conducted over forty capture-kill missions with his men, successfully locating more than 120 Al Qaida insurgents. In September 2007, while leading a mission against a key senior Al Qaida commander, his team was ambushed and he was critically wounded by machine-gun fire at point blank range. During the intense recovery that followed—a years-long process that included 37 surgeries—Redman gained national media attention when he posted a sign on his door at Bethesda Naval Medical Center, warning all who entered not to “feel sorry for my wounds.”

Redman's sign became both a statement and a symbol for wounded warriors everywhere.

The Trident is an unforgettable story of one man's determination to overcome adversity. Redman recounts his story, from his grueling SEAL training to how he found the balance between arrogance and humility all while fighting America's enemies on far flung battlefields. He speaks candidly of the grit that helped him carry on despite grievous wounds, and of the extraordinary love and devotion of his wife, Erica, and family, without whom he would not have survived. As a result of his horrific leg wound, his twenty-four-year military career came to an end—and with it the only life he'd ever known. In Touching the Dragon, we witness his long road to recovery. Getting well physically required eighteen surgeries, twelve months of recovery, and learning to walk again. But getting well mentally would prove to be much tougher, as he fought through the depths of despair, alcoholism, and the

Seller* Under the cover of night, deep in the desert of Afghanistan, a US Army handler led a Special Forces patrol with his military working dog. Without warning an insurgent popped up, his weapon raised. At the handler's command, the dog charged their attacker. There was the flash of steel, the blur of fur, and the sound of a single shot; the handler watched his dog take a bullet. During the weeks it would take the dog to heal, the handler never left its side. The dog had saved his life. Loyal and

Joe Layden's No Ordinary Dog. Starting in 2008, when Will was introduced to the canine program, he and Cairo worked side by side, depending on each other for survival on hundreds of critical operations in the war on terrorism. But their bond went beyond their military service. As Cairo aged and went on fewer missions, Will moved on to other assignments, forced to slowly—and painfully—distance himself from the dog. Then, in 2011, the call came: Pick up your dog and get back to Virginia. Now. Cairo and Will trained for weeks for a secret mission, but it soon became clear that this was no ordinary operation. Cairo was among the

first members of the U.S. military on the ground in Pakistan as part of Operation Neptune Spear, which resulted in the successful elimination of bin Laden. As Cairo settled into a role as a reliable “spare dog,” Will went back to his job—until a grenade blast in 2013 left him severely injured. Unable to participate in further missions, he tried to recover, medicine provided only modest relief. Instead, it was up to Cairo to save Will's life once more—and then up to Will to be there when Cairo needed him the most. Military working dogs gained widespread attention after the highly trained canine Cairo participated in the SEAL Team Six mission that led

to Osama bin Laden's death. Before that, few civilians realized that dogs served in combat, let alone that they could parachute from thirty-thousand feet up. And as astounding as that talent is, it's only one of the many things our four-legged soldiers can do. Dogs have had a place in the U.S.military from as early as the nineteenth century, but their importance and our treatment of them has evolved since then. In the aftermath of 9/11, their numbers have increased exponentially. The Dogs of War surveys the amazing range of jobs that military working dogs now perform, such as explosives detection, patrol, and hunting for enemy combatants. Lisa

Rogak discusses the dogs' training, their equipment, and sets the record straight on those rumors of titanium teeth. In this book you'll find heart-warming stories of the deep bond that dogs and their handlers share, including missions both heroic and tragic that show the courage and devotion that human and canine soldiers have displayed on the battlefield. Rogask also writes about the physical and mental dangers that dogs face from military service; the canine path from service to retirement; and finally how soldiers and civilians can help the cause by fostering military puppies or adopting retirees.
