to proceed. It contains all the basics you need to grasp in the US Securities and Exchange Commission (SEC) regulations governing this kind of investment. The text includes details of the SEC's rules governing the Jobs Act. Long term, this federal legislation is likely to be a game-changer in the syndication of commercial real estate. Regulation A+, finalized just before publication, may provide an important new capital-raising option for smaller companies. The portion of the Act that has been in force since September 2013, allowing for public advertising of fundraising, is also thoroughly examined. Author Gene Trowbridge,

With the resurgence of vinyl going from strength to strength, album cover art is as important as it's ever been. This sumptuous book brings together 250 of the greatest album covers of all time and is arranged chronologically, beginning in 1956. Our judging panel, drawn from the great and the good of the music industry, has selected the final 275 entries, giving their reasons for selection to accompany the illustrations. From rock 'n' roll to pop, R&B to jazz, blues and even folk, some of the album covers included are obvious classics, while others will surprise readers and jog

This fascinating book forms a wonderful visual record of this popular art form, and is an essential read for music fans the world over. This book is primarily concerned with the classical music catalog of Mercury Living Presence recordings recorded and published by the Mercury Record Corporation. performances of classical music. But this is not a history of Mercury records or even of the Living Presence series of recordings. My main focus was to create a list of all the Mercury Living Presence classical records. I am mostly interested in the stereo recordings, but there are also many earlier mono recordings of great interest, too, so I have included those also. Specifically, what is included is information on the SR 90000 series of stereo recordings and the MG 50000 series of mono recordings, but there is also a listing of the Wing

***** Decades ago, when I began collecting Mercury records, and years later when I started collecting the CDs, I was looking for a complete list of all the Mercury Living Presence records and later the CDs. Though I found some information that was helpful, to get what I wanted, I had to make the list myself. I started with lists of records on the record sleeves of the albums, got some information from The Absolute Sound! magazine, and in the internet age, found useful information on several internet sites, but mostly

to get the list I wanted, I had to dig up the information and build it myself. Having completed the list, it occurred to me that other collectors might find it helpful, too. So I put together a group of databases and spreadsheets in Microsoft Excel and Microsoft Works database format files and issued the databases I had created on a CD-rom disc in early 2013. By that time I had all the original series of CDs mastered by Wilma Cozart Fine, and many of the records that had been reissued on CD, and virtually all of the stereo records not issued on CD,

plus most of the mono records in which I had a strong interest. Now it is available as a book. Among other things it includes the following lists: Complete Mercury Living Presence CDs, including every CD, with its track information, identifying Composer, title, soloist, conductor, orchestra, CD #, LP where originally published, and recording date. Complete Mercury Living Presence LPs including every LP with its track information identifying Composer, title, soloist, conductor, orchestra, LP #, CD on which it was reissued if any, and recording date. Different

versions of the files are arranged by: Composer and Title, Recording Date, Record number, and CD number. There are also a listings of LPs and LP tracks that have not been reissued in the Mercury Living Presence CD series. Included are listings of all original Mercury Living Presence records in the SR 90000 and MG 50000 series, all CDs originally mastered by Wilma Cozart Fine, all SACDs, and the more recent reissues and new issues in the large 50+ CD box sets and the 10-CD box sets of Marcel Dupré and Janos Starker. Tara Malone is having one of those lives. Born to Oscar award-winning actor, Anthony Malone, and model-famous beauty, Veronica Scott, she should have it made. But her curvy figure and out-of-control frizzy red hair are just the start of her many, many issues. Now to make matters

worse, she's started out her week by running over model, Justin James, with her car. She had a lot of fantasies about the cover model, but never did any of them include vehicular assault. Justin James doesn't have time for two broken wrists, but neither does his over-achieving family. He can't open up his fridge or unzip his fly without excruciating pain and no one else has the time to help him. Tara already shot him down at the accident scene, but maybe he can work this so that the curvy bombshell has a reason to hang around for a bit. He's not above using guilt if it means he gets to know her better. The first in a new series of novellas inspired by Shauna Kruse's photography and her beautiful male

A celebration of the

Italian spirit! This edition of AN ITALIAN JOURNEY includes over forty beautiful photographs of the gorgeous Tuscan countryside. The story begins with a girl. Then it was Italian food. After that it was books and discovering that even Mark Twain had fallen for Italy. E.M. Forster was smitten too: Love and understand the Italians, for the people are more marvelous than the land. WHAT IS IT ABOUT ITALY AND ITALIANS? Italian movies immortalize the

mystique. Fellini called it La Dolce Vita. Tornatore's Cinema Paradiso took James Shaw back to the sweet memories of his childhood and the Italian family who operated the hometown theater. And just like in the movie, young James had an Alfredo who, by example, taught him about serving people. James learned that Italians don't feel they're special. Luigi Barzini, author of The Italians, repeatedly asked, Why are we the way we are? and found

no conclusive answer. But James was convinced there was a reason why the Renaissance was born in Tuscany and Italy has given the world Saint Francis, Michelangelo, da Vinci, Galileo and now Benigni, whose film Life Is Beautiful showed the world that the Italian zest for living can even make a heaven of a hell. And so, after a lifetime of thinking about Italy James became convinced that the way to find out why Italians are the way they are, would be to eat

with them at their kitchen tables. Day after day he picked their olives and the Italians began treating him like family. And James began seeing their unique human quality that attracts people to Italy and keeps pulling them back again and again. But the story doesn't end in the olive groves of Tuscany. To discover the heart of Italian life, James had to travel back to World War II Italy. An Italian Journey will inspire you to follow your passions, your

December 1937, one of the most horrific atrocities in the long annals of wartime barbarity occurred. The Japanese army swept into the ancient city of Nanking (what was then the capital of China), and within weeks, more than 300,000 Chinese civilians and soldiers were systematically raped, tortured, and murdered. In this seminal work, Iris Chang, whose own grandparents barely escaped the massacre, tells this history from

three perspectives: that of the Japanese soldiers, that of the Chinese, and that of a group of Westerners who refused to abandon the city and created a safety zone, which saved almost 300,000 Chinese. Drawing on extensive interviews with survivors and documents brought to light for the first time, Iris Chang's classic book is the definitive history of this horrifying episode. foreshadowing the Taliban's recapture of Afghanistan, by Washington Post reporter and three-time Pulitzer Prize finalist Craig Whitlock. Unlike the wars in Vietnam and Iraq, the US invasion of Afghanistan in 2001 had near-unanimous public support. At first, the goals were straightforward and clear: defeat al-Qaeda and prevent a repeat of 9/11. Yet soon after the United States and its allies removed the Taliban from power, the mission veered off course and US officials lost sight of their original objectives. Distracted by the war in Iraq, the US military become mired in an unwinnable guerrilla conflict in a country it did not understand. But no

president wanted to admit failure, especially in a war that began as a just cause. Instead, the Bush, Obama, and Trump administrations sent more and more troops to Afghanistan and repeatedly said they were making progress, even though they knew there was no realistic prospect for an outright victory. Just as the Pentagon Papers changed the public's understanding of Vietnam, The Afghanistan Papers contains "fast-paced and vivid" (The New York Times Book Review) revelation after revelation from people who played a direct role in the war from leaders in the White House and the Pentagon to soldiers and aid workers on the front lines. In

unvarnished language, they admit that the US government's strategies were a mess, that the nation-building project was a colossal failure, and that drugs and corruption gained a stranglehold over their allies in the Afghan government. All told, the account is based on interviews with more than 1,000 people who knew that the US government was presenting a distorted, and sometimes entirely fabricated, version of the facts on the ground. Documents unearthed by The Washington Post reveal that President Bush didn't know the name of his Afghanistan war commander—and didn't want to meet with him. Secretary of Defense
