

Under The Pendulum Sun A Novel Of The Fae

'The book is like the spoon: once invented, it cannot be bettered.' Umberto Eco These days it is almost impossible to get away from discussions of whether the 'book' will survive the digital revolution. Blogs, tweets and newspaper articles on the subject appear daily, many of them repetitive, most of them admitting they don't know what will happen.

Lee Siegel, author of *Falling Upwards*, *Not Remotely Controlled*, and *Against the Machine* delivers a provocative critique of modern lightness and frivolity, and a timely guide to being serious in an unserious age. In the vein of *The Culture of Narcissism*, *Shop Class as Soulcraft*, and *How Proust Can Change Your Life*, Siegel offers a revelatory look at how a serious bearing is vital to accomplishing any worthwhile goal in an era increasingly defined by a sardonic approach to life.

NATIONAL BESTSELLER • WINNER OF THE PULITZER PRIZE • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. *The Road* is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation.

Complete guidebook on how to utilize the pendulum to choose appropriate remedies for healing body, mind and spirit. Includes 125 pendulum tables for herbs, essential oils, flower remedies, etc. If you want to learn how to utilize the pendulum, and how to develop extremely practical applications for health and well-being, this book is for you. The author is a well-known Reiki master and best-selling author.

Tiger in a Trance

The Road

A Night and Nothing Novel

The Ingenious

A Memoir

Foucault's Pendulum

"A revolution is happening in speculative fiction, and Annalee Newitz is leading the vanguard."--Wil Wheaton From Annalee Newitz, founding editor of io9, comes a story of time travel, murder, and the lengths we'll go to protect the ones we love. 1992: After a confrontation at a riot grrl concert, seventeen-year-old Beth finds herself in a car with her friend's abusive boyfriend dead in the backseat, agreeing to help her friends hide the body. This murder sets Beth and her friends on a path of escalating violence and vengeance as they realize many other young women in the world need protecting too. 2022: Determined to use time travel to create a safer future, Tess has dedicated her life to visiting key moments in history and fighting for change. But rewriting the timeline isn't as simple as editing one person or event. And just when Tess believes she's found a way to make an edit that actually sticks, she encounters a group of dangerous travelers bent on stopping her at any cost. Tess and Beth's lives intertwine as war breaks out across the timeline--a war that threatens to destroy time travel and leave only a small group of elites with the power to shape the past, present, and future. Against the vast and intricate forces of history and humanity, is it possible for a single person's actions to echo throughout the timeline? Praise for *The Future of Another Timeline*: "An intelligent, gut-wrenching glimpse of how tiny actions, both courageous and venal, can have large consequences. Smart and profound on every level."—Publishers Weekly (starred review) "You close the book reeling with questions about your own life and your part in changing the future."—Amy Acker, actress (*Angel* and *Person of Interest*) At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

You Haven't Missed It; You're Right on Time! Many of God's people feel guilty for going through difficult seasons. We think depression is spiritual weakness. In challenging circumstances, we ask: "God, where are You?" We consider the state of our lives and become discouraged, assuming we are not where God wants us to be. But what if we are? What if the very circumstances that threaten to destroy us are the very things that launch us into our God-ordained moments of destiny? In *The Pendulum*, Pastor Rickie Rush shows you that there is a time for everything under heaven. Learn how: Your seasons of difficulty can push you closer towards fulfilling your purpose God never wastes the struggles that you go through To embrace and flow with the natural seasons of life God's supernatural ability causes you to come out victorious on the other side God wants to use your story and transform you into someone who can help others flourish in every season of life!

Winner of the John W Campbell Award for Best New Writer, Jeannette Ng brings a stunningly different Victorian fantasy that mixes *Crimson Peak* with *Jonathan Strange & Mr Norrell*. Victorian missionaries travel into the heart of the newly discovered lands of the Fae, in a stunningly different fantasy that mixes *Crimson Peak* with *Jonathan Strange & Mr Norrell*. Catherine Helstone's brother, Laon, has disappeared in Arcadia, legendary land

of the magical fae. Desperate for news of him, she makes the perilous journey, but once there, she finds herself alone and isolated in the sinister house of Gethsemane. At last there comes news: her beloved brother is riding to be reunited with her soon but the Queen of the Fae and her insane court are hard on his heels. File Under: Fantasy [In Arcadia | Seek and Hide | The Queen of Moths | Lands of the Damned]

Max Ludington has created a stunningly self-assured American road novel that captures the drug induced euphoria and paranoia of a Grateful Dead concert, while simultaneously probing the self-destructive tendencies of its head-strong protagonist. Traveling around the country in his old Volvo following the Dead for over a year, eighteen-year-old Jason Burke discovers how much more lucrative selling acid is than selling T-shirts. Liberally dabbling in his product, his judgment gets cloudier and he starts snorting heroin and sleeping with his supplier's girlfriend, a green-eyed beauty named Jane. Jason also meets Melanie, a rebellious one-armed high-school girl who's youthful abandonment leads her deeper into the nomadic world of the Dead. And as his addiction takes hold, Jason reacquaints himself with an old friend of his late father's who's near the end of his days. While he struggles with the ghosts of his own past and his exceedingly tenuous future, Jason has to decide where his heart lies and which road will ultimately take him there.

The Art of Strategic Non-Action

The Echoed Realm

The sole survivor on a desperate, last-chance mission to save both humanity and the earth, Ryland Grace is hurtled into the depths of space when he must conquer an extinction-level threat to our species.

Politics, manners, humor, sexuality, wealth, even our definitions of success are periodically renegotiated based on the new values society chooses to use as a lens to judge what is acceptable. Are these new values randomly chosen or is there a pattern? Pendulum chronicles the stuttering history of western society; that endless back-and-forth swing between one excess and another, always reminded of what we left behind. There is a pattern and it is 40 years: 2003 was a fulcrum year, as was 1963, its opposite. Pendulum explains where we have been as a society, how we got here, and where we are headed. If you would benefit from a peek into the future, you would do well to read this book.

For Napoleon's stepdaughter, nothing is simple - especially love. Paris, 1798. Hortense de Beauharnais is engrossed in her studies at a boarding school for aristocratic girls, most of whom have suffered tragic losses during the tumultuous days of the French Revolution. She loves to play and compose music, read and paint, and daydream about Christophe, her brother's dashing fellow officer. But Hortense is not an ordinary girl. Her beautiful, charming mother, Josephine, has married Napoleon Bonaparte, soon to become the most powerful man in France, but viewed by Hortense at the outset as a coarse, unworthy successor to her elegant father, who was guillotined during the Terror. Where will Hortense's future lie? it may not be in her power to decide. Inspired by Hortense's real-life autobiography with charming glimpses of life long ago, this is the story of a girl destined by fate to play a role she didn't choose.

Strategic non-action is a powerful yet under-rated method of influencing worldly affairs. In cultures where action is favoured over inaction, like in the West, direct action is considered a virtue while inaction is little more than laziness or cowardice. Let us be more subtle and nuanced in our understanding. There is a time for both action and inaction. Non-action gives access to a deeper intuitive awareness than that gained through action, since knowledge that comes through action is obscured by situation-specific reactions. Non-action is an aspect of going with the flow, not resisting the larger forces that govern a world of which you are a small part. It acknowledges that events are governed by the laws of Nature, and it is often best to simply allow those laws to operate and play out in their own time, in their own way. Non-action can help us towards our goals by encouraging patience and taking the long-view. Humanistic Psychology says that it is within our reach to create the life we want for ourselves. As we think and believe, so we create our world. This is indeed true, but only up to a point. We can transform our lives in goal fulfilling ways, but the transformation is relatively slow, its progress measured in months and years.

WINNER OF THE 2020 NOMMO AWARD FOR BEST NOVEL LAGOS WILL NOT BE DESTROYED The gods have fallen to earth in their thousands, and chaos reigns. Though broken and leaderless, the city endures. David Mogo, demigod and godhunter, has one task: capture two of the most powerful gods in the city and deliver them to the wizard gangster Lukmon Ajala. No problem, right? 'A Nigerian Harry Dresden.' Jacey Bedford, author of Winterwood "Assured and arch, unsettling and thoroughly enjoyable—an auspicious debut from one of the most promising new voices in the growing coterie of African SFF writers." Peter Rubin, Wired Magazine

It is your eighteenth birthday and one of your parents must die. You are the one who decides. Who do you pick? In a dying world, the Offset ceremony has been introduced to counteract and discourage procreation. It is a rule that is simultaneously accepted, celebrated and abhorred. But in this world, survival demands sacrifice so for every birth, there must be a death. Professor Jac Boltanski is leading Project Salix, a ground-breaking new mission to save the world by replanting radioactive Greenland with genetically-modified willow trees. But things aren't working out and there are discrepancies in the data. Has someone intervened to sabotage her life's work? In the meantime, her daughter Miri, an anti-natalist, has run away from home. Days before their Offset ceremony where one of her mothers must be sentenced to death, she is brought back against her will following a run-in with the law. Which parent will Miri pick to die: the one she loves, or the one she hates who is working to save the world?

A 17th century Italian nobleman is marooned on an empty ship in this "astonishing intellectual journey" by the author of Foucault's Pendulum (San Francisco Chronicle). In the year 1643, a violent storm in the South Pacific leaves Roberto della Griva shipwrecked—on a ship. Swept from the Amaryllis, he has managed to pull himself aboard the Daphne, anchored in the bay of a beautiful island. The ship is fully provisioned, he discovers, but the crew is missing. As Roberto explores the different cabinets in the hold, he looks back on various episodes from his life: Ferrante, his imaginary evil brother; the siege of Casale, that meaningless chess move in the Thirty Years' War in which he lost his father and his illusions; and the lessons given him on Reasons of State, fencing, the writing of love letters, and blasphemy. In this "intellectually stimulating and dramatically intriguing" novel, Umberto Eco conjures a young dreamer searching for love and meaning; and an old Jesuit who, with his clocks and maps, has plumbed the secrets of longitudes, the four moons of Jupiter, and the Flood (Chicago Tribune).

The Poe twins and their cat Roderick find danger in an enormous mansion outside Baltimore.

Ancient fables rise from the grave and take a sinister turn in the thrilling sequel to A. J. Vrana's haunting dark fantasy debut, THE HOLLOW GODS. Fans of V. E. SCHWAB and MAGGIE STIEFVATER devour this macabre folktale, even as it awaits to consume them from between the pages. hr Miya's world ended in Black Hollow. It's been three years since the Dreamwalker upended her life a heavy burden. A fledgling to the ethereal realm, Miya stumbles into the nightmares of those haunted by spectres. Little does she know, one of them is coming for her, clutching a dark secret found a new purpose with his companion, but the price is his freedom. Bound and beholden to Miya, he struggles to adjust to his new role as her vanguard. Meanwhile, Mason discovers he may trapped in a web of schemes. Was his time in Black Hollow an accident, or was it only the beginning of some greater machination? As Black Hollow's bloody stain spreads beyond its wooded bo fights to evade a past she barely understands. The Dreamwalker's legacy is a vise grip, and it isn't letting go. Primordial horrors draw near, fables come alive, and long-buried histories rise from ready to hunt. Sharpen your claws and bloody your teeth. There's fear to be sown. hr "Vrana's lyrical writing is a mix of poetry, chaos, violence, and energy. An epic, macabre folktale for a new g Kim Smejkal, author of INK IN THE BLOOD "Good vs. evil is cleverly turned on its head as Vrana pulls readers down the rabbit hole into her strange, folkloric world." – Publisher's Weekly "Everything this book has a dark and spellbinding edge...an emerging threat in your peripheral vision, a creeping dread. Horror, supernatural, and fantasy push the threads of realism to its very edges." – The Caterpillar Reads Book Reviews "Darker, more impactful, more complex, with rich and interesting character development and the delightful writing of Miss Vrana, THE ECHOED REALM is the perfect conclusion to one of the best duologies I've had the pleasure to read." – Verified Reviewer "THE ECHOED REALM may have closed off The Chaos Cycle, but it's still going to be playing back in my a long time to come." – Verified Reviewer hr The Chaos Cycle Duology is best enjoyed in this order: Book 1: The Hollow Gods Book 2: The Echoed Realm

Bored with their work, three Milanese editors cook up "the Plan," a hoax that connects the medieval Knights Templar with other occult groups from ancient to modern times. This produces a m geographical point from which all the powers of the earth can be controlled—a point located in Paris, France, at Foucault's Pendulum. But in a fateful turn the joke becomes all too real, and wh groups, including Satanists, get wind of the Plan, they go so far as to kill one of the editors in their quest to gain control of the earth.Orchestrating these and other diverse characters into his semiotic adventure, Eco has created a superb cerebral entertainment.

The history of criminal justice in the U.S. is often described as a pendulum, swinging back and forth between strict punishment and lenient rehabilitation. While this view is common wisdom, it is Breaking the Pendulum, Philip Goodman, Joshua Page, and Michelle Phelps systematically debunk the pendulum perspective, showing that it distorts how and why criminal justice changes. The p

model blinds us to the blending of penal orientations, policies, and practices, as well as the struggle between actors that shapes laws, institutions, and how we think about crime, punishment, and justice. Through a re-analysis of more than two hundred years of penal history, starting with the rise of penitentiaries in the 19th Century and ending with ongoing efforts to roll back mass incarceration, the authors offer an alternative approach to conceptualizing penal development. Their agonistic perspective posits that struggle is the motor force of criminal justice history. Punishment expands, contracts, and morphs because of contestation between real people in real contexts, not a mechanical -swing- of the pendulum. This alternative framework is far more accurate and empowering than metaphors that overstate or downplay the importance of struggle in shaping criminal justice. This clearly written, engaging book is an invaluable resource for teachers, students, and scholars seeking to understand the past and future of American criminal justice. By demonstrating the central role of struggle in generating major transformations, *Breaking the Pendulum* encourages combatants to keep fighting to change the system.

For readers of *Bad Blood* and *Empire of Pain*, an authoritative look at monopoly medicine from the dawn of patents through the race for COVID-19 vaccines and how the privatization of public science prioritized profits over people *Owning the Sun* tells the story of one of the most contentious fights in human history: the legal right to produce lifesaving medicines. Medical science began as a public good geared toward the betterment of all human life, but the merging of research with intellectual property and the rise of the pharmaceutical industry warped and eventually undermined its ethical mission. Since World War II, federally funded research has facilitated most major medical breakthroughs, yet these drugs are often wholly controlled by price-gouging corporations with growing international influence. Why does the U.S. government fund the development of medical science in the name of the public only to relinquish exclusive rights to drug companies, and how does such a system impoverish our responses to crises, and, as in the cases of AIDS and COVID-19, put the world at risk? Outlining how generations of public health and science advocates have attempted to hold the line against Pharma and their allies in government, Alexander Zaitchik's first-of-its-kind history documents the rise of privatized medicine in the United States and its subsequent globalization. From the controversial arrival of patent-wielding German drug firms in the late nineteenth century to present-day coordination between industry and philanthropic organizations—including the influential Bill & Melinda Gates Foundation—that stymie international efforts to vaccinate the world against COVID-19, *Owning the Sun* tells one of the most important and least understood histories of our time.

How Past Generations Shape Our Present and Predict Our Future

This monograph describes the Reaction Wheel Pendulum, the newest inverted-pendulum-like device for control education and research. We discuss the history and background of the reaction wheel pendulum and other similar experimental devices. We develop mathematical models of the reaction wheel pendulum in depth, including linear and nonlinear models, and models of the sensors and actuators that are used for feedback control. We treat various aspects of the control problem, from linear control of the motor, to stabilization of the pendulum about an equilibrium configuration using linear control, to the nonlinear control problem of swingup control. We also discuss hybrid and switching control, which is useful for switching between the swingup and balance controllers. We also discuss important practical issues such as friction modeling and friction compensation, quantization of sensor signals, and saturation. This monograph can be used as a supplement for courses in feedback control at the undergraduate level, courses in mechatronics, or courses in linear and nonlinear state space control at the graduate level. It can also be used as a laboratory manual and as a reference for research in nonlinear control.

An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students.

Three tales, each dominated by one of three senses, present a married couple touring Mexico, a tyrant made prisoner of contradictory messages, and a fashionable Parisian and a drugged rock musician impassioned by scents

Disgusted by Political Fighting? Frustrated by the Inertia of Congress? We, the People, together, can redirect politics. This book points out the error of Single Congressional Seat Districts, the usurpation of power by political parties, and outlines what has to be done to get back to the original founders' vision of Congress. Political parties have always been about power and never about democracy. Politicians entice you with vague benefits and scare you with potential losses. Political parties are not about fixing problems, they are about getting your vote. On the other hand, Congress should be about fixing problems. We must not confuse politics with governance. We need to invest our votes in representatives instead of political parties. There is a path back to proportional representation so that those of us caught between two powerful parties can have a voice. You don't have to accept that only two choices are possible, but we can't just keep waiting for things to get better. We must find our voices and make it clear that Washington's business as usual isn't good enough!

Combining the sorcery of *The Night Circus* with the malefic suspense of *A Secret History*, *Thorn Jack* is a spectacular, modern retelling of the ancient Scottish ballad, *Tam Lin*—a beguiling fusion of love, fantasy, and myth that echoes the imaginative artistry of the works of Neil Gaiman, Cassandra Clare, and Melissa Marr. In the wake of her older sister's suicide, Finn Sullivan and her father move to a quaint town in upstate New York. Populated with socialites, hippies, and dramatic artists, every corner of this new place holds bright possibilities—and dark enigmas, including the devastatingly attractive Jack Fata, scion of one of the town's most powerful families. As she begins to settle in, Finn discovers that beneath its pretty, placid surface, the town and its denizens—especially the Fata family—wield an irresistible charm and dangerous power, a tempting and terrifying blend of good and evil, magic and mystery, that holds dangerous consequences for an innocent and curious girl like Finn. To free herself and save her beloved Jack, Finn must confront the fearsome Fata family . . . a battle that will lead to shocking secrets about her sister's death.

"Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

Transurfing Reality was one of the top non-fiction bestsellers in the world in 2005 and 2006. Unknown till now in the West, the series has sold over 1,300,000 copies in Russia in three years. This translation (by Natasha Micharina) describes a new way of looking at reality, indeed of creating it. It provides a scientific explanation of the laws that help you do this, building up a scientific model, speaking in detail about particular rules to follow and giving important how-to tips, illustrated with examples. The author introduces a system of specific terms, notions, and metaphors, which together make a truly convincing, thought-provoking theory of creating your own life. "You are ruled by circumstances and it will always be like that until you learn how to manage your reality," says the author. Bringing together the cutting edge of modern science and philosophical teaching, the book's style is popular-scientific, metaphorical and conversational. Books in the series: *Reality Transurfing 1: The Space of Variations*; *Reality Transurfing 2: A Rustle of Morning Stars*; *Reality Transurfing 3: Forward to the Past*; *Reality Transurfing 4: Ruling Reality*; *Reality Transurfing 5: Apples Fall to the Sky*

CWA Gold Dagger winner Peter Dickinson is back: An Indian doctor joins the English underground to fight racial oppression Dr. P. P. Humayan expects prejudice from the English. Growing up in Bombay, he was raised on stories of the injustices of life in Britain, where racial status is marked on one's papers and anyone of Celtic descent is born with green skin and forced to live in walled-off ghettos. But when he travels to London to announce that he has solved the genetic mystery of why the Celts are born green, he is shocked by the system's brutality. Only one English girl is kind to him—and she will soon find herself in mortal peril. When his host family is murdered, Humayan slips underground, joining a small band of rebels who would do

anything to see racial equality restored to England. There are powerful men working to maintain the sinister status quo, and bringing them down will be the toughest problem this mathematician has ever faced.

GOOD MORNING AMERICA BUZZ PICK • From the New York Times bestselling author of Mexican Gothic comes a simmering historical noir about a daydreaming secretary, a lonesome enforcer, and the mystery of the missing woman they're both desperate to find. ONE OF THE BEST BOOKS OF THE YEAR: The New York Times Book Review, NPR, The Washington Post, The Boston Globe, New York Public Library, Milwaukee Journal Sentinel, BookPage, She Reads, Library Journal • "An adrenalized, darkly romantic journey."—The Washington Post Mexico in the 1970s is a dangerous country, even for Maite, a secretary who spends her life seeking the romance found in cheap comic books and ignoring the activists protesting around the city. When her next-door neighbor, the beautiful art student Leonora, disappears under suspicious circumstances, Maite finds herself searching for the missing woman—and journeying deeper into Leonora's secret life of student radicals and dissidents. Mexico in the 1970s is a politically fraught land, even for Elvis, a goon with a passion for rock 'n' roll who knows more about kidney-smashing than intrigue. When Elvis is assigned to find Leonora, he begins a blood-soaked search for the woman—and his soul. Swirling in parallel trajectories, Maite and Elvis attempt to discover the truth behind Leonora's disappearance, encountering hitmen, government agents, and Russian spies. Because Mexico in the 1970s is a noir, where life is cheap and the price of truth is high.

Catherine Helstone's brother, Laon, has disappeared in Arcadia, legendary land of the magical fae. This is a book about a great man, an unbeaten boxing coach who in his lifetime nurtured three heavyweight world champions—a feat no one is capable of repeating nowadays. Cus D'Amato - the book is about him. The legend whose triumph is absolute, and requires no unnecessary comment and third-party consent. Here is a complete guide to the skill and tools needed to get a fundamental insight of D'Amato's system, psychology and philosophy. This book will be useful for anybody who is striving for self-perfection and seeking an effective lifestyle methodology of a champion, not only in boxing. Cus D'Amato didn't become phenomenal at birth. He used to say that a human being is not born as the finest, but he becomes truly outstanding through persistent and heavy work!

This book is the crowning jewel of Oleg Maltsev's 20 years of research, a shining piece of collaboration created in New York together with a disciple of the legendary Cus: Tom Patti.

Political exiles are desperate to escape from the impossible city that imprisons them, in this bloody and brilliant epic fantasy Thousands of years ago, the city of Athanor was set adrift in time and space by alchemists, called "the Curious Men". Ever since, it has accumulated cultures, citizens and species into a vast, unmappable metropolis. Isten and her gang of half-starved political exiles live off petty crime and gangland warfare in Athanor's seediest alleys. Though they dream of returning home to lead a glorious revolution, Isten's downward spiral drags them into a mire of addiction and violence. Isten must find a way to save the exiles and herself if they are ever to build a better, fairer world for the people of their distant homeland. File Under: Fantasy [Alchemical Exiles |

Loathing and Fear | Manifest Revelation | City of Broken Spheres]

What would happen if women suddenly possessed a fierce new power? "The Power is our era's The Handmaid's Tale." --Ron Charles, Washington Post ****WINNER OF THE BAILEYS WOMEN'S PRIZE FOR FICTION**** One of the New York Times's Ten Best Books of the Year One of President Obama's favorite reads of the Year A Los Angeles Times Best Book of the Year One of the Washington Post's Ten Best Books of the Year An NPR Best Book of the Year One of Entertainment Weekly's Ten Best Books of the Year A San Francisco Chronicle Best Book of the Year A Bustle Best Book of the Year A Paste Magazine Best Novel of the Year A New York Times Book Review Editors' Choice An Amazon Best Book of the Year "Alderman's writing is beautiful, and her intelligence seems almost limitless. She also has a pitch-dark sense of humor that she wields perfectly." --Michael Schaub, NPR In THE POWER, the world is a recognizable place: there's a rich Nigerian boy who lounges around the family pool; a foster kid whose religious parents hide their true nature; an ambitious American politician; a tough London girl from a tricky family. But then a vital new force takes root and flourishes, causing their lives to converge with devastating effect. Teenage girls now have immense physical power--they can cause agonizing pain and even death. And, with this small twist of nature, the world drastically resets. From award-winning author Naomi Alderman, THE POWER is speculative fiction at its most ambitious and provocative, at once taking us on a thrilling journey to an alternate reality, and exposing our own world in bold and surprising ways.

"Gorgeous, vividly alive." —The New York Times "Soul-stretching, breathtaking...A game-changing gift to readers." —Booklist (starred review) From Chloé Cooper Jones—Pulitzer Prize finalist, philosophy professor, Whiting Creative Nonfiction Grant recipient—an "exquisite" (Oprah Daily) and groundbreaking memoir about disability, motherhood, and the search of a new way of seeing and being seen. "I am in a bar in Brooklyn, listening to two men, my friends, discuss whether my life is worth living." So begins Chloé Cooper Jones's bold, revealing account of moving through the world in a body that looks different than most. Jones learned early on to factor "pain calculations" into every plan, every situation. Born with a rare congenital condition called sacral agenesis which affects both her stature and gait, her pain is physical. But there is also the pain of being judged and pitied for her appearance, of being dismissed as "less than." The way she has been seen—or not seen—has informed her lens on the world her entire life. She resisted this reality by excelling academically and retreating to "the neutral room in her mind" until it passed. But after unexpectedly

becoming a mother (in violation of unspoken social taboos about the disabled body), something in her shifts, and Jones sets off on a journey across the globe, reclaiming the spaces she'd been denied, and denied herself. From the bars and domestic spaces of her life in Brooklyn to sculpture gardens in Rome; from film festivals in Utah to a Beyoncé concert in Milan; from a tennis tournament in California to the Killing Fields of Phnom Penh, Jones weaves memory, observation, experience, and aesthetic philosophy to probe the myths underlying our standards of beauty and desirability and interrogates her own complicity in upholding those myths. "Bold, honest, and superbly well-written" (Andre Aciman, author of *Call Me By Your Name*) *Easy Beauty* is the rare memoir that has the power to make you see the world, and your place in it, with new eyes.

A Crime Novel

How to Dance It Out, Stand In the Sun and Be Your Own Person

Moorlock Jones is a blackamoor, and in 1863, in the Realm of Greater Britain ruled by Queen Victoria I, Free Catholic Monarch, On The Square and On The Level, he is definitely a second class subject... not quite as lowly as the huffing, chuffing, steam powered mechanical men ("mechs" for short) who, newly emancipated by Victoria's own royal edict, now jostle alongside the poor and humble organic folks through every city street in the more civilized, industrialized areas of the world. Yet Moorlock and his mech companion Kelso cannot seem to extricate their own destinies from those of more elevated station... like the witch named Lady Jane Vanity, who even after her public hanging still reaches out for vengeance on Moorlock from beyond her restless grave. Or Nicholas Dee, Lord Avalon, Physick to the Crown and (unofficially) the Queen's court mage, whose secret status as Master of Shadow Branch, the covert cadre within Scotland Yard devoted to smashing all occult and diabolic plots against the Crown, has caused him to employ Moorlock, all unknowing, on several missions in the past. Yet now, with monstrous iron wolves stalking the dark and foggy streets of night time London while beautiful young upper class girls are snatched off the cobbles by cackling, boil necked hunchbacks, and a hanged witch's hideous death curse hangs in the very air above the Empire like the shadow of a deadly noose, can Moorlock, Kelso, Lord Avalon, and a few other valiant allies prevent rampant chaos from bringing all civilization down in flames?

A "remarkable novel of family and love during a time of war,"* Jenny Ashcroft's Under the Golden Sun follows a soul-searching young woman who takes a leap of faith and discovers a place to call home and someone to share her heart. England, 1941. The world is at war. London is under siege as the German blitz pounds the city without warning, without mercy. Rose Hamilton did her part as a member of the Women's Auxiliary Air Force until she was unfairly discharged following a tragic loss. Working as a secretary on a Devon farmland, Rose is out of harm's way, but she needs to contribute to something greater than herself to truly recover. Answering a newspaper advertisement for a companion to accompany an orphaned child to Australia, Rose becomes enchanted with four-year-old Walter Lucknow. Shy, imaginative, and kind, the boy lost his parents and has been living in near seclusion with his elder great aunt. As heir to a wealthy Australian cattle station, Walter must return to his homeland and his mother's family. Leaving her own family—and fiancé—Rose braves the long, dangerous voyage across Pacific waters where war is imminent to see Walter safely home. But upon arrival, Rose learns the truth about Walter's relationship to the Lucknows and the land he's supposed to inherit, a truth that haunts the boy's Uncle Max, a wounded pilot scarred inside and out. And as Max opens his heart up to Walter, Rose is drawn to the man's strength and compassion, finding herself torn between returning to England and staying with the child and man she's grown to love. *New York Times bestselling author Karen White

The dramatic human story of an epic scientific quest and of one man's forty-year obsession to find a solution to the thorniest scientific dilemma of the day--"the longitude problem." Anyone alive in the eighteenth century would have known that "the longitude problem" was the thorniest scientific dilemma of the day-and had been for centuries. Lacking the ability to measure their longitude, sailors throughout the great ages of exploration had been literally lost at sea as soon as they lost sight of land. Thousands of lives and the increasing fortunes of nations hung on a resolution. One man, John Harrison, in complete opposition to the scientific community, dared to imagine a mechanical solution-a clock that would keep precise time at sea, something no clock had ever been able to do on land. Longitude is the dramatic human story of an epic scientific quest and of Harrison's forty-year obsession with building his perfect timekeeper, known today as the chronometer. Full of heroism and chicanery, it is also a fascinating brief history of astronomy, navigation, and clockmaking, and opens a new window on our world.

Chris, Cathy, and the twins are to be kept hidden until their grandfather dies so that their mother will receive a sizeable inheritance, however, years pass and terrifying things occur as the four children grow up in their one room prison.
