Very little is known in the West about Tibetan Buddhism in comparison with other eastern religions. This is partly because the vast literature which it has produced, and which illuminates its history, is still far from accessible. In addition there exists a deep division between monastic Lamaism and religion as it is lived by the people: the former is fragmented into many schools, while the latter shows numerous regional variations. The first comprehensive account of Tibetan Buddhism to be published in English since Waddell's "Buddhism of Tibet" appeared in 1894, this transtation is certain to become the standard reference work on the subject.

The Money Advice Service is not currently fit for purpose. The Committee considered whether to recommend that the MAS be scrapped completely but given that the Treasury had already announced its intention to conduct a review of the MAS they granted a stay of execution. They asked the Government to expedite this review and recommended that it should be independent, rather than led by the Treasury. The review must assess whether the MAS should continue to exist and, if so, how it can overcome the serious problems discussed. The current management of the MAS should also explain how they are going to act on the concerns identified. The independent review should seek to answer the following questions: Should the Money Advice Service-or something like it-exist as a statutory

organisation? If so, what should the role and strategy of such a body be? Should it be a co-ordinator, commissioner or direct provider of advice? What channels should it use? If not, should the FCA take responsibility for the objectives of the Service? Does the FCA need greater statutory powers to hold the Money Advice Service to account? What are the views of other bodies in this sector

about the way in which the Money Advice Service is now engaging with them? To what extent does the work of the Money Advice Service unnecessarily duplicate existing provision? What should the role of the Service be in each of the areas in which it operates? Is the remuneration of the Service's senior staff set at an appropriate level?
