A sober hedonist's guide to living a decadent, wild, and soulful life--alcohol-free. In a culture where sipping "rosé all day" is seen as the epitome of relaxation, "grabbing a drink" the only way to network; and meeting at a bar the quintessential "first date," many of us are left wondering if drinking alcohol really is the only way to cultivate joy and connection in life. Jardine Libaire and Amanda Eyre Ward wanted to live spontaneous and luxurious lives, to escape the ordinary and enjoy the intoxicating. Their drinking, however, had started to numb them to the present moment instead of unlocking it. Ward was introduced to Libaire when she first got sober. As they became friends, the two women talked about how they yearned to create lives that were Technicolor, beautifully raw, connected, blissed out, and outside the lines . . . but how? In *The Sober Lush*, Libaire and Ward provide a road map for living a lush and sensual life without booze. This book offers ideas and instruction for such nonalcoholic joys as: • The allure of "the Vanish," in which one disappears early from the party without saying goodbye to a soul, to amble home under the stars • The art of creating zero-proof cocktails for all seasons • Having a fantastic first date while completely sober • A primer on setting up your own backyard beehive, and honey tastings For anyone curious about lowering their alcohol consumption or quitting drinking altogether, or anyone established in sobriety who wants inspiration, this shimmering and sumptuous book will show you how to keep indulging in life even if you stop indulging in alcohol. DISCIPLE IV UNDER THE TREE OF LIFE is the final

study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video

segments emphasizes the simpler life of New Testament times.

Biology of Humans

Saving Sri Lanka's Street Dogs

Mason Williams is on his junior high school swim team, and he has always been fast at the short distances, but if he wants to compete in the longer races he will need to work on his

endurance--so his best friend suggests that he train in the nearby lake. Four original stories from some of fantasy's most exciting authors, featuring assassins, faerie, hauntings, and more.

Known for its unique "Special Topic" chapters and emphasis on everyday health concerns, the Fifth Edition of *Biology of Humans: Concepts, Applications, and Issues* continues to personalize the study of human biology with a conversational writing style, stunning art, abundant applications, and tools to help you develop critical-thinking skills. The authors give you a practical and friendly introduction for understanding how their bodies work and for preparing them to navigate today's world of rapidly expanding--and shifting--health information. Each chapter now opens with new "Did You Know?" questions that pique your interest with intriguing and little-known facts about the topic that follows. The Fifth Edition also features a new "Special Topic" chapter (1a) titled "Becoming a Patient: A Major Decision," which discusses how to

select a doctor and/or a hospital, how to research health conditions, and more.

'Janey is like a whirlwind of selflessness. A beautiful spirit in a beautiful country doing a beautiful thing. I encourage my children to be more 'Janey'. With more positive spirits like Janey, the world would be a better place.' - Ben Fogle In 2014 and in her mid-twenties, Janey Lowes had been a vet for just two years when she left her home in County Durham and went travelling. Visiting Sri Lanka, she was horrified to see the state of so many of the island's dogs, in particular the three million strays. Over 5,000 miles from home, Janey decided there and then that she was going to move to the island indefinitely and do everything within her power to help them. She raised £10,000 to get started, setting up a charity called WECare Worldwide, and began work. Frightened, determined and excited all at the same time, she found a local who was willing to work with her and began scouring the streets for dogs in need. Some she patched up as

best she could at the roadside, others she brought back and treated in a makeshift surgery she had cobbled together in her new home. With very little equipment, she and her small team came up with new and ingenious ways to treat the animals. In this highly inspiring and heartfelt book full of challenges and adventure, Janey introduces us to her world and the tireless work she carries out. As she says, 'I feel as though all these dogs are my dogs and I have a responsibility to them.' In it, we meet many of the colourful characters who have come to offer help, along with innumerable street dogs who have suffered all sorts of trauma and injury, only to be scooped up by Janey and her team and saved.

The Book of L

This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid

Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been commonly referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant. Dark. "Like Muir himself, *Essential Muir* packs an astounding range of experience into a lithe frame: ecstatic yet scientific descriptions of Yosemite; the heartrending tale of that "wee, hairy, sleekit beastie," Stickeen; reflections on the society of Eskimos; Muir's touching tribute, after a lifetime of wonder, to the mighty baobab trees of Africa; and more. Fred D. White's selection from Muir's writings, and his illuminating commentary, reveal the coherence and drama of a remarkable life: new readers will understand why Muir has become an American icon, and readers who are familiar with his work will be delighted with this fresh look. Muir's fierce love of all of nature, from squirrels to glaciers (but perhaps not sheep), continues to inspire us nearly a century after his death."--Book jacket.

construction but also inspiring ideas for projects you may want to design from the ground up. Warnock.Is toleration a requirement of morality or a dictate of prudence? What limits are there to toleration? What is

required of us if we are to promote a truly tolerant society? These themes - the grounds, limits, and requirements of toleration - are central to this book, which presents the W. B. Morrell Memorial Lectures on Toleration, given between 1981 and 1987 at the University of York. The lectures cover a wide range of practical and theoretical issues. They consider the philosophical difficulties inherent in the concept as well as the practical problems of implementing a policy of toleration. Although the contributors differ in their conclusions about the grounds of toleration, they all share a belief in the importance of the concept both historically and in modern British society.

Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who

saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.
