This study chronicles the success of the Japanese car in America. Starting with Japan’s first gasoline-powered car, the Takuri, it examines early Japanese inventors and automotive conditions in Japan; the arrival of Japanese cars in California in the late 1950s; consumer and media reactions to Japanese manufacturers; what obstacles they faced; initial sales; and how the cars gained popularity through shrewd marketing. Toyota, Honda, Datsun (Nissan), Mazda, Subaru, Isuzu, and Mitsubishi are profiled individually from their origins through the present. An examination follows of the forced cooperation between American and Japanese manufacturers, the present state of the industry in America, and the possible future of this union, most importantly in the race for a more environmentally-sound vehicle.

A Globe and Mail bestseller! • Dr. Phil, “Canada’s best-known automotive expert, and George Iny walk you through another year of car buying. After almost fifty years and two million copies sold, Phil Edmonston has a co-pilot for the Lemon-Aid Guide — George Iny, along with the editors of the Automobile Protection Association. The 2018 Lemon-Aid features comprehensive reviews of the best and worst vehicles sold since 2007. You’ll find tips on the “art of complaining” to resolve your vehicular woes and strategies to ensure you don’t get squeezed in the dealer’s business office after you’ve agreed on a price and let your guard down. And to make sure you receive compensation where it’s due, Lemon-Aid’s unique secret warranties round-up covers manufacturer extended warranties for performance defects. Lemon-Aid is an essential guide for careful buyers and long-time gearheads (who may not know as much as they think).

The best financial planner Michelle Singletary ever knew was Big Mama, her grandmother. Big Mama raised Michelle and her four brothers and sisters on a salary that never reached more than \$13,000 a year. Yet at her death, Big Mama owned her own home, had paid off a car loan, and had a beautiful collection of Sunday-go-to-meeting church hats and a savings account that supplemented her Social Security check and small pension. Most important, she had taught Michelle “7 Money Mantras for a Richer Life.” Those mantras serve as the inspiration for this straight-talking book of practical personal financial advice that really works. The 7 Money Mantras are: 1. If it’s on your ass, it’s not an asset! 2. Is this a need or is it a want? 3. Sweat the small stuff. 4. Cash is better than credit. 5. Keep it simple. 6. Priorities lead to prosperity. 7. Enough is enough. Michelle Singletary is a syndicated columnist for The Washington Post whose popular personal finance column appears in more than 120 newspapers. She’s also a mother of three children who understands what it’s like to live on a budget. In a plainspoken, sassy, no-nonsense voice, Michelle provides answers to the financial issues that confront almost every household: how to teach children the value of money; how to address money issues in a relationship or marriage; household saving tips; getting the best loans; and much more. “This book is about saving enough money to have choices,” she writes. “It’s about feeling free to be cheap if you can’t afford to buy a ton of gifts at Christmas. It’s about eliminating wasteful spend-ing so you can begin to save and invest. It’s full of uncommon commonsense lessons and guidance on the way people should use their money.” With humor and down-home financial wisdom, Michelle Singletary offers practical and realistic advice that will help you live well with the money you have. Michelle Singletary on... Romance and Money “It’s okay to say, ‘Honey, I love you and everything, but if you need money, ask your mama.’” Credit Cards “We are minimizing our financial potential by making minimum credit-card payments.” Car Buying “If you want to save money, keep your car until you’re on a first-name basis with the local tow-truck drivers.” Leasing a Car “You, too, can drive a car you can’t afford and then have to give it back. It’s crazy.” Gift Giving “Generosity isn’t about how much you spend. It’s about how much thought you put into the gift.” Penny Pinching “I once bought a stick-shift car because it was \$1,000 cheaper than the automatic in the same model. There was just one little problem. I couldn’t drive a stick-shift. But at least I saved \$1,000!”

Clinical psychology is a quickly growing profession, yet it is a challenging one: the preparation is arduous, the training is highly selective, and the results – an established and financially successful practice – are not easy to achieve. This book explains how to prepare for and surmount all of the hurdles presented to those who hope to eventually develop a lucrative and rewarding practice in clinical psychology. It is the first of its kind to focus primarily on financial success, though it does also look at the personal stresses and rewards of the profession. The author provides tips from his own experience and from other financially successful private practice psychologists and offers business techniques and pointers that are not explained in training programs. Undergraduate students contemplating a career in psychology will find advice on preparing for the GRE, applying to graduate schools, and getting involved in research and clinical work. For graduate students, an overview of a graduate clinical psychology program, preparing and completing a dissertation, and gaining experience in psychological testing are provided. Chapters then focus on how to build and manage a private practice, the best ways to manage personal and business finances, and how to practice good self-care. Additionally, the book includes a chapter by an expert on student-loan repayment that examines how to best work through the process of paying back student loans while building a practice.

Case Studies in Crisis Communication: International Perspectives on Hits and Misses was created to fill the gap for a much-needed textbook in case studies in crisis communication from international perspectives. The events of September 11, 2001, other major world crises, and the ongoing macroeconomic challenges of financial institutions, justify the need for this book. While existing textbooks on the subject focus on U.S. corporate cases, they may not appeal equally to students and practitioners in other countries, hence the need to analyze cases from the United States and from other world regions. The variety and the international focus of the cases, be they environmental, health or management successes or failures, makes this book more appealing to a wider audience. These cases examine socio-cultural issues associated with responding to a variety of crises.
