

Traveler American Edition

American TravelerThe Life and Adventures of John Ledyard, the Man Who Dreamed of Walking The World

Gabriel and Michael Corrigan are two young men living just beneath the glittering surface of life in Los Angeles. Since childhood, the brothers have been shaped by stories that their father was a Traveler — one of an elite group of prophets able to attain pure enlightenment. The Corrigans, who may have inherited their father’s gifts, have always lived “off the grid” — that is, invisible to the intricate surveillance networks that monitor people in our modern world. Thousands of miles away, Maya is attempting to lead a normal life in London. The attractive twenty-six-year-old designer wants to ignore the fact that she comes from a long lineage of Harlequins — a band of warriors pledged to protect the Travelers at all costs. When Maya is summoned to Prague by her ailing father, she learns that Gabriel and Michael have just been located in California. The brothers may represent the last surviving Travelers, and are in desperate need of protection. Maya is reluctant to be drawn into the solitary, destructive life of her ancestors, but she has been trained to fight since she was a young girl. Also searching for the brothers is Nathan Boone, a disciplined mercenary working for the Tabulas — ruthless men who are determined to inflict order on the world by invisibly controlling its population. Boone and the Tabulas fear the power of the Travelers, and for generations Tabulas have hunted them down. When Maya flies to California in search of Gabriel and Michael Corrigan, a colossal battle looms that will reveal a secret history of our time. In this stunningly suspenseful first novel, reminiscent of George Orwell and Philip Pullman, John Twelve Hawks has created a vividly imagined world that runs parallel to our own. Moving at lightning speed from the back alleys of Prague to the underworld of Los Angeles to a guarded research facility in New York, The Traveler goes beneath the surface to give us new insights on history and our own lives.

This historical exploration of the Green Book offers “a fascinating [and] sweeping story of black travel within Jim Crow America across four decades” (The New York Times Book Review). Published from 1936 to 1966, the Green Book was hailed as the “black travel guide to America.” At that time, it was very dangerous and difficult for African-Americans to travel because they couldn't eat, sleep, or buy gas at most white-owned businesses. The Green Book listed hotels, restaurants, gas stations, and other businesses that were safe for black travelers. It was a resourceful and innovative solution to a horrific problem. It took courage to be listed in the Green Book, and Overground Railroad celebrates the stories of those who put their names in the book and stood up against segregation. Author Candacy A. Taylor shows the history of the Green Book, how we arrived at our present historical moment, and how far we still have to go when it comes to race relations in America. Special 70th Anniversary American Edition
A new translation by writer and poet Peter Hargitai
“Writer and poet Peter Hargitai, working on an English translation of Utas és holdvilág [Traveler and the Moonlight] in 1988, met with Szerb’s widow, Klára, curious to know whether there had been real-life models for the novel’s characters—particularly for Tamás and Éva, who intrigued him above all the others. In answer, Klára Szerb pointed out a framed photograph on a bookshelf: ‘a youngish man with a pale, aristocratic, melancholy face.’ ‘This is Tamás,’ Mrs. Szerb said. ‘My husband’s beloved schoolmate.’ ‘And Éva? Who is Éva?’ I asked. She held up that very picture. ‘This is also Éva. Tamás and Éva are one and the same.’ Klára Szerb went on to insist that Hargitai keep the secret of Tamás and Éva’s single biographical precedent until after her death. And there we have a clue, not only to the mysterious androgyny of Tamás and Éva, and to the sexually unconventional nature of Mihály’s relationship with them, but also perhaps to an unresolved chapter from Szerb’s past, one that held mysteries potent enough to give rise to a novel.”

The Treaty of Ghent signed in 1814, ending the War of 1812, allowed Americans once again to travel abroad. Medical students went to Paris, artists to Rome, academics to Göttingen, and tourists to all European capitals. More intrepid Americans ventured to Athens, to Constantinople, and even to Egypt. Beginning with two eighteenth-century travelers, this book then turns to the 25-year period after 1815 that saw young men from East Coast cities, among them graduates of Harvard, Yale, and Columbia, traveling to the lands of the Bible and of the Greek and Latin authors they had first known as teenagers. Naval officers off ships of the Mediterranean squadron visited Cairo to see the pyramids. Two groups went on business, one importing steam-powered rice and cotton mills from New York, the other exporting giraffes from the Kalahari Desert for wild animal shows in New York. Drawing on unpublished letters and diaries together with previously neglected newspaper accounts, as well as a handful of published accounts, this book offers a new look at the early American experience in Egypt and the eastern Mediterranean world. More than thirty illustrations complement the stories told by the travelers themselves.

National Geographic Traveler - New York

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Unpretentious, sophisticated, and always appetizing advice from a celebrated authority For more than thirty years, R. W. Apple Jr. roamed the United States as an eyewitness to history. Here, in Apple's America, his robust enthusiasm for the food and culture of New England, the South and West, the Atlantic and Pacific coasts, and his native Middle West carried him to forty great cities, where he proves to be our ideal guide--amused and amusing, knowledgeable, indefatigable, and endlessly curious. From Boston to Honolulu, from Montreal to Las Vegas, Cincinnati to Seattle, Johnny Apple explores the landmarks, architecture, business, culture, and, of course, the food and beverages of his favorite urban communities. Capturing the tone and style of American city life to perfection, he shows us the hidden treasures, the best buildings, the famous landmarks, the historical aura, and the present-day realities that make each city so memorable. And in each he recommends several places to stay, numerous places to eat, and sites or activities you shouldn't miss. No traveler in the United States will want to do without his recommendations.

A Traveler at Forty .“rises completely out of the commonplace, and becomes something new, illuminating and heretical. It differs enormously from the customary travel books: it is not a mere description of places and people, but a revelation of their impingement upon an exceptional and almost eccentric personality.” - H. L. Mencken "For everywhere [Dreiser] goes he watches people with a terrible curiosity about them that never rests until he has their secrets." - Sinclair Lewis The most productive period of Theodore Dreiser writing life began with the five months he spent in Europe between 1911 and 1912. A Traveler at Forty is the detailed account of his travels during that time, including the exploration of his ancestral roots in Germany. This is the text of the popular original edition as it was published in 1913. THEODORE DREISER (1871-1945) was a pre-eminent American novelist of the first half of the twentieth century. He believed that the experiences of working-class people striving for economic, emotional, and spiritual fulfillment were viable subjects for serious fiction, and for this reason he is regarded as an anatomist of the "American Dream."

COMMERCIAL TRAVELER'S GUIDE TO LATIN AMERICA

Called a "man of genius" by his close friend Thomas Jefferson, John Ledyard lived, by any standard, a remarkable life. In his thirty-eight years, he accompanied Captain Cook on his last voyage; befriended Jefferson, Lafayette, and Tom Paine in Paris; was the first American citizen to see Alaska, Hawaii, and the west coast of America; and set out to find the source of the Niger by traveling from Cairo across the Sahara. His greatest dream, concocted with Jefferson, was to travel alone around the world and cross the American continent from the Pacific Northwest to the Atlantic. Catherine the Great dashed that dream when she had him arrested in deepest Siberia and escorted back to the Polish border. Ledyard wrote the definitive account of Cook's last voyage and his death at the hands of Hawaiian islanders, and formed a company with John Paul Jones that launched the American fur trade in the Pacific Northwest.Before the Revolution, Americans by and large didn't travel great distances, rarely venturing west of the Appalachians. Ledyard, with his boundless enthusiasm and wide-ranging intellect, changed all that. In lively prose, journalist James Zug tells the riveting story of this immensely influential character -a Ben Franklin with wanderlust-a uniquely American pioneer.

From the publishing house that brought you the Who Was? books comes the next big series to make history approachable, engaging, and funny! The Thrifty Guide to the American Revolution provides useful information for the practical time traveler, like:

- Where can I find a decent hotel room in colonial New England? Are major credit cards accepted?
- How do I join the Boston Tea Party without winding up in a British prison?
- How can I score a lunch with Alexander Hamilton?

This guide answers these fiery, burning questions with the marshmallows of information. There is handy advice on how to join Paul Revere’s spy ring at the Green Dragon Tavern, how to enlist in General Washington’s rebel army, and how to summon the strength to storm a British gun battery when you haven’t eaten for three days. If you had a time travel machine and could take a vacation anywhere in history, this is the only guidebook you would need! In the segregated US of the mid-twentieth century, African-American travelers could have a hard time finding towns where they were legally allowed to stay at night and hotels, restaurants, and service stations willing to serve them. Victor Hugo Green published the first annual volume of The Negro Motorist Green Book, later renamed The Negro Travelers' Green Book. This facsimile brings you all the listings, travelogues, and advertisements aimed at the Black travelers trying to find their way across a country where they were so rarely welcome.Also available: The Negro Motorist Green-Book.

Harper’s Hand-Book for Travellers in Europe and the East:
Germany, Italy, Egypt, Syria, Turkey, and Greece
The remarkable success of Harper’s Hand-book, first published in 1862, has fully realized the expectations Of both author and publishers, the instance being very rare where a traveler has crossed the Atlantic without a copy in his possession or in that Of one of his party. The reason Of this great success is very evident; it is not compiled from hearsay and books which are out of date, and Of no possible use to the traveler, but prepared by the author every year from his personal expe rience up to the moment of going to press, his time in Europe being wholly devoted to that purpose. The greater portion Of these volumes is entirely new, and dis tinct from the last year’s edi-tion, While the residue has been revised and corrected up to the present moment. To travel without a guide-book in any part Of Europe is utterly impossible; a Man without one being like a Ship at sea without a compass - dragged round the country by a courier, and touching only at such points as it is the courier’s interest to touch. You should purchase guide-books or remain at home.
