A New York Times Best seller! In Level Zero Heroes, Michael Golembesky follows the members of U.S. Marine Special Operations Team 8222 on their assignment to the remote and isolated Taliban stronghold known as Bala Murghab as they conduct special operations in an effort to break the Taliban's grip on the Valley. What started out as a routine mission changed when two 82nd Airborne Paratroopers tragically drowned in the Bala Murghab River while trying to retrieve vital supplies from an air drop that had gone terribly wrong. In this one moment, the focus and purpose of the friendly forces at Forward Operating Base Todd, where Team 8222 was assigned, was forever altered as a massive clearing operation was initiated to break the

Taliban's stranglehold on the valley and recover the bodies. From close-quarters firefights in Afghan villages to capturing key-terrain from the Taliban in the unforgiving Afghan winter, this intense and personal story depicts the brave actions and sacrifices of MSOT 8222. Readers will understand the hopelessness of being pinned down under a hail of enemy gunfire and the quake of the earth as a 2000 lb. guided bomb levels a fortified Taliban fighting position. A powerful and moving story of Marine Operators doing what they do best, Level Zero Heroes brings to life the mission of these selected few that fought side-by-side in Afghanistan, in a narrative as action-packed and emotional as anything to emerge from the Special Operations community contribution to the Afghan War.

IN combating terror, America can no longer depend on its conventional military superiority and the use of sophisticated technology. We are fighting guerrilla wars, against insurgents hidden in remote regions, often deep among the local population. In battles such as these, squadrons of billion-dollar bombers and naval fleets mean much less than on-the-ground intelligence and the ability to organize local forces. That's why, more than ever before, we need men like those of the Army

In *Chosen Soldier*, Dick Couch—a former Navy SEAL widely admired for his books about SEAL training and operations—offers an unprecedented view of the training of the Army Special Forces warrior. Green Berets are expected to be deadly in combat, yes, but their responsibilities go far beyond those of other Special Operations fighters; they're taught

to operate in foreign cultures, often behind enemy lines; to recruit, train, and lead local forces; to gather intelligence in hostile territory; to forge bonds across languages and cultures. They must not only be experts in such fields as explosives, communications, engineering, and field medicine, but also be able to teach those skills to others. Each and every Green Beret must function as tactical combat leader, negotiator, teacher, drill sergeant, and diplomat.

These tasks require more than just physical prowess; they require a unique mix of character, intelligence, language skills, and—most of all—adaptability. It's no wonder that the Green Berets' training regimen is known as the hardest in the world. Drawing on his unprecedented access to the closed world of Army Special Forces training, Dick Couch paints a vivid, intimate portrait of these extraordinary men and the process that forges America's smartest, most versatile, and most
