According to George Barna, uncovering God's vision for your ministry is not an option. It's essential for the most productive ministry that will accomplish God's goals for building his kingdom. Ministry leaders with a clear picture from God of where they are headed are much more likely to experience a successful journey. In this book, Barna uncovers how God has shared his vision throughout history, how vision is different from mission, common practices and beliefs that inhibit true vision, practical steps toward experiencing and carrying out God's unique vision for them, and ways to share and promote congregational ownership of the vision. Millions of Americans have lost their homes since the start of the recession initiated by the financial crisis of 2008–09. Is the dream of homeownership for America's working families obsolete, an aspiration from a bygone era? *Regaining the Dream* rejects that notion and proposes a way to strengthen the financial system while simultaneously promoting an equitable and viable American homeownership policy. For the first time, the authors of *Regaining the Dream* offer data-driven evidence on how the mortgage industry can serve working families in the United States, pointing the way to a pragmatic housing policy that promotes the opportunity for sustainable homeownership. Taking the reader step by step through the lending crisis and what caused it, the authors include useful and clear definitions of terms heard almost daily in news coverage. And they give a fair account of the history behind Fannie Mae and Freddie Mac and the new Dodd-Frank law, explaining what remains to be done to uphold one of the defining characteristics of the American dream.
