

US History Chapter 25 Section 1 Guided Reading

A NEW YORK TIMES NOTABLE BOOK • The dramatic story of the Flint water crisis, by a relentless physician who stood up to power. “ Stirring . . . [a] blueprint for all those who believe . . . that ‘ the world . . . should be full of people raising their voices. ’ ” —The New York Times “ Revealing, with the gripping intrigue of a Grisham thriller. ” —O. The Oprah Magazine Here is the inspiring story of how Dr. Mona Hanna-Attisha, alongside a team of researchers, parents, friends, and community leaders, discovered that the children of Flint, Michigan, were being exposed to lead in their tap water—and then battled her own government and a brutal backlash to expose that truth to the world. Paced like a scientific thriller, What the Eyes Don ’ t See reveals how misguided austerity policies, broken democracy, and callous bureaucratic indifference placed an entire city at risk. And at the center of the story is Dr. Mona herself—an immigrant, doctor, scientist, and mother whose family ’ s activist roots inspired her pursuit of justice. What the Eyes Don ’ t See is a riveting account of a shameful disaster that became a tale of hope, the story of a city on the ropes that came together to fight for justice, self-determination, and the right to build a better world for our children. Praise for What the Eyes Don ’ t See “ It is one thing to point out a problem. It is another thing altogether to step up and work to fix it. Mona Hanna-Attisha is a true American hero. ” —Erin Brockovich “ A clarion call to live a life of purpose. ” —The Washington Post “ Gripping . . . entertaining . . . Her book has power precisely because she takes the events she recounts so personally. . . . Moral outrage present on every page. ” —The New York Times Book Review “ Personal and emotional. . . She vividly describes the effects of lead poisoning on her young patients. . . . She is at her best when recounting the detective work she undertook after a tip-off about lead levels from a friend. . . . Flint will not be defined by this crisis. ” —vows Ms. Hanna-Attisha. “—The Economist “ Flint is a public health disaster. But it was Dr. Mona, this caring, tough pediatrician turned detective, who cracked the case. ” —Rachel Maddow

America's History/For the AP Course/Model Rules of Professional Conduct/American Bar Association

Okonkwo is the greatest warrior alive, famous throughout West Africa. But when he accidentally kills a clansman, things begin to fall apart. Then Okonkwo returns from exile to find missionaries and colonial governors have arrived in the village. With his world thrown radically off-balance he can only hurtle towards tragedy. Chinua Achebe's stark novel reshaped both African and world literature. This arresting parable of a proud but powerless man witnessing the ruin of his people begins Achebe's landmark trilogy of works chronicling the fate of one African community, continued in Arrow of God and No Longer at Ease.

Explores the story of United States history, weaving the reflections of people who experienced history firsthand throughout the narrative. Thought-provoking lessons make history human and relevant to students' everyday lives, helping them to realize the richness of our nation's history. Identifies themes in geography and technology that influenced American history.

This User's Guide is intended to support the design, implementation, analysis, interpretation, and quality evaluation of registries created to increase understanding of patient outcomes. For the purposes of this guide, a patient registry is an organized system that uses observational study methods to collect uniform data (clinical and other) to evaluate specified outcomes for a population defined by a particular disease, condition, or exposure, and that serves one or more predetermined scientific, clinical, or policy purposes. A registry database is a file (or files) derived from the registry. Although registries can serve many purposes, this guide focuses on registries created for one or more of the following purposes: to describe the natural history of disease, to determine clinical effectiveness or cost-effectiveness of health care products and services, to measure or monitor safety and harm, and/or to measure quality of care. Registries are classified according to how their populations are defined. For example, product registries include patients who have been exposed to biopharmaceutical products or medical devices. Health services registries consist of patients who have had a common procedure, clinical encounter, or hospitalization. Disease or condition registries are defined by patients having the same diagnosis, such as cystic fibrosis or heart failure. The User's Guide was created by researchers affiliated with AHRQ's Effective Health Care Program, particularly those who participated in AHRQ's DEcIDE (Developing Evidence to Inform Decisions About Effectiveness) program. Chapters were subject to multiple internal and external independent reviews.

Give Me Liberty! is the #1 book in the U.S. history survey course because it works in the classroom. A single-author text by a leader in the field, Give Me Liberty! delivers an authoritative, accessible, concise, and integrated American history. Updated with powerful new scholarship on borderlands and the West, the Fifth Edition brings new interactive History Skills Tutorials and Norton InQuizitive for History, the award-winning adaptive quizzing tool.

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

With 83 additional outline and four-color maps, World Civilizations: The Global Experience, Fifth Edition, Atlas Edition, helps students with geography, one of the most difficult aspects of World history courses for many. The maps are accompanied by review questions that call on students to identify important geographical areas and think critically about the connection between geography and historical events. The maps are on perforated pages and are organized by chapter so that they can be assigned easily and collected. The primary goal of World Civilizations is to present a truly global history—since the development of agriculture and herding to the present. Using a unique periodization, this book divides the main periods of human history according to changes in the nature and extent of global contacts. This global world history text emphasizes the major stages in the interactions among different peoples and societies, while also assessing the development of major societies. Presenting social and cultural as well as political and economic aspects, the book examines key civilizations in world history. World Civilizations balances this discussion of independent developments in the world's major civilizations with comparative analysis of the results of global contact.

THE ESSENTIAL WORK IN TRAVEL MEDICINE -- NOW COMPLETELY UPDATED FOR 2018 As unprecedented numbers of travelers cross international borders each day, the need for up-to-date, practical information about the health challenges posed by travel has never been greater. For both international travelers and the health professionals who care for them, the CDC Yellow Book 2018: Health Information for International Travel is the definitive guide to staying safe and healthy anywhere in the world. The fully revised and updated 2018 edition codifies the U.S. government's most current health guidelines and information for international travelers, including pretravel vaccine recommendations, destination-specific health advice, and easy-to-reference maps, tables, and charts. The 2018 Yellow Book also addresses the needs of specific types of travelers, with dedicated sections on:
• Precautions for pregnant travelers, immunocompromised travelers, and travelers with disabilities
• Special considerations for newly arrived adults, immigrants, and refugees
• Practical tips for last-minute or resource-limited travelers
• Advice for air crews, humanitarian workers, missionaries, and others who provide care and support overseas
Authored by a team of the world's most esteemed travel medicine experts, the Yellow Book is an essential resource for travelers -- and the clinicians overseeing their care -- at home and abroad.

Handbook of Clinical Neurology: Volume 95 is the first of over 90 volumes of the handbook to be entirely devoted to the history of neurology. The book is a collection of historical materials from different neurology professionals. The book is divided into 6 sections and composed of 55 chapters organized around different aspects of the history of neurology. The first section presents the beginnings of neurology: ancient trepanation, its birth in Mesopotamia, ancient Egypt; the emergence of neurology in the biblical text and the Talmud; neurology in the Greco-Roman world and the period following Galen; neurological conditions in the European Middle Ages; and the development of neurology in the 17th and 18th centuries. The second section narates the birth of localization theory; the beginning of neurology and histological applications, neuroanatomy, neurophysiology, surgical neurology and other anatomic-clinical methods. The third section covers further development of the discipline, including methods of neurological illustration and hospitals in neurology and neurosurgery. This section also narates the history of child neurology, neurodisability and neuroendocrinology. It also features the application of molecular biology on clinical neurology. The fourth section describes the dysfunctions of the nervous system and their history. The fifth and last section covers the regional landmarks of neurology and the different treatments and recovery. The text is informative and useful for neuroscience or neurology professional, researchers, clinical practitioners, mental health experts, psychiatrists, and academic students and scholars in neurology.
• A comprehensive accounting of historical developments and modern day advancements in the field of neurology
• State-of-the-art information on topics including brain damage and dysfunction of the nervous system
• New treatments and recovery methods from redundancy to vicarization and neural transplantation, amongst others

The unforgettable memoir of a woman at the front lines of the civil rights movement—a harrowing account of black life in the rural South and a powerful affirmation of one person’s ability to affect change. “Anne Moody’s autobiography is an eloquent, moving testimonial to her courage.”—Chicago Tribune Born to a poor couple who were tenant farmers on a plantation in Mississippi, Anne Moody lived through some of the most dangerous days of the pre-civil rights era in the South. The week before she began high school came the news of Emmet Till’s lynching. Before then, she had “known the fear of hunger, hell, and the Devil. But now there was . . . the fear of being killed just because I was black.” In that moment was born the passion for freedom and justice that would change her life. A straight-A student who realized her dream of going to college when she won a basketball scholarship, she finally dared to join the NAACP in her junior year. Through the NAACP and later through CORE and SNCC, she experienced firsthand the demonstrations and sit-ins that were the mainstay of the civil rights movement—and the arrests and jailings, the shotguns, fire hoses, police dogs, billy clubs, and deadly force that were used to destroy it. A deeply personal story but also a portrait of a turning point in our nation’s destiny, this autobiography lets us see history in the making, through the eyes of one of the footsoldiers in the civil rights movement. Praise for Coming of Age in Mississippi “A history of our time, seen from the bottom up, through the eyes of someone who decided for herself that things had to be changed . . . a timely reminder that we cannot now relax. “—Senator Edward Kennedy, The New York Times Book Review “Something is new here . . . rural southern black life begins to speak. It hits the page like a natural force, crude and undeniable and, against all principles of beauty, beautiful.”—The Nation “Engrossing, sensitive, beautiful . . . so candid, so honest, and so touching, as to make it virtually impossible to put down.”—San Francisco Sun-Reporter USA’s historic indie!l 1996

Disease Control Priorities in Developing Countries

A novel

Little Dorrit Book 2

Gospel Principles

A Story of Crisis, Resistance, and Hope in an American City

Based on careful analysis of burden of disease and the costs of interventions, this second edition of 'Disease Control Priorities in Developing Countries, 2nd edition' highlights achievable priorities; measures progress toward providing efficient, equitable care; promotes cost-effective interventions to targeted populations; and encourages integrated efforts to optimize health. Nearly 500 experts - scientists, epidemiologists, health economists, academicians, and public health practitioners - from around the world contributed to the data sources and methodologies, and identified challenges and priorities, resulting in this integrated, comprehensive reference volume on the state of health in developing countries.

Since its original landmark publication in 1980, A People's History of the United States has been chronicling American history from the bottom up, throwing out the official version of history taught in schools -- with its emphasis on great men in high places -- to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, A People's History is the only volume to tell America's story from the point of view of -- and in the words of -- America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As historian Howard Zinn shows, many of our country's greatest battles -- the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality -- were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, A People's History of the United States, which was nominated for the American Book Award in 1981, features insightful analysis of the most important events in our history. Revised, updated, and featuring a new after, word by the author, this special twentieth anniversary edition continues Zinn's important contribution to a complete and balanced understanding of American history.

"Americans take great pride in their respect for the rule of law and our Constitution. And yet too frequently specific legal rights and procedures protected by the Constitution have been suspended on the grounds of emergency, and we have tolerated the longer exclusion of groups such as African-Americans from the full protection of our laws and the Constitution. This collection of essays by leading historians and scholars of law and American history, explores what it means for a democracy to suspend the rule of law and how Americans both justify and dispute these suspensions. Too often they are treated as isolated events, ignoring larger patterns of exclusion from the rule of law, as well as the threat they pose to democracy. In this book the authors seek to weave together these stories to show what these suspensions tell us about the limits of American democracy"--

This National Book Award Finalist is a thought-provoking exploration of emotional abuse, self-reliance and the nature of evil. A heart-wrenching portrait of family crisis, this is perfect for fans of Laurie Halse Anderson's Speak and Jay Asher's Thirteen Reasons Why. For Matt and his sisters, life with their cruel, physically abusive mother is a day-to-day struggle for survival. But then Matt witnesses a man named Murdoch coming to a child's rescue in a convenience store; and for the first time, he feels a glimmer of hope. Then, amazingly, Murdoch begins dating Matt's mother. Life is suddenly almost good. But the relief lasts only a short time. When Murdoch inevitably breaks up with their mother, Matt knows that he'll need to take some action. Can he call upon Murdoch to be his hero? Or will Matt have to take measures into his own hands? A gripping, powerful novel that will stay with you long after you've read it. Nancy Werlin, the New York Times Bestselling author of Impossible, shows why she is a master of her genre. "[A] dark but hopeful tale, with pacing and suspense guaranteed to leave readers breathlessly turning the pages."—Booklist (starred review) “Beautifully framed as a letter from Matthew to his younger sister, the suspense is paced to keep Matthew’s survival and personal revelations chock-full of dramatic tension. Bring tissues.”—Kirkus (starred review) “Grace and insight.”—School Library Journal (starred review) National Book Award Finalist LA Times Book Prize Finalist ALA Best Books of the Year ALA Quick Pick

Coming of Age in Mississippi

A Study Guide and a Teacher's Manual Gospel Principles was written both as a personal study guide and as a teacher's manual. As you study it, seeking the Spirit of the Lord, you can grow in your understanding and testimony of God the Father, Jesus Christ and His Atonement, and the Restoration of the gospel. You can find answers to life's questions, gain an assurance of your purpose and self-worth, and face personal and family challenges with faith.

In this book, Howard Zinn rigorously demands what he called American exceptionalism: the belief that America can make steady, sure progress if we preserve our individualism, preserve and stimulate the initiative of our people, insist on and maintain the safeguards to equality of opportunity, and honor service as a part of our national character.

Published by OpenStax College, U.S. History provides the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

"I too am not a bit lame—I too am untranslatable I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," Leaves of Grass The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—a accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, The American Yawp incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of The American Yawp will be available in two print volumes designed for the U.S. history survey. Volume II opens in the Gilded Age, before moving through the twentieth century as the country reckoned with economic crises, world wars, and social, cultural, and political upheaval at home. Bringing the narrative up to the present, The American Yawp enables students to ask their own questions about how the past informs the problems and opportunities we confront today.

For all readers, especially those who only of World War II may be from textbooks or films, *Ernie's War* offers a revealing, poignant look at the actual experiences of the average foot soldier swept into the tumult of battle. 9 black-and-white photographs.

Presented in Large Print Format for easy reading this is Little Dorrit Book 2 Volume I The air there was charged with the scent of gathered grapes. Baskets, troughs, and tubs of grapes stood in the dim village doorways, stopped the steep and narrow village streets, and had been carrying all day along the roads and lanes. Grapes, split and crushed under foot, lay about everywhere. The child carried in a sling by the laden peasant woman toiling home, was quieted with picked-up grapes; the idiot sunning his big goitre under the leaves of the wooden chalet by the way to the waterfall, sat munching grapes; the breath of the cows and goats was redolent of leaves and stalks of grapes; the company in every little cabaret were eating, drinking, talking grapes. A pity that no ripe touch of this generous abundance could be given to the thin, hard, stony wine, which after all was made from the grapes!

Originally published in the midst of the cold war, *Is This Tomorrow* is a classic example of red scare propaganda. The story envisions a scenario in which the Soviet Union orders American communists to overthrow the US Government. Charles Schulz contributed to the artwork throughout the issue. Reprinted here for the first time in 70 years.

The American Journey

Looking Backward, 2000–1887

U.S. History by OpenStax (Print Version, Paperback, B&W, Volume 1 & 2)

The Global Experience

Big Ideas in U.S. History

American Empire

With a new Introduction to this touching homage to his mother, the author paints a portrait of growing up in a black neighborhood as the child of an interracial marriage. Although raised an Orthodox Jew in the South, McBride's mother abandoned her heritage, moved to Harlem, and married a black man.

An instant classic and early prescient cultural phenomenon, from "the patron saint of feminist dystopian fiction" (New York Times). Now an award-winning Hulu series starring Elizabeth Moss. In this multi-award-winning, bestselling novel, Margaret Atwood has created a stunning Orwellian vision of the near future. This is the story of Offred, one of the unfortunate "Handmaids" under the new social order who have only one purpose: to breed. In Gilead, where women are prohibited from holding jobs, reading, and forming friendships, Offred's persistent memories of life in the "time before" and her will to survive are acts of rebellion. Provocative, startling, prophetic, and with Margaret Atwood's devastating irony, wit, and acute perceptive powers in full force, *The Handmaid's Tale* is at once a mordant satire and a dire warning.

A "fascinating" look at what students in Russia, France, Iran, and other nations are taught about America (The New York Times Book Review). This "timely and important" book (History News Network) gives us a glimpse into classrooms across the globe, where opinions about the United States are first formed. History Lessons includes selections from textbooks and teaching materials used in Russia, France, Iran, Saudi Arabia, Cuba, Canada, and others, covering such events as the American Revolution, the Cuban Missile Crisis, the Iran hostage crisis, and the Korean War—providing some alternative viewpoints on the history of the United States from the time of the Viking explorers to the post-Cold War era. By juxtaposing starkly contrasting versions of the historical events we take for granted, History Lessons affords us a sometimes hilarious, often sobering look at what the world thinks about America's past. "A brilliant idea." —Foreign Affairs NATIONAL BESTSELLER • PEN/HEMINGWAY AWARD WINNER • One of The New York Times 10 Best Books of the Year • A wondrous and shattering novel that follows twelve characters from Native communities: all traveling to the Big Oakland Powwow, all connected to one another in ways they may not yet realize. Among them is Jacquie Red Feather, newly sober and trying to make it back to the family she left behind. Dene Oxendene, pulling his life together after his uncle's death and working at the powwow to honor his memory. Fourteen-year-old Orvil, coming to perform traditional dance for the very first time. Together, this chorus of voices tells of the plight of the urban Native American—grappling with a complex and painful history, with an inheritance of beauty and spirituality, with communion and sacrifice and heroism. Hailed as an instant classic, *There* There is at once poignant and unflinching, utterly contemporary and truly unforgettable.

How Textbooks from Around the World Portray U.S. History

Is This Tomorrow

Things Fall Apart

The Handmaid's Tale

A Reader

American Individualism

An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students.

In a challenging, provocative book, Andrew Bacevich reconsiders the assumptions and purposes governing the exercise of American global power. Examining the presidencies of George H. W. Bush and Bill Clinton—as well as George W. Bush's first year in office—he demolishes the view that the United States has failed to devise a replacement for containment as a basis for foreign policy. He finds instead that successive post-Cold War administrations have adhered to a well-defined "strategy of openness." Motivated by the imperative of economic expansionism, that strategy aims to foster an open and integrated international order, thereby perpetuating the undisputed primacy of the world's sole remaining superpower. Moreover, openness is not a new strategy, but has been an abiding preoccupation of policymakers as far back as Woodrow Wilson. Although based on expectations that eliminating barriers to the movement of trade, capital, and ideas nurtures not only affluence but also democracy, the aggressive pursuit of openness has met considerable resistance. To overcome that resistance, U.S. policymakers have with increasing frequency resorted to force, and military power has emerged as never before as the preferred instrument of American statecraft, resulting in the progressive militarization of U.S. foreign policy. Neither indictment nor celebration, American Empire sees the drive for openness for what it is—a breathtakingly ambitious project aimed at erecting a global imperium. Large questions remain about that project's feasibility and about the human, financial, and moral costs that it will entail. By penetrating the illusions obscuring the reality of U.S. policy, this book marks an essential first step toward finding the answers. Table of Contents: Preface Introduction 1. The Myth of the Reluctant Superpower 2. Globalization and Its Concomits 3. Policy by Default 4. Strategy of Openness 5. Full Spectrum Dominance 6. Gunboats and Gurkhas 7. Rise of the Proconsuls 8. Different Drummers, Same Drum 9. War for the Imperium Notes Acknowledgments Index Reviews of this book: [A] straightforward "critical interpretation of American statecraft in the 1990s"...he is straightforward, too, in establishing where he stands on the political spectrum about US foreign policy... Bacevich insists that there are no differences in the key assumptions governing the foreign policy of the administrations of Bush I, Clinton, and Bush II—and this will certainly be the subject of passionate debate...Bacevich's argument persuades...by means of engaging prose as well as the compelling and relentless accumulation of detail...[Brng]s badly needed [perspective] to troubled times. --James A. Miller, Boston Globe Reviews of this book: For everyone there's Andrew Bacevich's American Empire, an intelligent, elegantly written, highly convincing polemic that demonstrates how the motor of US foreign policy since independence has been the need to guarantee economic growth. --Dominic Donald, The Guardian Reviews of this book: Andrew Bacevich's remarkably clear, cool-headed, and enlightening book is an expression of the United States' unadmitted imperial primacy. It's as bracing as a plunge into a clear mountain lake after exposure to the soporific internationalist conventional wisdom... Bacevich performs an invaluable service by restoring missing historical context and perspective to today's shallow, hand-wringing discussion of Sept. 11... Bacevich's brave, intelligent book restores our vocabulary to debate anew the United States' purpose in the world. --Richard J. Whalen, Across the Board Reviews of this book: To say that Andrew Bacevich's American Empire is a truly realistic work of realism is therefore to declare it not only a very good book, but also a pretty rare one. The author, a distinguished former soldier, combines a tough-minded approach to the uses of military force with a grasp of American history that is both extremely knowledgeable and exceptionally clear-sighted. This book is indispensable for anyone who wants to understand the background to U.S. world hegemony at the start of the 21st century, and it is also a most valuable warning about the dangers into which the pursuit and maintenance of this hegemony may lead America. --Anatol Levin, Washington Monthly Reviews of this book: American Empire is an immensely thoughtful book. Its reflections go beyond the narrow realm of U.S. security policy and demonstrate a deep understanding of American history and culture. --David Hastings Dunn, Political Studies Review I have long suspected our nation's triumphs and trials owed much to the American genius for solipsism and self-deception. Bacevich has convinced me of it by holding up a mirror to self-styled idealists and realists alike. Read all the books you want about the post-Cold War. post-9/11 world, just be sure American Empire is one of them. --Walter A. McDougall, Pulitzer Prize-winning historian, University of Pennsylvania This deeply informed, impressive polemical book is precisely what Americans, in and outside of the academy, needed before 9/11 and need now even more. Crisp, lively, biting prose will help them enjoy it. Among its many themes are hubris, hegemony, and the fatuousness of claims by the American military that they can now achieve "transparency" in war-making. --Michael S. Sherry, Northwestern University The United States could not possibly have an empire. Americans think. But we do. And with verve and telling insight Andrew Bacevich shows how it works and what it means. --Ronald Steel, author of Temptations of a Superpower: America's Foreign Policy after the Cold War

During July 10-13, 2011, 68 participants from 32 countries gathered in Istanbul, Turkey for a workshop organized by the United States National Research Council on Anticipating Biosecurity Challenges of the Global Expansion of High-containment Biological Laboratories. The United States Department of State's Biosecurity Engagement Program sponsored the workshop, which was held in partnership with the Turkish Academy of Sciences. The international workshop examined biosafety and biosecurity issues related to the design, construction, maintenance, and operation of high-containment biological laboratories- equivalent to United States Centers for Disease Control and Prevention biological safety level 3 or 4 labs. Although these laboratories are needed to characterize highly dangerous human and animal pathogens, assist in disease surveillance, and produce vaccines, they are complex systems with inherent risks. Biosecurity Challenges of the Global Expansion of High-Containment Biological Laboratories summarizes the workshop discussion, which included the following topics: Technological options to meet diagnostic, research, and other goals; Laboratory construction and commissioning; Operational maintenance to provide sustainable capabilities, safety, and security; and Measures for encouraging a culture of responsible conduct. Workshop attendees described

the history and current challenges they face in their individual laboratories. Speakers recounted steps they were taking to improve safety and security, from running training programs to implementing a variety of personnel reliability measures. Many also spoke about physical security, access controls, and monitoring pathogen inventories. Workshop participants also identified tensions in the field and suggested possible areas for action.

In a future where most people have computer implants in their heads to control their environment, a boy meets an unusual girl who is in serious trouble.

"I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," Leaves of Grass The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, The American Yawp incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of The American Yawp will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. The American Yawp traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, The American Yawp gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.
