Music & Dance Life & Love -Body & Soul The oldest stories ever told When an enthusiastic and talented mood auditions for a dance troupe, she finds unexpected discrimination and inequality at every step. All-girl colored band clarinetist, Korla, knows the police sirens are coming for her. Can she escape the Jim Crow Sheriff in time to play the USO show before he and the young deputy figure out what else the girls are hiding? After the perfect date in jazzy WWII San Francisco, an American boy searches for his Japanese girlfriend after the government orders all Japanese-Americans to an internment camp. Perceptions are skewed by hot swing rhythms in Night Club Feet. A vintage girl pines for a married dancer while a newbie guy lusts after her, each encumbered by ego and self-image. In 1943, too many men had enlisted or been drafted, leaving empty spots in the big band orchestras. Can seventeen-year-old Ingénue, Moira, pass the audition, keep her too friendly bandleader at bay, and snatch one of the coveted positions in the all-girl band. A young couple becomes sidetracked by the musicians who play hot jazz alongside the petting zoo of piglets, ducks, and lambs on the family jaunt to the feed store. Will the bereaved young woman find the perfect place her mother told her about without being diverted by a mysterious handsome man and the swing music emerging from the hotel cantina where she stopped for the night? Those are just a few Swing Shorts that explore the transformative, transcendent, and often poignant bond we share with music and dance. Find your connection.

Complementing Science-Fiction: The Early Years, which surveys science-fiction published in book form from its beginnings through 1930, the present volume covers all the science-fiction printed in the genre magazines--Amazing, Astounding, and Wonder, along with offshoots and minor magazines--from 1926 through 1936. This is the first time this historically important literary phenomenon, which stands behind the enormous modern development of science-fiction, has been studied thoroughly and accurately. The heart of the book is a series of descriptions of all 1,835 stories published during this period, plus bibliographic information. Supplementing this are many useful features: detailed histories of each of the magazines, an issue by issue roster of contents, a technical analysis of the art work, brief authors' biographies, poetry and letter indexes, a theme and motif index of approximately 30,000 entries, and general indexes. Science-Fiction: The Gernsback Years is not only indispensable for reference librarians, collectors, readers, and scholars interested in science-fiction, it is also of importance to the study of popular culture during the Great Depression in the United States. Most of its data, which are largely based on rare and almost unobtainable sources, are not available elsewhere.

At the time of his kidnapping, John was a successful film critic, with his own late night TV slot and something of a cult following. Crazed fans were an occupational hazard. One night, during a break in the show, John stepped outside to have a smoke. When he didn't come back, nobody worried too much. It was a week before he was found. Acclaimed Irish writer Blánaid McKinney's first novel covers the care and maintenance of bonsai trees, the sex life of pandas, Second World War fighter planes (and why test pilots were usually women), the singing career of Antony Perkins and much more. It's a blazing brilliant urban love story, with robbery and torture thrown in. Blánaid McKinney's first collection of stories, BIG MOUTH, revealed a new writer of persuasive imagination, reveling in characters who are mad or bad, or both. This novel confirms her as a major new talent.

This book explores the politics of gendered labor migration in Southeast Asia through the stories and perspectives of Indonesian and Filipina women presented in films, fiction, and performance to show how the emotionality of these texts contribute to the emergence and vitality of women's social movements in Southeast Asia. By placing literary and filmic narratives of Filipina and Indonesian domestic workers in Hong Kong and Singapore within existing conversations concerning migration policies, the book offers an innovative approach towards examining contemporary issues of Asian migration. Furthermore, through rich ethnographic accounts, the book unpacks themes of belonging and displacement, shame and desire, victimhood and resistance, sacrifice, and grief to show that the stories of Filipina and Indonesian migrant women don't just depict their everyday lives and practices but also reveal how they mediate and make sense of the fraught politics of gendered labor diaspora and globalization. Contributing to the "affective turn" of feminist and transnational scholarship, the book draws insight from the importance and centrality of affect, emotions, and feelings in shaping discourses on women's subjectivity, labor, and mobility. In addition, the book demonstrates the issues of vulnerability and agency inherent in debates on social exclusion, human rights, development, and nation-building in Southeast Asia. Offering an innovative and multidisciplinary approach to analyses of Asian migration, this book will be of interest to academics in the fields of Asian Studies, literary and cultural studies, film studies, gender and women's studies, and migration studies.

Provides up-to-date profiles on the careers of leading and emerging poets.

Race mixture has played a formative role in the history of the Americas, from the western expansion of the United States to the political consolidation of emerging nations in Latin America. Debra J. Rosenthal examines nineteenth-century authors in the United States and Spanish America who struggled to give voice to these contemporary dilemmas about interracial sexual and cultural mixing. Rosenthal argues that many literary representations of intimacy or sex took on political dimensions, whether advocating assimilation or miscegenation or defending the status quo. She also examines the degree to which novelists reacted to beliefs about skin differences, blood taboos, incest, desire, or inheritance laws. Rosenthal discusses U.S. authors such as James Fenimore Cooper, Catharine Maria Sedgwick, Walt Whitman, William Dean Howells, and Lydia Maria Child as well as contemporary novelists from Cuba, Peru, and Ecuador, such as Gertrudis Gomez de Avellaneda, Clorinda Matto de Turner, and Juan Leon Mera. With her multinational approach, Rosenthal explores the significance of racial hybridity to national and literary identity and participates in the wider scholarly effort to broaden critical discussions about America to include the Americas.

This handbook brings together an international team of scholars from different disciplines to reflect on African popular cultural imaginaries. These imaginaries—in the sense of cultural productions, contexts, consumers, producers, platforms, and the material, affective and discursive resources they circulate—are influential in shaping African realities. Collectively, the chapters assembled in this handbook index the genres, methods, mediums, questions and encounters that preoccupy producers, consumers and scholars of African popular cultural forms across a range of geohistorical and temporal contexts. Drawing on forms such as newspaper columns, televised English Premier League football, speculative arts, romance fiction, comedy, cinema, music and digital genres, the contributors explore the possibilities and ambiguities unleashed by the production, circulation, consumption, remediation and critique of these forms. Among the questions explored across these essays are the freedoms and constraints of popular genres; the forms of self-making, pleasure and harm that these imaginaries enable; the negotiations of multiple moral regimes in everyday life; and, inevitably, the fecund terrain of contradictions definitive of many popular forms, which variously enable and undermine world-making. An authoritative scholarly resource on popular culture in Africa, this handbook is an essential read for students and scholars of African culture, society and media.

Notes from a Cool Teacher is essentially a how-to book. It will show you how being considered cool in the classroom can make you a more effective, dynamic teacher, particularly in the area of classroom management. The word cool is ignored and grossly underrated by teachers and those in education-but not, and it's a big not, by the students. All of us can remember a cool teacher in our past who not only instructed but also was inspirational. That teacher was rebellious, sensitive, and caring; they made us want to pay attention with their fresh approach to teaching, and in return, we respected them and took to heart what was taught. Edward Janusz provides a new perspective regarding classroom management. Notes From a Cool Teacher is not an academic and administrative-friendly-the typical principal would hardly approve. It does not diminish or deny the distress student misconduct has on sinking, burnt-out teachers. Nor does it simply propose exclusively raising a student's self-esteem as a path to good behavior. This book is an underground text, written from one teacher to another, providing controversial, aggressive, results-orientated strategies to achieve classroom control.
