After the Second Civil War, the Bill of Life states that human life may not be touched from the moment of conception until a child reaches the age of thirteen. However, a loophole allows parents to retroactively get rid of a teenager through a process called "unwinding." Three teens defy the system and run away from their unwinding: Connor, a rebel whose parents have ordered his unwinding; Risa, a ward of the state who is to be unwound due to cost-cutting; and Lev, his parents' tenth child whose unwinding has been planned since birth as a religious tithing. As their paths intersect and lives hang in the balance, Connor, Risa, and Lev must work together to survive—and they may change the fate of America in the process. This complete boxed set includes paperback editions of Unwind, UnWholly, UnSouled, UnDivided, and Unbound. A powerful dystopian drama ahead of its time, about a world in which ageing is no longer feared, and death is no longer inevitable. Now available in a stunning new cover look.

"Thanks to Connor, Lev, and Risa, and their high-profile revolt at Happy Jack Harvest Camp, people can no longer turn a blind eye to unwinding. Ridding society of troublesome teens and, in the same stroke, providing much-needed tissues for transplant might be convenient, but its morality has finally been brought into question. However, unwinding has become big business, and there are powerful political and corporate interests that want to see it not only continue, but expand, allowing the unwinding of prisoners and the impoverished. Cam is a teen who does not exist. He is made entirely out of the parts of other unwinds. Cam, a 21st century Frankenstein, struggles with a search for identity and meaning, as well as the concept of his own soul, if indeed a reword being can have one. When a sadistic bounty hunter who takes "trophies" from the unwinds he captures starts to pursue Connor, Risa and Lev, Cam finds his fate inextricably bound with theirs"~

"Galloping suspense dominates this riveting sequel to the post-apocalyptic Dark Inside" (Kirkus Reviews) as four teens continue the struggle for survival in a world gone mad. Aries, Clementine, Michael, and Mason have survived the first wave of the apocalypse that wiped out most of the world’s population and turned many of the rest into murderous Baggers. Now they’re hiding out in an abandoned house in Vancouver with a ragtag group of fellow teen survivors, trying to figure out their next move. Aries is trying to lead, but it’s hard to be a leader when there are no easy answers and every move feels wrong. Clementine is desperate to find her brother Heath, but it’s impossible to know where he’d be, assuming he’s alive. Michael is haunted by the memories of his actions during his harrowing struggle to survive. And Mason is struggling with something far worse: the fear that he may be a danger to his friends. As the Baggers begin to create a new world order, these four teens will have to stand and rely on each other in order to survive.

Candice Gaines loves Christmas. Not only does she bask in the twinkling lights, sing Christmas carols and go crazy with the decorations, she’s also in the giving spirit, donating much of her time and wealth to various charities in the local area. Charlie Sullivan despises Christmas. Though it keeps his family afloat, considering they own Sullivan Family Christmas Tree Farm, the main provider for Christmas trees on the Monterey peninsula, He’d much rather work among the trees versus have to deal with people. But Charlie’s parents are taking on more philanthropic projects—and as their oldest child, they want him to be their official public representative. He just has to play nice and convince everyone he’s not a total holiday hater. When Charlie’s mom asks Candice to accompany him to a variety of holiday parties and events, she reluctantly agrees. She thinks Charlie is a big ol’ Grinch, but is determined to change his mindset and help him spread Christmas cheer. Charlie finds Candice too chatty, too sweet, too much. Do people like her really exist? Why yes, yes they do. The more time they spend together—along with a few kisses under the mistletoe—the more they start to like each other. Hopefully Charlie can convince Candice he doesn’t have a heart that’s two sizes too small before the ball drops on New Year’s Eve.

In a future world where those between the ages of thirteen and eighteen can have their lives "unwound" and their body parts harvested for use by others, three teens go to extreme lengths to survive until they turn eighteen.

The greatest treasure, a most dangerous magic. Growing up in the Cinzio Traveling Players Company, Genevieve Flannery is accustomed to a life most teenagers could never imagine: daily workouts of extravagant acrobatics; wild animals for pets; and her mother, Delia, whose mind has always been tortured by visions—but whose love Geni never questions. In a world of performers who mystify and amaze on a daily basis, Delia’s ghostly hallucinations never seemed all that strange. . . until the evening Geni and her mother are performing an aerial routine they’ve done hundreds of times, and Delia falls to her death. That night, a dark curtain in Geni’s life opens. Everything has changed. As they reel from the tragedy, the Cinzio Players are also grappling with the circus’s new owner: a generous, mysterious man whose connection to the circus—Geni suspects—has a dark history. And with the discovery of an otherworldly inheritance and her perilous mission to protect it, Geni is suddenly stumbling into a new reality of her own, her life interrupted daily by the terrors only Delia used to see. As the visions around her grow stronger, and her magical legacy becomes even more menacing, Geni is not sure who she should trust or love. Worst of all, she’s starting to question whether she can trust her own mind.

Beneath the sewer grates and manholes of the city lies a strange and secret world called the Downside. Every Downsider knows that it’s forbidden to go Topside, and most fear a collision of the two worlds. But fourteen-year-old Talon is curious about what goes on above ground, and one day he ventures out in search of medicine for his ailing sister. There he meets Lindsay, who is as curious about Talon’s world as he is about hers. When Lindsay visits the Downside for the first time, she marvels at the spirit of the Downsiders, and the way they create works of art from topside "trash," like old subway tokens and forgotten earrings. As awed as she is by the Downside, however, she also questions its origins, and when she finds out that this fantastic world is not all it appears to be, she is determined to let Talon the truth. Then a construction accident threatens to crush Talon’s world, and his loyalty is put to the test. Can the truth save the Downside, or will it destroy an entire civilization? Neal Shusterman takes readers on an amazing journey into a place that’s only a few steps away, yet beyond their wildest dreams.

Not every child who dies goes on to the afterlife. Some are caught halfway between life and death, in a sort of limbo known as Everlost: a shadow of the living world, filled with all the things and places that no longer exist. It’s a magical, yet dangerous place where bands of lost kids run wild and anyone who stands in the same place too long sinks to the center of the Earth. Allie and Nick don’t survive the car crash, and end up in Everlost, where coins are more valuable than anyone knows, fortune cookies tell the truth, monsters are real, and the queen of lost souls lives in a once-beloved tower. Nick and Allie have to learn to survive in a world with different rules, and figure out who they can trust--and who they must oppose at all costs. At stake is nothing less than the fate of Everlost and the living world they have left behind. In this gripping trilogy, Neal Shusterman explores questions of life, death, and what just might lie in between. A group of monumentally powerful teens must face an ancient, soul-eating foe in this second book of The Star Shards Chronicles. A cataclysmic explosion has given earthly teens astronomical powers—when the star Mentarsus-H went supernova at their conceptions, the teens absorbed the shattered soul of the star and inherited unimaginable abilities. Now the Star Shards have become like gods, drunk on their own power—and ripe for manipulation by The Bringer, a creature who would turn against one another and transform the planet into his own personal feeding ground. But who is more dangerous: The Bringer or the Star Shards? Acclaimed author Neal Shusterman presents “a story which is grippingly unexpected” (The Bookwatch) that sets the stage for the riveting conclusion to The Star Shards trilogy. Originally published by Tor Fantasy in 1999.

The Shadow Club starts simply enough: the kids who are tired of being second-best get together and, for the first time, talk about how they feel. But soon the members decide to play practical jokes on the first-place winners they envy, and things begin to spin dangerously out of control. "This is a provocative novel . . . The plot is ingeniously simple and the course of events compelling. Brisk enough to snag a popular audience, but forceful in impact, it will leave readers thinking." (Booklist, starred review)

But the stakes get higher when Blake has to chase Quinn into a bizarre phantom carnival that traps its customers forever. After getting rid of the odd antiques in a garage sale, Nick befriends some local kids—Mitch, Caitlin, and Vincent—and they discover that all of the objects have extraordinary properties. What’s more, Nick figures out that the attic is a strange magnetic vortex, which attracts all sorts of trouble. It’s as if the attic itself has an intelligence . . . and a purpose. Ultimately Nick learns that the genius Nikola Tesla placed the items-his last inventions-in the attic as part of a larger plan that he mathematically predicted. Nick and his new friends must retrieve everything that was sold at the garage sale and keep it safe. But the task is fraught with peril-in addition to the dangers inherent in Tesla’s mysterious and powerful creations, a secret society of physicists, the Accelerati, is determined to stop Nick and alter destiny to achieve its own devious ends. It’s a lot for a guy to handle, especially when he’d much rather fly under the radar as the new kid in town. Fans of intrigue, action, humor, and nonstop surprises are guaranteed a read unlike any other in Tesla’s Attic, Book One of the Accelerati Trilogy.
