Not only is Doctor Who the longest-running science fiction TV show in history, but it has also been translated into numerous languages, broadcast around the world, and referred to as the “way of the future” by some British politicians. The Classic Doctor Who series built up a loyal American cult following, with regular conventions and other activities. The new series, relaunched in 2005, has emerged from culthood into mass awareness, with a steadily growing viewership and major sales of DVDs. The current series, featuring the Eleventh Doctor, Matt Smith, is breaking all earlier records, in both the UK and the US. Doctor Who is a continuing story about the adventures of a mysterious alien known as “the Doctor,” a traveller of both time and space whose spacecraft is the TARDIS (Time and Relative Dimensions in Space), which from the outside looks like a British police telephone box of the 1950s. The TARDIS is “bigger on the inside than on the outside”—actually the interior is immense. The Doctor looks human, but has two hearts, and a knowledge of all languages in the universe. Periodically, when the show changes the leading actor, the Doctor “regenerates.”

During the Summer of 1977, I completed an expedition of the Alaskan Yukon River. During this expedition, an angel shared a personal message from God, and the message contained more than words. A holy presence filled my being, and broadened my perspective. I was enveloped in a perfect love that made me one with God and creation. God invites everyone to have a similar experience. Since that moment, I have hitchhiked across the country, investigating various religions. I taught school in the mountains of Honduras. I created a business, employing people with special physical and mental challenges. I studied theology in graduate school. I became a husband, a father, and a grandfather. Today I serve as an ordained minister in the United Methodist Church. I have canoeed more than 5,000 miles, and every stroke is a meditation. Today, my every thought, word, and deed are devoted to God.

Touched by Angels of Mercy contains small doses of genuine life, from nurses, patients and caregivers, that touch the heart and foster healing. This collection of short stories and poems, interspersed with tasteful cartoons, contains helpful resource information, as well as a brief biography of each contributing author. Many of the works in this collection offer a glimpse into the nurse-patient relationship, as seen through the eyes of the patient, nurse or family member. Some of the stories reveal caregiving scenarios taken from brief moments in history, behind prison walls or even on a golf course. Anyone may be labeled an “Angel of Mercy.” This term is not exclusive to nurses. Our world needs the healing “angels” who come to us in a variety of forms, when and where we least expect them. At some time in our lives, each one of us will encounter illness, pain and death. Along with it will come the need for a helping hand and the gentle, caring touch of an “angel of mercy.” Everyone has the ability to be courageous, tenacious and loving. When people are hurting, whether from illness, injury or other reasons, they have the instinctive need to be touched and nurtured. People also have the need and desire to share their experiences with others. This process of sharing is frequently healthful and therapeutic. The strength, knowledge and inspiration that comes from recounting personal life and death experiences with one another stimulates healing. The profession of nursing deals with the prevention of illness, as well as the care and rehabilitation of the sick. Although it takes a special person to answer this “calling,” todays nurses are vastly different from those of yesteryear. The changing world of healthcare has created unique challenges and added pressures for nursing, but it has also created new frontiers. In addition, there is a growing number of caregivers in our society. Caregivers often feel isolated, apprehensive, exhausted and overwhelmed. They desperately need relief as well as ongoing support. Nurses and caregivers reach out and become “angels” for others. They are compassionate, intelligent and caring beings that provide hands-on care to help the sick to heal, or comfort them as they die. Nurses and caregivers are not invincible; they also need to take care of themselves. The need to be touched by another, and to share personal experiences, are universal human requirements. The strength, knowledge and inspiration that comes from recounting personal life and death experiences fosters healing. Wounds heal from the inside out—so does the heart and soul. Writing these stories has been a therapeutic experience for our authors, and for some, an extremely difficult task. It is our hope that by reading and sharing these real-life, personal experiences, you too will be touched, inspired and healed.

This book examines the most popular American television shows of the nineties—a decade at the last gasp of network television’s cultural dominance. At a time when American culture seemed increasingly fragmented, television still offered something close to a site of national consensus. The Lonely Nineties focuses on a different set of popular nineties television shows in each chapter and provides an in-depth reading of scenes, characters or episodes that articulate the overarching “ideology” of each series. It ultimately argues that television shows such as Seinfeld, Friends, Law & Order and The Simpsons helped to shape the ways Americans thought about themselves in relation to their friends, families, localities, and nation. It demonstrates how these shows engaged with a variety of problems in American civic life, responded to the social isolation of the nineties, and occasionally imagined improvements for community in America.

The flame of love burns bright in the second book of Sharon M. Draper’s award-winning Hazelwood High trilogy. When Gerald was a child he was fascinated by fire. But fire is dangerous and powerful, and tragedy strikes. His substance-addicted mother is taken from him. Then he loses the loving generosity of a favorite aunt, and a brutal stepfather with a flaming temper and an evil secret makes his life miserable. The one bright light in Gerald’s life is his little half sister, Angel, whom he struggles to protect from her father, who is abusing her. Somehow Gerald manages to finds success as a member of the Hazelwood Tigers basketball team, and Angel develops her talents as a dancer, despite the trouble that still haunts them. And Gerald learns, painfully, that young friends can die and old enemies must be faced. In the end he must stand up to his stepfather alone in a blazing confrontation. In this second book of the Hazelwood High trilogy, Sharon M. Draper has woven characters and events from Tears of a Tiger in an unflinchingly realistic portrayal of poverty and child abuse. It is an inspiring story of a young man who rises above the tragic circumstances of his life by drawing on the love and strength of family and friends.

Harry Potter, Buffy the Vampire Slayer, and the Left Behind series are but the latest manifestations of American teenagers’ longstanding fascination with the supernatural and the paranormal. In this groundbreaking book, Lynn Schofield Clark explores the implications of this fascination for contemporary religious and spiritual practices. Relying on stories gleaned from more than 250 in–depth interviews with teens and their families, Clark seeks to discover what today’s teens really believe and why. She finds that as adherence to formal religious bodies declines, interest in alternative spiritualities as well as belief in “superstition” grow accordingly. Ironically, she argues, fundamentalist Christian alarmism about the forces of evil has also fed belief in a wider array of supernatural entities. Resisting the claim that the media “brainwash” teens, Clark argues that today’s popular stories of demons, hell, and the afterlife actually have their roots in the U.S.’s religious heritage. She considers why some young people are nervous about supernatural stories in the media, while others comfortably and often unselfconsciously blur the boundaries between those stories of the realm beyond that belong to traditional religion and those offered by the entertainment media. At a time of increased religious pluralism and declining participation in formal religious institutions, Clark says, we must completely reexamine what young people mean—and what they may believe—when they identify themselves as “spiritual” or “religious.” Offering provocative insights into how the entertainment media shape contemporary religious ideas and practices, From Angels to Aliens paints a surprising—and perhaps alarming—portrait of the spiritual state of America’s youth.

First Book of The Angel Guidance Series I always wanted to make an angel card deck of my own and the angels definitely heard my request. They inspired me to write poetic verses intuitively. I felt the power of eternity behind these simple words and the grounding they gave me was immense. Peace and healing followed, and I wanted to share these marvelous effects with others. I was blown away by the result. So, this my free gift to you or, I should say, it’s the angels’ free gift to you.How This Is Angel Therapy for Me and YouBefore I made the angel meditations into my own angel cards, I used to do readings while they were still in my writing pad. I numbered them one through sixty or so and would ask people to pick three random numbers. Sometimes I would get them to pick more cards. They were equally blown away by the accuracy they received. And just as these angelic words touched my heart and soul, so they touched those of others. You could say they’re angel cards since they bring the abundance of God’s love for us through His angels. They’re true angelic words and a great companion on our spiritual journey.This angel wealth left me wondering if I could make a book out of my angel card deck, and that’s how this book came about. I pray it acts as an angel of manifestation book, revealing the angelic presence of which so many people stand in need. When we experience our guardian angels close to us we immediately feel relieved and comforted. This is angel healing in action. A Spiritual Angel Book This spiritual angel book is comprised of some of the verses from my own card deck as previously said, and, to help you focus on them better, I added little reflections after each one. Additionally, I finished with short angel prayers too. It’s my hope that you will experience loving angel guidance through the use of these little meditations or angel poetry. I certainly feel them close when I use them. I also pray that these angel prayers will act as an angel detox for your soul and work angel miracles in your lives so that you experience heaven on earth. The power of the angels (God given) is amazing and they can help bring you comfort, guidance, healing and peace through the use of their words. Likewise, I pray for a spiritual awakening for those who are spiritually tepid. May the healing words of their angels guide them to a renewed way of spiritual living. Testimonies "Andrew showed us all how to get in touch with our angels and develop a friendship with them. Some of us felt our angels present and one of us got their angel’s name. Two of us present were recently bereaved and Andy helped us connect with our deceased loved ones. One was a lad who died tragically. It was healing to experience his presence and how happy he is now. Some of us also felt confirmation in what we are meant to be doing with our lives and some guidance in with difficult life issues. Andrew really helped and encouraged us. We certainly felt the healing of the angels that night." –Mary McLaughlin, Peter, Clara and Chris Hullen"Andrew has both read my angel cards and drew my life purpose angel. I was both intrigued and excited as to what to expect. Andy’s wacky sense of humour and kindness helped me be at ease. I was surprised and spellbound by such a lovely picture he produced. I felt an immediate connection. The card reading was also very accurate and some of what we discussed at our meeting is coming about." Ronah Corcoran"Andy and I took to each other immediately. Both of us talk a lot and have a similar sense of humour. Andy drew one of my angels, which is a life’s change angel. She’s with me for only a certain period of my life and am thankful to have her. I’d recommend Andy to anybody. He’s definitely gifted. The angels are truly with him." Mary Mc Lean
