**This book studies the hitherto overlooked genre of horror cinema in India. It uncovers some unique and diverse themes that these films deal with, including the fear of the unknown, the supernatural, occult practices, communication with spirits of the deceased, ghosts, reincarnation, figures of vampires, zombies, witches and transmutations of human beings into non-human forms such as werewolves. It focusses on the construction of feminine and masculine subjectivities in select horror films across seven major languages – Hindi, Tamil, Telugu, Kannada, Bangla, Marathi and Malayalam. The author shows that the alienation of the body and bodily functions through the medium of the horror film serves to deconstruct stereotypes of caste, class, gender and anthropocentrism. Some riveting insights emerge thus, such as the masculinist undertow of the possession narrative and how complex structures of resistance accompany the anxieties of culture via the dread of laughter. This original account of Indian cinematic history is accessible yet strongly analytical and includes an exhaustive filmography. The book will interest scholars and researchers in film studies, media and cultural studies, art, popular culture and performance, literature, gender, sociology, South Asian studies, practitioners, filmmakers as well as cinephiles.**

Long held to be among the world's greatest filmmakers, Ingmar Bergman shaped international art cinema from the 1950s to the 1980s. Among his many works, *Persona* is often considered to be his masterpiece and is often described as one of the central works of Modernism. Bergman himself claimed that this film 'touched wordless secrets only the cinema can discover'. The essays collected in this volume, and published for the first time, use a variety of methodologies to explore topics such as acting technique, genre, and dramaturgy. It also includes translations of Bergman's early writings that have never before been available in English, as well as an updated filmography and bibliography that cover the filmmaker's most recent work.

This volume offers insights into ongoing, global socio-economic transformations by directing attention to the significance of labour, work, craft, community, social institutions, social movements and, emergent subjectivities in different parts of the world. This is in contrast to theories that project globalisation as a process driven exclusively by global capital and technology, a scheme in which some parts of the world forever will be [peripheries] supplying labor and natural resources, the lives and work of those people purged of originality, meaning and value by the very construct that describes them. Together the chapters in the book present a non-essentialist and non-linear reading of global transformations by examining the relations and adaptations between economy, polity and society, which remains a fundamentally unresolved question in the social sciences. Combining a wealth of conceptual and empirical investigations, this book will be of interest to scholars and researchers of sociology, globalisation studies, anthropology, economics, development studies, and Area studies.

**This book traces the historical evolution of Indian cinema through a number of key decades. The book is made up of 14 chapters with each chapter focusing on one key film, the chosen films analysed in their wider social, political and historical context whilst a concerted engagement with various ideological strands that underpin each film is also evident. In addition to exploring the films in their wider contexts, the author analyses selected sequences through the conceptual framework common to both film and media studies. This includes a consideration of narrative, genre, representation, audience and mise-en-scene. The case studies run chronologically from Awaara (The Vagabond, 1951) to The Elements Trilogy: Water (2005) and include films by such key figures as Satyajit Ray (The Lonely Wife), Ritwick Ghatak (Cloud Capped Star), Yash Chopra (The Wall) and Mira Nair (Salaam Bombay!).**

**With a subtle yet penetrating understanding of the intricate interplay of gender, race, and class, Sheba George examines an unusual immigration pattern to analyze what happens when women who migrate before men become the breadwinners in the family. Focusing on a group of female nurses who moved from India to the United States before their husbands, she shows that this story of economic mobility and professional achievement conceals underlying conditions of upheaval not only in the families and immigrant community but also in the sending community in India. This richly textured and impeccably researched study deftly illustrates the complex reconfigurations of gender and class relations concealed behind a quintessential American success story. When Women Come First explains how men who lost social status in the immigration process attempted to reclaim ground by creating new roles for themselves in their church. Ironically, they were stigmatized by other upper class immigrants as men who needed to "play in the church" because the "nurses were the bosses" in their homes. At the same time, the nurses were stigmatized as lower class, sexually loose women with too much independence. George's absorbing story of how these women and men negotiate this complicated network provides a groundbreaking perspective on the shifting interactions of two nations and two cultures.**

First comprehensive account of the seven-decade long journey of the Film Society Movement in India, and how it helped Indian cinema come into its own. Till 1950s, 80 % of the films screened in India were from Hollywood. Today, only 10 % films shown in India are of foreign origin. One of the main factors that aided in bringing about this massive transformation was the formation of Film Societies in India. They soon became a catalyst to a new film culture, impacting quality of Indian films, both in technology and content. This book studies this historic Film Society movement, from its origin, to the crisis of its identity in the 80s and 90s to its revival in 2000s. It not only narrates the history, the heroes, the institutions, crises, technological changes and the transformation of the Film Society Movement but also debates on the future of this movement.

Herbert Asbury presents here a vivid and startling account of New York gangdom from its beginning in Revolutionary times to comparatively recent days. Here are the stories of the great gangs which terrorized the city and at times menaced its very existence—from the Bowery Boys and the Dead Rabbits to the Gophers and the Eastmans. Kid Dropper, Dopey Benny, Gyp the Blood and Owney Madden are a few of the gangster luminaries described, not to mention such female evildoers as Gallus Mag and Sadie the Goat. Nor have the underworld's lesser lights been overlooked; for these pages are crowded with a host of gang warriors, pickpockets, tong leaders, murderers, politicians, gamblers, prostitutes, dive-keepers and a few would-be reformers. Mr. Asbury has created such a rich, factual background for this chronicle of crime and gangsterism that the book gains considerable stature as a revealing picture of New York City's history through a century of frenzied growth and expansion. Whether you read it as such or merely for amusement, it is a swift, exciting experience.

A book about how Shakespeare became fascinated with the world, and how the world became fascinated with Shakespeare - the first book of its kind There are 83 copies of the First Folio in a vault beneath Capitol Hill, the world's largest collection. Well over 150 Indian movies are based on Shakespeare's plays - more than in any other nation. If current trends continue, there will soon be more high-school students reading The Merchant of Venice in Mandarin Chinese than in early-modern English. Why did this happen - and how? Ranging ambitiously across four continents and 400 years, *Worlds Elsewhere* is an eye-opening account of how Shakespeare went global. Seizing inspiration from the playwright's own fascination with travel, foreignness and distant worlds, Dickson takes us on an extraordinary journey - from Hamlet performed by English actors tramping through Poland in the early 1600s to twenty-first-century Shanghai, where Shashibiya survived Mao's Cultural Revolution to become an honored Chinese author. En route we visit Nazi Germany, where Shakespeare became an unlikely favorite, and delve into the history of Bollywood, where Shakespearian stories helped give birth to Indian cinema. In Johannesburg, we discover how Shakespeare was enlisted into the fight to end apartheid. In California, we encounter him as the most popular playwright of the American frontier. Both a cultural history and a literary travelogue, the first of its kind, *Worlds Elsewhere* explores how Shakespeare became the world's writer, and how his works have changed beyond all recognition during the journey.

This book combines multiple theoretical approaches to provide a fresh perspective on Bollywood—just as a Bollywood film that transgresses multiple genres—and challenges the homogenizing tendencies in much of the ongoing scholarship in the area. It covers five areas of controversial theorization: the religious frame, the musical frame, the subaltern frame, the (hetero) sexual frame and the 'crossover' frame. By deconstructing each of these hegemonic paradigms, it reshapes the understanding of a Bollywood film and restructures its relationships with multiple disciplines including film and theatre studies, postcolonial studies, South Asian studies, queer studies, and transnational studies. This fusion is also representative of the larger objective of this work, namely, to destabilize Bollywood's position within any one sphere of reference and, instead, to illuminate how several realms of meaning are at play in its construction. The aim in doing so is to demonstrate how a variety of critical methodologies can enable a more comprehensive reading of the films making up this corpus.

From Napster to Total Information Awareness to flash mobs, the debate over information technology in our lives has revolved around a single question: How closely do we want cyberspace to resemble the real world? Siva Vaidhyanathan enters this debate with a seminal insight: While we've been busy debating how to make cyberspace imitate the world, the world has been busy imitating cyberspace. More and more of our social, political, and religious activities are modeling themselves after the World Wide Web. Vaidhyanathan tells us the key information structure of our time, and the key import from cyberspace into the world, is the "peer-to-peer network." Peer-to-peer networks have always existed -- but with the rise of electronic communication, they are suddenly coming into their own. And they are drawing the outlines of a battle for information that will determine much of the culture and politics of our century, affecting everything from society to terrorism, from religion to the latest social fads. The Anarchist in the Library is a radically original look at how this battle defines one of the major fault lines of twenty-first-century civilization.

The baby owls came out of their house, and they sat on the tree and waited. A big branch for Sarah, a small branch for Percy, and an old piece of ivy for Bill. When three baby owls awake one night to find their mother gone, they can't help but wonder where she is. Stunning illustrations from unique and striking perspectives capture the owls as they worry about their mother: What is she doing? When will she be back? What scary things move all around them? Not surprisingly, a joyous flapping and dancing and bouncing greets her return, lending a celebratory tone to the ending of this comforting tale. Never has the plight of young ones who miss their mother been so simply told or so beautifully rendered.

Action, African greats, alcohol, Robert Aldrich, aliens, Woody Allen, Pedro Almodovar, Robert Altman, animated, anime, apocalypses, Argentina, art, Asia minor, avant garde... And that's just A for you. A taste of this fabulously quirky and enjoyable book which is both a celebration of movies - and movie trivia - and a handy, entertaining guide to films that we know you will enjoy. It is fantastically functional. The lists are well conceived and easy to understand - mostly assembled by genre, actor, director, theme or country of origin - and the reviews are witty and informative. Oddly enough, most movie guides are not full of recommendations. But Movie Lists is, in spades, leaving readers in no doubt that the films reviewed are the business. Oh - and you don't have to watch them all before you die. There is no premise of death in this book. You just need to get down to the local Blockbusters or flick your remote to Movies on Demand. Only the popcorn is not supplied.
